

POST PASS

POST Authentication and Secure Services

PASS is the new, better way to sign into POST Websites.

3 Things to Know

1. PASS **simplifies access** to POST's online services:

- Sign-on is being consolidated into a single user-name and password

2. PASS allows POST to deliver **personalized information** of interest to specific users:

- Users may optionally link their POST IDs to their PASS accounts, to obtain instant access to their personal:
 - POST Profiles
 - CPT Status
 - Customized messages for their region, position, etc.

3. PASS **improves security**:

- Based on industry standards, and reduces the number of account and password databases
