

**SUPPLEMENT TO THE INITIAL STATEMENT OF REASONS
Commission Regulations 1005, 1007, and 1008 –
Amend Training and Testing Specifications for Peace Officer Basic Courses**

Specific Purpose

The Commission on Peace Officer Standards and Training (POST) proposes to amend Regulations 1005, 1007, and 1008, and sections of the document *Training and Testing Specifications for Peace Officer Basic Courses* (rev 2/1/17) to address the following changes:

- Make additional updates to curriculum as part of an ongoing review

All changes to basic academy curriculum begin with recommendations from law enforcement practitioners or, in some cases, via legislative mandates. POST then facilitates meetings with curriculum advisors and subject matter experts (SMEs) who recommend changes to existing academy curriculum. The Commission approved them at the June 23, 2016, Commission meeting, subject to the Notice of Proposed Regulatory Action process.

Rationale for Necessity

As part of the ongoing curriculum review, the following have been revised to either reflect emerging training needs, improve student learning and evaluation, or to comply with the requirements of recent regulatory changes to Title 22, Division 9, Chapter 1.5, Section 100017 made by the Emergency Medical Services Authority (EMSA). POST collaborated with EMSA and SME's to ensure thoroughness and accuracy with regulatory and professional requirements.

The numbers on the below table corresponds with the reference numbers on the LD pages for each topic of the *Training and Testing Specification for Peace Officer Basic Courses*. Each number explains the rationale for the amendments.

PAGE	RATIONALE FOR NECESSITY
34-1	Learning Need I, Learning Objective A – Added learning objective A to comply with 100017(c)(15).
34-1	Learning Need I, Learning Objective B – Updated learning objective to include responsibilities of peace officers as EMS first responders to emergencies to comply with 100017(c)(11)(C) and (ii) and 100017(c)(1)(A)(i) and expanded objective to include law enforcement actions and assessment and care of victims to identify the primary responsibilities to improve student learning and evaluation.

Added decontamination considerations as peace officers need to be aware of proper decontamination processes after deploying PPE.
34-2	Learning Need II – Updated learning need to improve student learning and evaluation.
34-2	Learning Need II, Learning Objective A – Updated learning objective to improve student learning and to comply with 100017(c)(4)(A) and (B).
