

## **INITIAL STATEMENT OF REASONS**

### **Amend Commission Regulation 1055**

---

The Commission on Peace Officer Standards and Training (POST) proposes to amend Regulation 1055 – Requirement for Course Presentation to address the following:

- replace the reference to Regulation 1053 in section (h) to properly reflect Regulation 1052.

#### **Justification for Proposed Revisions**

When POST staff contact presenters regarding course certification, staff frequently refer to Regulation 1052 – Requirement for Course Certification. This Regulation lists all the procedures and documents required to obtain POST certification for training courses.

Staff also refer to Regulation 1055 – Requirements for Course Presentation. This Regulation describes the processes involved with the presentation of a course. When speaking to presenters about the requirement for document retention, staff must currently provide a verbal or written correction to Regulation 1055(h), which incorrectly references Regulation 1053.

#### **Regulation 1055, Requirements of Course Presentation**

(h) – The proposed revision is necessary to replace the incorrect reference to Regulation 1053 with the correct reference to Regulation 1052.

#### **Business Impact/Small Businesses**

The Commission has made an initial determination that this regulatory proposal would have no significant statewide adverse economic impact directly affecting California businesses, including the ability of California businesses to compete with businesses in other states. The proposal does not affect small businesses, as defined by Government Code section 11342.610, because the Commission sets selection and training standards for law enforcement, which are government entities, and does not have an impact on California businesses, including small businesses.

#### **Cost Impacts on Representative Private Persons or Businesses**

The Commission on POST is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with this proposed action.

#### **Assessment**

The adoption of the proposed regulation amendments will neither create nor eliminate jobs in the State of California and will not result in the elimination of existing businesses or create or expand businesses in the State of California.

#### **Consideration of Alternatives**

The Commission determined that no reasonable alternative considered by the Commission or that has otherwise been identified and brought to the attention of the Commission would be more effective in carrying out the purpose for which the action is proposed, would be as effective, and less burdensome to affected private persons that the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provisions of the law.

## **INITIAL STATEMENT OF REASONS**

### **Amend Commission Regulation 1055**

---

#### **Benefits Anticipated**

The specific benefits anticipated by the proposed amendment to the regulations would eliminate the need to perform manual corrections and provide accurate information to presenters and POST staff.

#### **Economic Impact Analysis**

##### *Impact of Jobs/New Business:*

The Commission on POST sets law enforcement selection and training standards for its member law enforcement agencies. Participation in POST programs, and adherence to POST regulations, is voluntary and limited to law enforcement agencies that are governmental entities. The proposed regulatory revisions will neither create nor eliminate jobs in the State of California nor result in the elimination of existing businesses or create or expand businesses in the State of California.

##### *Assessment:*

The adoption of the proposed regulation amendments will neither create nor eliminate jobs in the state of California and will not result in the elimination of existing businesses or create or expand businesses in the State of California.

##### *Benefits of the Regulation:*

The benefits of proposed amendments to the regulation will increase the efficiency of the state of California in delivering services to stakeholders. Thus, the law enforcement standards are maintained and effective in preserving peace, protection of public health, safety, and welfare of California. The proposed amendments will have no impact on worker safety or the State's environment.
