Ronald Kaldor, Attorney at Law, representing Community College Consultants, addressed the Commission to request consideration of an addition to proposed regulation Section 1007, a request for designation of private training institutions also be provided in PAM D-7.

It was agreed inasmuch as staff had just received this proposal, the matter of certifying private training institutions be deferred until staff has ample opportunity for analysis.

There was no further discussion from the audience on this matter.

MOTION - Jackson, second - Holloway, carried unanimously to approve the public hearing proposal:

1. Amend Section 1001 (d) and (v) to read:

(d) "Certified Course" is a formal program of instruction for law enforcement for which the Commission approves individual presentations for the purpose of maintaining quality control.

(v) "Approved Course" is a curriculum that is determined by the Commission to satisfy a legislative mandate. Approved courses are described in Section 1007 of the Regulations.

Amend Section 1005, Minimum Standards for Training, to read:

1005. (g) Approved Courses (Legislatively Mandated)

After hearing testimony from PORAC President Jack Pearson and Riverside County Sheriff Ben Clark, who spoke in support of the regular Basic Course as a Level I reserve training standard; 13 representatives of law enforcement departments and associations spoke in support of the Advisory Committee's recommended standards. At the close of public testimony, the following action was taken:

Following discussion of the related issues, there was direction from the Chairman, Commission concurring, that the issue be re-assigned to the Advisory Committee to re-examine the questions that had been discussed. The Commission will take action on the issues at the October meeting.

G. Specialized Law Enforcement Committee

Committee Chairman Anthony reported on the Committee's recommendations for continuance of the public hearing at the October Commission meeting.

MOTION - Kolender, second - Trives, carried unanimously to adopt the Committee's recommendations for the Specialized Program standards for the public hearing agenda October 19, 1978, as set forth on the proposed bulletin, Attachment "C" of these minutes.

H. POST Selection Standard -- Reading Skills Test

MOTION - Grogan, second - Kolender, carried unanimously to delay enforcement of the reading skills requirement in Regulation 1002 (a)(7) indefinitely and await the Validation Studies Project reading-skills findings.

It was suggested by Commissioner Trives that consideration be given to the possibility that certification of reading ability be determined by the Department of Employment prior to hiring a recruit.

I. Future Basic Training Committee

Committee Chairman Jackson reported on the findings from the two Committee meetings held to date. Three future basic training suggestions were identified for consideration at the next meeting scheduled in late September.
They are:

1. Require completion of a basic course as a prerequisite for employment. Include only universally applicable training as required basic training.

2. Modify current policy of local option; continue reimbursement to jurisdictions which choose to train employees after employment but support open enrollment and provide an incentive to jurisdictions that hire pre-trained officers. Ameliorate cost problem by adoption of standard trainee salary which would be substantially lower than starting patrolman/deputy salaries.

3. Using performance objectives, identify universal conceptual objectives, universal psychomotor objectives, and local objectives. Universal conceptual objectives could be required as a prerequisite and integrated into the pre-service degree program. The entry examination could be job-knowledge test based on performance objectives.

J. Legislative Review Committee Report

Committee Chairman Ellingwood presented the Committee report, as follows:

S. B. 1808 - POST Specialized Law Enforcement Certification Program

MOTION - Ellingwood, second - Gates, carried unanimously that the Commission continue to oppose.

Proposed Study on Private Security

1. Identify the problem through meetings with law enforcement agency administrators and other concerned groups and solicit their suggestions for resolution of the problem.
2. Develop recommended legislation for improved state and/or local regulation of the private security industry.

3. Consider the degree and need of POST involvement, if any.

2. Technical Modifications of Regulations

MOTION - Anthony, second - Grogan, carried unanimously for approval of proposed technical amendments to the Regulations.

M. Appeal

Professor Ian McAndrews, California State University, Sacramento, addressed the Commission to appeal the Executive Director's decision to deny course certification, "Employee Relations in Law Enforcement." He stated the course meets the objectives of the need for both management and employees to understand the negotiation process, and that the simulation technique used is a required tool for education.

MOTION - Trives, second - Jackson, motion failed that the appeal be granted.

In the discussion that followed, there was consensus the field of labor negotiation process was not in the purview of law enforcement training and in conflict with POST policy.
MOTION - Trives, second - Jackson, carried unanimously that the Commission will not certify any course dealing with labor negotiations as set forth in the policy established at the March 25, 1977 Commission meeting.

The Executive Director questioned if it was the Commission's wish that all material relating to labor negotiations be removed from presently authorized curricula.

There was consensus it should be removed only if specific problems arise.

   MOTION - Grogan, second - Trives, motion carried (Jackson abstaining) for approval of a contract for 16 presentations of a 6-hour legislative update seminar at a total cost of $12,688; contract for purchase of 4,000 legislative update manuals at a cost of $4 each, for a total cost of $16,000; reimbursement for the seminar under Plan IV.

   MOTION - Grogan, second Trives, carried unanimously for approval of contracts No. 2, 3, 4, 5, and 6 as follows:

2. Executive Development Course - Thomas H. Anderson (contract renewal)

3. Management Course - Humboldt State University (contract renewal)

6. Management Course - Cal. State University, Long Beach

7 CSTI F.Y. 1978/79 (Contract modification)

The Commission Contract Review Committee's interim Chairman Grogan reported that due to receipt of added CCJP funding, CSTI would not use $179,000 of the original POST contract funds.

In discussing the request for recertification, CSTI requested modification of its contract to include new courses Contingency Planning for Hazardous Materials, Nuclear Site Security, Advanced Terrorism Analysis, Juvenile Investigation, and Robbery Investigations.

a. Driver Training Allocation

Tuition-based driver training allocations be provided to:

- Academy of Defensive Driving
  532 trainees @ $286 average = $152,152

  432 trainees @ $226 average = $97,632

And, it is required that departments which participate in reimbursable tuition-based driver training programs will collect and analyze police vehicle accident statistics, maintain current data, and establish accident review procedures designed to evaluate and reduce their accident problem.

2. Implementation of Revised Basic Course (BCEE)

Because equivalency evaluations requested prior to the effective date of the revised standard of 400 hours (July 1, 1978) have not been cleared, and all applicants approved for the BCEE did not take the test prior to July 1, the following action was taken:

MOTION - Trives, second - Anthony, carried unanimously for approval of the following:

All applicants for Basic Course equivalency waivers are subject to the training requirements in force at the time of equivalency request. The seminars will cover the history, effects, use, scientific investigation, laws and methods of handling PCP and its users. One seminar will be presented in the south and one in the north. The need is immediate for this type of training.
The course will acquaint officers having traffic responsibility with federal, state and local laws pertaining to commercial vehicles. The officers will be provided with a working knowledge and experience in the inspection of commercial vehicles. The California Highway Patrol (Sacramento) is the only presenter of this course. There is an established need in southern California for the training.

The FBI has invited top administration from 100 local, county, state and federal level law enforcement agencies to participate in an 18-hour seminar in terrorism. The instructors are from the FBI Academy at Quantico, Virginia and they will be speaking on the terrorist problem. They will cover the international, the national and the state situation. Included are some "how-to" in hostage negotiations and planning function on combating terrorism.

Criminal Investigation was a number one priority identified in the POST Training Needs Assessment study. The two 1977 offerings were filled within one week after the course announcements were mailed to agencies by the college. In addition to the Federal Bureau of Investigation, instructors will include investigators from the following local agencies: Los Angeles Police Department, Los Angeles District Attorney's Office, Los Angeles County Coroner's Office and San Jose Police Department.

DOJ was requested by POST to develop and present a Crisis Course wherein all materials used are free from copyright action. Funds for the course are to be taken from the modified 1977/78 contracts. Course is needed to fill void left when other presenters were decertified.

Diagnosis and neutralization of the stress producing situations will be featured.

Field Training Officer

**Summary:**

This course has been certified since December 10, 1970. On September 30, 1975, the department requested to reduce the number of training hours from 40 to 24. On April 7, 1978, a request was submitted to increase the training to 32 hours. The new course outline indicates an increase in those activities specifically designed to increase the effectiveness of the Field Training Officer.

Summary:

In 1974 Santa Barbara City College, Allan Hancock College and Cuesta College each applied for certification of a Jail Operations Course to meet the needs of the Santa Barbara and San Luis Obispo Sheriff's Departments. At POST staff suggestion, the three agreed to a single certification to be coordinated at Santa Barbara. The course was certified to a national "Central Coast Counties Consortium." Nine presentations have been made: 7 by Santa Barbara (80 students - primarily Santa Barbara Sheriff's Department); and none by Cuesta College. The choice of names was unfortunate as it has been a constant source of confusion to staff and users since there is a "Central Coast Counties Police Academy" at Gavilan College in Santa Clara County. In actuality, Santa Barbara College and Allan Hancock College have made presentations independent of each other and coordination has been handled by the POST area consultant. Since the consortium has not developed as originally envisaged and control could be better maintained if the two active presenters were individually certified, decertification would appear justified. The presenters concur.

BULLETIN: 78-14

SUBJECT: NOTICE OF PUBLIC HEARING - SPECIALIZED LAW ENFORCEMENT CERTIFICATION PROGRAM

In accordance with provisions of the Administrative Procedure Act and pursuant to the authority vested by Section 11422 of the Government Code, NOTICE IS HEREBY GIVEN that a hearing will be held by the Commission on Peace Officer Standards and Training:

10 a.m., October 19, 1978
Eureka Inn
7th & "F" Streets
Eureka, California

NOTE: This will be a continuation of the Public Hearing from April 20, 1978, and certain new recommendations will be considered which were not listed in the original Notice (Bulletin 78-6).

This hearing will address POST regulation changes which relate to standards for: (1) the POST Specialized Law Enforcement Certification Program and (2) Penal Code Section 13510.5 (Training Standards for Specified State Agencies). Regulations will become effective January 1, 1979.

Regulation Changes

1. Amend Regulation 1005 (a) - Basic Course

(4) Every specialized agency trainee shall satisfactorily meet the training requirements of the Basic Course, PAM, Procedure D-1, within 12 months from the date of appointment as a regularly employed specialized peace officer; or for those specialized agency trainees who have not completed the Basic Course, the chief law enforcement administrator may elect to substitute the Specialized Basic Investigators Course, PAM, Procedure D-12. (Proposed Basic Investigators Course available upon request)

2. Regulation 1005 (d) (Advanced Officer Course) will be required for all specialized peace officers.
3. Amend Commission Procedure D-7 (Specifications for Approved Courses) by designating the Advanced Officer Course as the standard which satisfies Penal Code Section 13510.5, relating to specified State Agency peace officers.

4. Regulation 1002 (a) (7) (Standards for Employment), the required reading examination, shall apply to specialized peace officers.

5. Amend Commission Procedure F-1 (Certification Programs) to allow qualified specialized agency peace officers to be eligible for POST Supervisory and Management Certificates.

6. Add Regulation 1009, which merges the Specialized Regulations into the Regular Regulations and establishes revised Specialized Agency entry standards for new entrant agencies but does not apply to agencies presently in the program, to read:

1009. Specialized Law Enforcement Certification Program. (Program Effective January 1, 1970)

By authority of Penal Code Section 13506, the POST Specialized Law Enforcement Certification Program is established for the purpose of raising the level of competence of specialized law enforcement officers. Only eligible law enforcement agencies, as determined by the Commission or otherwise provided by law may participate in this voluntary program and receive benefits. The cost of the education and training to meet minimum standards of the Program is the responsibility of the individual officer and/or agency. Acceptance and adherence to POST standards of selection and training are required if a specialized law enforcement agency is to participate in the Program.

(a) Objective.

The objective of the Commission on Peace Officer Standards and Training in establishing the Specialized Law Enforcement Certification Program is to foster professionalization:

(1) By establishing minimum standards related to the physical, mental, and moral fitness which govern the selection of specialized law enforcement officers;

(2) By establishing minimum standards of education and training deemed necessary to perform adequately the duties and responsibilities of specialized public law enforcement services.

(continued)
1009. Specialized Law Enforcement Certification Program (continued).

(b) Standards for Agency Entry into Program.

(1) Must perform enforcement or investigative duties, as defined by the Commission.

(2) At the time of application for entry into the Program, the Specialized Law Enforcement Agency must submit a schedule which ensures that all its presently employed peace officers will meet POST training standards within a reasonable period of time. For purposes of satisfying this requirement, the current training standards apply to agencies which have requested entry on or before August 1, 1978.

(3) Present to the Commission a certified copy of an ordinance requesting entry into the program or in the case of agencies not empowered to pass ordinances or resolutions—a letter of intent as prescribed by the Commission.

NOTICE OF PROPOSED CHANGES IN THE REGULATIONS OF THE COMMISSION ON POST

Notice is hereby given that the Commission on Peace Officer Standards and Training, pursuant to the authority vested by Section 11422 of the Government Code, and to implement Section 13506 of the Penal Code, proposes to amend Regulations in Title 11, Chapter 2 of the California Administrative Code:

Amend Section 1003, to read:

Notice of Peace Officer Appointment/Termination
Whenever an officer is newly appointed, enters a department laterally, or terminates, the department shall notify the Commission within 30 days of such action on a form approved by the Commission as prescribed in PAM, Section C, Notice of Peace Officer Appointment/Termination.

Amend Section 1005(b) Supervisory Course (Required), to read:

(1) Every officer promoted, appointed or transferred to a first-level supervisory position shall satisfactorily complete the Supervisory Course prior to promotion or within 12 months after initial promotion, appointment or transfer to such position.

(2) Every officer who is appointed or who will be appointed within 12 months to a first-level supervisory position may attend a certified Supervisory Course and the officer's jurisdiction may be reimbursed provided that the officer has been awarded the Basic Certificate.

(3) Requirements for the Supervisory Course are set forth in PAM, Section D, "The Supervisory Course".

Amend Section 1014 Training for Non-Sworn Personnel, to read:

(a) Reimbursement shall be provided for the training of non-sworn personnel performing police tasks as determined by the Commission.

(b) Request for Approval

(1) Whenever it is necessary for the employing jurisdiction to obtain prior written approval of the Commission, it shall be obtained on an individual basis (See PAM, Section E-1). A request for approval must include:

The trainee's name and job title
Job description
Course title, location and dates of presentation
(2) Requests for approval must reach the Commission 30 days prior to the starting date of the course.

(c) Reimbursement

Reimbursement for non-sworn personnel is computed in the same manner (except as noted below) as for sworn personnel, according to the reimbursement schedule for each course as set forth in PAM, Section E, "Reimbursement Schedule.

NOTE - No reimbursement is provided for the training of non-sworn personnel for expenses associated with courses enumerated in Regulation 1005 except as provided in PAM, Section E-1(f), "Training of Non-Sworn Personnel".

Following the public hearing the Commission will also consider changes in its reimbursement procedures related to travel and subsistence. For example: to provide subsistence - not to exceed an aggregate of 24 hours - while resident trainees are in travel to and from a training site; to increase the commuter allowance for meals to $5 per day of training; to permit the use of auto to and from the training site for two or more resident trainees traveling together when air travel results in greater subsistence/travel expenses than were auto travel used; to permit daily commuting for resident trainees between the training site and the trainee's temporary lodging accommodations; to permit commuting for resident trainees between the training site and the trainee's headquarters for weekends, holidays or split sessions in lieu of subsistence and when such travel expenditures do not exceed the subsistence allowable had the trainee selected to remain at the training site; and to define straight hourly salary rate. Numerous other changes in the Regulations and Procedures which are minor and technical are also to be considered.

Any person interested may present statements or arguments orally and in writing relevant to the action proposed, at

COMMISSION ON PEACE OFFICER STANDARDS AND TRAINING

POLICE VEHICLE ACCIDENT SURVEY

RECOMMENDATIONS

- Data collection efforts disclosed a distinct lack of knowledge within many departments of their individual accident problem including inadequate reporting, analysis, management review, and efforts toward a reduction of accidents. It is therefore recommended that individual departments should establish specific accident reporting procedures including a report of every accident on a standard form (no narrative memorandums) from which a statistical analysis is extracted; a formal review including an appropriate finding of preventability; and a specific plan, based on accident experience, to combat the problem.

- The study also disclosed a high frequency of accidents attributed to specific individuals within departments. Through a view toward vicarious liability or other concepts, some police administrators tend to believe training will produce a solution to the problem. Experienced driver training instructors, when faced with the problem of retraining such individuals, find that skill levels are high, but attitudes are poor. The driver training staff strongly believe that it is not possible to successfully alter attitudes in a period of 24 hours of training. It is therefore recommended that administrators review the entire record of a high-accident-frequency individual, specifically in the affective area of his behavior, prior to his assignment to additional training.

- During seminars of driver training managers and instructors in which statistically significant findings were presented, it was strongly emphasized by participants that it should be recommended that departments should recognize their real problems and develop individual programs in response to these problems; that vicarious liability and negligent retention concepts should be recognized especially on the part of the chief executive; that there is a real need for adequate supervision in the area of driver training; that management must realize that training is not the answer to all attitudes and disciplinary problems nor is it the answer to supervisory problems or the lack of supervision; and that management should support instructors to the extent of dismissing officers who are disciplinary problems.

- The reduction of costly police vehicle accidents is the responsibility of all supervisors and managers as well as chief executives. This responsibility is frequently not accepted or accountability not required, especially at the supervisory level. It is therefore recommended that aspects of driver training be conducted for supervisors and that management training include instruction on managing accident reduction programs.

- The driver training seminars were extremely successful from the point of

Attachment "F"
view of the participants. They appreciated the opportunity to consider findings, propose conclusions, and become a part of the process of providing recommendations. Their expertise was extensive, their enthusiasm evident, and their recommendations considered and thoughtful. Their association was productive in the interest of improving driver training in California. It is therefore recommended that bringing together these instructional experts in driver training as well as other highly technical training fields be continued and expanded.

Driver training instructors, after having considered the statistically significant findings, have concluded that present driver training teaches skills that cannot counteract poor attitudes and disciplinary problems. They recognize, however, needs to improve training and concur in the recommendations that trainers must guard against training that may cause overconfidence in younger and less experienced officers to the extent that the student must be apprised of the reality of street conditions at the conclusion of training. Further, the ever-changing and stressful street situations must be more realistically depicted and experienced during training.

MOTION - Kolender, second - Trives, carried unanimously to adopt the Committee's recommendations for the Specialized Program standards for the public hearing agenda October 19, 1978, as set forth on the proposed bulletin, Attachment "C" of these minutes.

H. POST Selection Standard -- Reading Skills Test

MOTION - Grogan, second - Kolender, carried unanimously to delay enforcement of the reading skills requirement in Regulation 1002 (a)(7) indefinitely and await the Validation Studies Project reading-skills findings.

It was suggested by Commissioner Trives that consideration be given to the possibility that certification of reading ability be determined by the Department of Employment prior to hiring a recruit.

I. Future Basic Training Committee

Committee Chairman Jackson reported on the findings from the two Committee meetings held to date. Three future basic training suggestions were identified for consideration at the next meeting scheduled in late September.
They are:

1. Require completion of a basic course as a prerequisite for employment. Include only universally applicable training as required basic training.

2. Modify current policy of local option; continue reimbursement to jurisdictions which choose to train employees after employment but support open enrollment and provide an incentive to jurisdictions that hire pre-trained officers. Ameliorate cost problem by adoption of standard trainee salary which would be substantially lower than starting patrolman/deputy salaries.

3. Using performance objectives, identify universal conceptual objectives, universal psychomotor objectives, and local objectives. Universal conceptual objectives could be required as a prerequisite and integrated into the pre-service degree program. The entry examination could be job-knowledge test based on performance objectives.

J. Legislative Review Committee Report

Committee Chairman Ellingwood presented the Committee report, as follows:

S. B. 1808 - POST Specialized Law Enforcement Certification Program

Professor Ian McAndrews, California State University, Sacramento, addressed the Commission to appeal the Executive Director's decision to deny course certification, "Employee Relations in Law Enforcement." He stated the course meets the objectives of the need for both management and employees to understand the negotiation process, and that the simulation technique used is a required tool for education.

MOTION - Trives, second - Jackson, motion failed that the appeal be granted.

In the discussion that followed, there was consensus the field of labor negotiation process was not in the purview of law enforcement training and in conflict with POST policy.
MOTION - Trives, second - Jackson, carried unanimously that the Commission will not certify any course dealing with labor negotiations as set forth in the policy established at the March 25, 1977 Commission meeting.

The Executive Director questioned if it was the Commission’s wish that all material relating to labor negotiations be removed from presently authorized curricula.

There was consensus it should be removed only if specific problems arise.

**MODIFIED**

### Course Title | Presenter | Course Category | Reimbursement Plan | Fiscal Impact
--- | --- | --- | --- | ---
Basic Vice Investigation | CSU, San Jose | Technical | I | $26,000

**Summary:**
The University was certified on August 8, 1977 to provide two approved Vice Investigation Courses. The success and demand for the course indicates a justifiable need for additional presentations. Modification of costs was requested to allow for per diem, material and meeting room cost increases. Two additional presentations will train 50 vice investigators at about $520 per student. POST courses have received outstanding evaluations.
Stress Management for Criminal Justice Personnel

**Summary:**

The university has requested that the course be certified for one additional presentation to accommodate students turned away from the original course presentation. The first presentation received adequate ratings from its participants. The course is designed to allow law enforcement managers and supervisors to recognize the potentially stressful situations that arise from the "life style" of police work. Diagnosis and neutralization of the stress producing situations will be featured.

**Summary:**

CHP has requested that they be allowed to increase the tuition of this course from $180 to $225. The increase is due to an increase in operating expenses. Previous change in the tuition occurred effective July 1, 1977. Change was a reduction in tuition.

**Summary:**

This course has been certified since December 10, 1970. On September 30, 1975, the department requested to reduce the number of training hours from 40 to 24. On April 7, 1978, a request was submitted to increase the training to 32 hours. The new course outline indicates an increase in those activities specifically designed to increase the effectiveness of the Field Training Officer.

**Summary:**

This course is currently certified for 80 hours. The course coordinator has submitted a request for a variable format of from 50 to 80 hours. This course is normally presented one to two times per year.
The University was certified on March 22, 1977, to provide two approved Robbery Investigation Courses. Present demand for the course indicates a need for additional presentations. The two previous presentations have received excellent evaluations and support of field officers. Three additional presentations will train 75 investigators at about $249 per student. POST presentations have been rated from very good to excellent.

Summary:
In 1974 Santa Barbara City College, Allan Hancock College and Cuesta College each applied for certification of a Jail Operations Course to meet the needs of the Santa Barbara and San Luis Obispo Sheriff's Departments. At POST staff suggestion, the three agreed to a single certification to be coordinated at Santa Barbara. The course was certified to a national "Central Coast Counties Consortium." Nine presentations have been made: 7 by Santa Barbara (80 students - primarily Santa Barbara Sheriff's Department); and none by Cuesta College. The choice of names was unfortunate as it has been a constant source of confusion to staff and users since there is a "Central Coast Counties Police Academy" at Gavilan College in Santa Clara County. In actuality, Santa Barbara College and Allan Hancock College have made presentations independent of each other and coordination has been handled by the POST area consultant. Since the consortium has not developed as originally envisaged and control could be better maintained if the two active presenters were individually certified, decertification would appear justified. The presenters concur.

BULLETIN: 78-14

SUBJECT: NOTICE OF PUBLIC HEARING - SPECIALIZED LAW ENFORCEMENT CERTIFICATION PROGRAM

In accordance with provisions of the Administrative Procedure Act and pursuant to the authority vested by Section 11422 of the Government Code, NOTICE IS HEREBY GIVEN that a hearing will be held by the Commission on Peace Officer Standards and Training:

10 a.m., October 19, 1978
Eureka Inn
7th & "F" Streets
Eureka, California

NOTE: This will be a continuation of the Public Hearing from April 20, 1978, and certain new recommendations will be considered which were not listed in the original Notice (Bulletin 78-6).

This hearing will address POST regulation changes which relate to standards for: (1) the POST Specialized Law Enforcement Certification Program and (2) Penal Code Section 13510.5 (Training Standards for Specified State Agencies). Regulations will become effective January 1, 1979.

Regulation Changes

1. Amend Regulation 1005 (a) - Basic Course

(4) Every specialized agency trainee shall satisfactorily meet the training requirements of the Basic Course, PAM, Procedure D-1, within 12 months from the date of appointment as a regularly employed specialized peace officer; or for those specialized agency trainees who have not completed the Basic Course, the chief law enforcement administrator may elect to substitute the Specialized Basic Investigators Course, PAM, Procedure D-12. (Proposed Basic Investigators Course available upon request)

2. Regulation 1005 (d) (Advanced Officer Course) will be required for all specialized peace officers.

(continued)
3. Amend Commission Procedure D-7 (Specifications for Approved Courses) by designating the Advanced Officer Course as the standard which satisfies Penal Code Section 13510.5, relating to specified State Agency peace officers.

4. Regulation 1002 (a) (7) (Standards for Employment), the required reading examination, shall apply to specialized peace officers.

5. Amend Commission Procedure F-1 (Certification Programs) to allow qualified specialized agency peace officers to be eligible for POST Supervisory and Management Certificates.

6. Add Regulation 1009, which merges the Specialized Regulations into the Regular Regulations and establishes revised Specialized Agency entry standards for new entrant agencies but does not apply to agencies presently in the program, to read:

1009. Specialized Law Enforcement Certification Program. (Program Effective January 1, 1970)

By authority of Penal Code Section 13506, the POST Specialized Law Enforcement Certification Program is established for the purpose of raising the level of competence of specialized law enforcement officers. Only eligible law enforcement agencies, as determined by the Commission or otherwise provided by law may participate in this voluntary program and receive benefits. The cost of the education and training to meet minimum standards of the Program is the responsibility of the individual officer and/or agency. Acceptance and adherence to POST standards of selection and training are required if a specialized law enforcement agency is to participate in the Program.

(a) Objective.

The objective of the Commission on Peace Officer Standards and Training in establishing the Specialized Law Enforcement Certification Program is to foster professionalization:

(1) By establishing minimum standards related to the physical, mental, and moral fitness which govern the selection of specialized law enforcement officers;

(2) By establishing minimum standards of education and training deemed necessary to perform adequately the duties and responsibilities of specialized public law enforcement services.

(continued)
1009. Specialized Law Enforcement Certification Program (continued).

(b) Standards for Agency Entry into Program.

(1) Must perform enforcement or investigative duties, as defined by the Commission.

(2) At the time of application for entry into the Program, the Specialized Law Enforcement Agency must submit a schedule which ensures that all its presently employed peace officers will meet POST training standards within a reasonable period of time. For purposes of satisfying this requirement, the current training standards apply to agencies which have requested entry on or before August 1, 1978.

(3) Present to the Commission a certified copy of an ordinance requesting entry into the program or in the case of agencies not empowered to pass ordinances or resolutions—a letter of intent as prescribed by the Commission.

(c) Program Provisions.

The provisions for the Specialized Law Enforcement Certification Program are the same as the Regular Program except as expressed in the Regulations and Procedures.

Necessary technical changes may be made as a result of these changes.

7. The moratorium on entry of new agencies into the Program will be removed.

Notice is also given that any person interested may present statements or arguments orally or in writing relevant to the action proposed at the hearing. Written communications should be directed to:

William R. Garlington
Executive Director
Commission on POST
7100 Bowling Drive, Suite 250
Sacramento, CA 95823

The Commission has determined that the above regulations will create no new costs to local government, pursuant to Section 2231 of the Revenue and Taxation Code, since the Specialized Law Enforcement Certification Program is voluntary.

Effective 6-20-78
Subject: NOTICE OF PROPOSED CHANGES IN THE REGULATIONS OF THE COMMISSION ON POST

Notice is hereby given that the Commission on Peace Officer Standards and Training, pursuant to the authority vested by Section 11422 of the Government Code, and to implement Section 13506 of the Penal Code, proposes to amend Regulations in Title 11, Chapter 2 of the California Administrative Code:

Amend Section 1003, to read:

Notice of Peace Officer Appointment/Termination
Whenever an officer is newly appointed, enters a department laterally, or terminates, the department shall notify the Commission within 30 days of such action on a form approved by the Commission as prescribed in PAM, Section C, Notice of Peace Officer Appointment/Termination.

Amend Section 1005(b) Supervisory Course (Required), to read:

(1) Every officer promoted, appointed or transferred to a first-level supervisory position shall satisfactorily complete the Supervisory Course prior to promotion or within 12 months after initial promotion, appointment or transfer to such position.

(2) Every officer who is appointed or who will be appointed within 12 months to a first-level supervisory position may attend a certified Supervisory Course and the officer's jurisdiction may be reimbursed provided that the officer has been awarded the Basic Certificate.

(3) Requirements for the Supervisory Course are set forth in PAM, Section D, "The Supervisory Course".

Amend Section 1014 Training for Non-Sworn Personnel, to read:

(a) Reimbursement shall be provided for the training of non-sworn personnel performing police tasks as determined by the Commission.

(b) Request for Approval

(1) Whenever it is necessary for the employing jurisdiction to obtain prior written approval of the Commission, it shall be obtained on an individual basis (See PAM, Section E-1). A request for approval must include:

The trainee's name and job title
Job description
Course title, location and dates of presentation
(2) Requests for approval must reach the Commission 30 days prior to the starting date of the course.

(c) Reimbursement
Reimbursement for non-sworn personnel is computed in the same manner (except as noted below) as for sworn personnel, according to the reimbursement schedule for each course as set forth in PAM, Section E, "Reimbursement Schedule". NOTE - No reimbursement is provided for the training of non-sworn personnel for expenses associated with courses enumerated in Regulation 1005 except as provided in PAM, Section E-1(f), "Training of Non-Sworn Personnel".

Following the public hearing the Commission will also consider changes in its reimbursement procedures related to travel and subsistence. For example: to provide subsistence - not to exceed an aggregate of 24 hours - while resident trainees are in travel to and from a training site; to increase the commuter allowance for meals to $5 per day of training; to permit the use of auto to and from the training site for two or more resident trainees traveling together when air travel results in greater subsistence/travel expenses than were auto travel used; to permit daily commuting for resident trainees between the training site and the trainee's temporary lodging accommodations; to permit commuting for resident trainees between the training site and the trainee's headquarters for weekends, holidays or split sessions in lieu of subsistence and when such travel expenditures do not exceed the subsistence allowable had the trainee selected to remain at the training site; and to define straight hourly salary rate. Numerous other changes in the Regulations and Procedures which are minor and technical are also to be considered.

Any person interested may present statements or arguments orally and in writing relevant to the action proposed, at

10 a.m., October 19, 1978
Eureka Inn, Eureka
7th and F Streets
Eureka, California

Notice is also given that any person interested may by the above date present written statements to:

William R. Garlington, Executive Director
POST, 7100 Bowling Drive, #250
Sacramento, California 95823

The Commission has determined that the above regulations will create no new costs to local government, pursuant to Section 2231 of the Revenue and Taxation Code.

COMMISSION ON PEACE OFFICER STANDARDS AND TRAINING

POLICE VEHICLE ACCIDENT SURVEY

RECOMMENDATIONS

Data collection efforts disclosed a distinct lack of knowledge within many departments of their individual accident problem including inadequate reporting, analysis, management review, and efforts toward a reduction of accidents. It is therefore recommended that individual departments should establish specific accident reporting procedures including a report of every accident on a standard form (no narrative memorandums) from which a statistical analysis is extracted; a formal review including an appropriate finding of preventability; and a specific plan, based on accident experience, to combat the problem.

The study also disclosed a high frequency of accidents attributed to specific individuals within departments. Through a view toward vicarious liability or other concepts, some police administrators tend to believe training will produce a solution to the problem. Experienced driver training instructors, when faced with the problem of retraining such individuals, find that skill levels are high, but attitudes are poor. The driver training staff strongly believe that it is not possible to successfully alter attitudes in a period of 24 hours of training. It is therefore recommended that administrators review the entire record of a high-accident-frequency individual, specifically in the affective area of his behavior, prior to his assignment to additional training.

During seminars of driver training managers and instructors in which statistically significant findings were presented, it was strongly emphasized by participants that it should be recommended that departments should recognize their real problems and develop individual programs in response to these problems; that vicarious liability and negligent retention concepts should be recognized especially on the part of the chief executive; that there is a real need for adequate supervision in the area of driver training; that management must realize that training is not the answer to all attitudes and disciplinary problems nor is it the answer to supervisory problems or the lack of supervision; and that management should support instructors to the extent of dismissing officers who are disciplinary problems.

The reduction of costly police vehicle accidents is the responsibility of all supervisors and managers as well as chief executives. This responsibility is frequently not accepted or accountability not required, especially at the supervisory level. It is therefore recommended that aspects of driver training be conducted for supervisors and that management training include instruction on managing accident reduction programs.

The driver training seminars were extremely successful from the point of
view of the participants. They appreciated the opportunity to consider
findings, propose conclusions, and become a part of the process of provid-
ing recommendations. Their expertise was extensive, their enthusiasm evident,
and their recommendations considered and thoughtful. Their association was
productive in the interest of improving driver training in California. It is
therefore recommended that bringing together these instructional experts in
driver training as well as other highly technical training fields be continued
and expanded.

Driver training instructors, after having considered the statistically sig-
nificant findings, have concluded that present driver training teaches skills
that cannot counteract poor attitudes and disciplinary problems. They
recognize, however, needs to improve training and concur in the recom-
mendations that trainers must guard against training that may cause over-
confidence in younger and less experienced officers to the extent that the
student must be apprised of the reality of street conditions at the conclusion
of training. Further, the ever-changing and stressful street situations must
be more realistically depicted and experienced during training.
This report covers the First Quarter of the 1978-79 Fiscal Year, July 1 through September 30, 1978, showing revenue for the Peace Officers' Training Fund and expenditures made from the Fund for administrative costs and for reimbursements for training costs to cities, counties, and districts in California. Detailed information is included showing a breakdown of training costs by category of expense, i.e., subsistence, travel, tuition and salary of the trainee (Schedule I). Also included is the quarterly cumulative report of reimbursement (Schedule II) made from the Peace Officers' Training Fund providing detailed information on:

Reimbursements made for each course category of training,

Louis I. Sporrer, Chairman
Commission on Peace Officer
Standards and Training
7100 Bowling Drive - Suite 250
Sacramento, California 95823

Dear Commissioner Sporrer:

Upon the nomination of the Board of Directors of the Women Peace Officers' Association, the Commission appointed me to represent the Association on the Advisory Committee to the Commission, from January 1977 - September 1979.

Due to my retirement from the University of California Police Department, Los Angeles, on Tuesday, November 28, 1978, and my understanding that the representative must be employed, I have notified our President, Margaret Hartmann, that the Board of Directors should nominate an alternate to represent the Association for the remaining months of this appointment.

Because of its purpose and goals of maintaining a high calibre of selection and training standards for the law enforcement officers of today, the members of WPOA feel fortunate that they were included in these endeavors.

It has been my pleasure to serve as a member of the Advisory Committee and I wish to thank each of the Commissioners, the Executive Director and his staff, and the Advisory Committee members for the courtesies extended to me during my appointment. I will miss the challenges and the many individual friendships.

I will continue to be active in the activities of the Women Peace Officers' Association and hope that you will feel free to contact me if I may be of any assistance.

Respectfully,

Roberta B. Doran

Dear Duane:

Attached is a copy of a letter from POST Chairman Louis L. Sporrer asking for a representative for the California State Sheriffs' Association. Per our telephone conversation, I would like to withdraw my request to continue until my term expires.

I think it would be to the best interests of the Sheriffs' Association that you replace my position on the POST Advisory Committee.

It has been a pleasure and honor to represent the California State Sheriffs as a member on the POST Advisory Committee and I believe I have diligently represented the Sheriffs of this state and their concerns over peace officer standards and training and I wish to thank all my colleagues who have allowed me to represent them.

I would like to recommend Sutter County Sheriff Roy Whiteaker for the position. I have known Sheriff Whiteaker for a number of years and have the utmost confidence that he will represent the California State Sheriffs' Association with equal diligence. Sheriff Whiteaker is a tenured Sheriff and will effectively represent
all peace officers in a difficult task of setting standards and training requirements.

Finally, I will be available to assist my replacement concerning his duties as a POST Advisory Committee member.

Sincerely,

JIM GRANT, Sheriff-Coroner

Dear Mr. Sporrer:

Regarding your letter of August 29, 1978 concerning the retirement of Lt. Roberta Doran from Law Enforcement. As her replacement on the POST Advisory Committee, the Women Peace Officers' Association would like to name Captain Barbara Ayres of the Orange County Sheriff's Office.

Captain Ayres has been involved in Law Enforcement since 1952 when she joined the Los Angeles Sheriff's Office, serving four years as a deputy in the jails and two years in the East Los Angeles Station as a complaint deputy and on patrol. She resigned in 1958 to raise her family. In 1964 after some experience in industrial security and the Department of Corrections, Captain Ayres became a member of the Orange County Sheriff's Office as Supervising Matron, a position which was reclassified as Sergeant in 1967. In 1968 she was appointed a Lieutenant, and was made a Captain in 1975. At that time she was put in charge of the Personnel and Training Division. As Commanding Officer of this division, Captain Ayres supervises personnel matters including recruitment, promotions, employee relations, internal affairs, county and state licensing, and reserve officers. Under training, she is responsible for the training facility, which conducts training for eighteen of the twenty-three Law Enforcement agencies in Orange County. This includes any departmental in service training as well as recruit training. Training also includes the range and the Hazardous Devices Unit or bomb squad.

In addition to an AA degree in Sociology, Captain Ayres has taken courses in Police Science and Management from both California State University Long Beach and Fullerton. Captain Ayres has all POST Certificates through the management certificate.

She is currently serving on the California Peace Officers' Association Executive Board as their representative to the W.P.O.A. Captain Ayres also serves on the C.P.O.A. Law Enforcement Psychological Stress Committee.
The Board of Directors of the W.P.O.A. wishes to continue our representation on your Advisory Committee and feels that Captain Ayres is eminently qualified to fill this position. I hope this nomination meets with your approval.

Sincerely

Margaret Hartmann

The Commission should consider reappointment of one or both, who are willing to serve another term, or appoint other persons to these positions.
Background

Staff has been directed to report on actions taken by the Commission which establish or affect Commission policies and procedures. This report is made for approval of action taken at previous meetings.

Analysis

1. On March 25, 1977, under Agenda Item E, the Commission adopted the policy on labor management course certification expressed below. This policy was reaffirmed at the July 27-28, 1978 meeting under Agenda Item M, and will be reflected in the Commission Policy Manual.

   Labor Management Course Certification

   The Commission will not certify courses which train "management" and/or "employees" in labor negotiations, but treat certification requests for labor management as any other course.

2. On July 29, 1977, under Agenda Item G, POST Management Course Contract, the Commission approved the staff's definition of team teaching. This definition will be placed in the Commission Policy Manual.

   Team Teaching

   Team teaching is defined as having two instructors in the classroom for actual teaching purposes and under conditions which the particular subject matter, material, or format of instruction may require, which may include workshops, exercises or panel discussions. No coordinator or observer shall be considered a teacher.

3. On July 27-28, 1978, under Agenda Item Q-1, Police Vehicle Accident Study Report/Driver Training Allocation, the Commission approved staff recommendations regarding two tuition-based driver training courses, and a requirement that departments wishing to participate in tuition-based driver training courses be required to collect and analyze police vehicle accidents. This action will be reflected in the Commission Policy Manual as:
Commission Policy and Procedures (continued)

Driver Training – Required Analysis

It is Commission policy that departments wishing to participate in reimbursable tuition-based driver training programs be required to collect and analyze their police vehicle accident data, maintain current data, and establish accident review procedures designed to evaluate and reduce their police vehicle accident problem.

4. At the end of the July 27-28, 1978 Commission Meeting, the chairman directed that a policy be established to avoid a deluge of staff reports in the final days prior to a Commission Meeting, or the distribution of such reports during a meeting.

The following statement is proposed for inclusion in the Commission Policy Manual:

Commission Agenda Material Mailing

All agenda item material must be sent to commissioners at least two weeks before Commission Meetings. Items that cannot be finalized and mailed by that time are to be held for the next Commission Meeting. Financial reports are excepted.

Additionally, the following statements will be included in POST Internal Manual (PIM) C-1:

Advance Mailing. The completed agenda and all supporting material shall be assembled in a binder and mailed to each Commissioner at least two weeks prior to the scheduled meeting. Financial reports are excepted.

Late Items. Agenda items shall be eliminated from the agenda if the necessary back-up material has not been submitted to the Executive Office in time for the advanced mailing. Such late items may be covered only under Old/New Business at the discretion of the Executive Director.

5. During the July 27-28, 1978 Commission Meeting, under Agenda Item H, POST Selection Standard – Reading Skills Test, the Commission voted to delay enforcement of the reading skills requirement until completion of the Validation Studies Project. This action will be reflected in the Commission Policy Manual as follows:

Reading Level Requirement

Enforcement of Section 1002(a)(7), of the Regulations, is to be delayed indefinitely to await the Validation Studies Project reading-skills findings.

Recommendation

The above policies be codified as indicated.
The Commission's policy that units based upon life experience be limited to courses which are offered by the awarding institution is not being followed consistently by all educational institutions.

One institution, for example, has added "Career Practicum Courses" to its catalogue, in an effort to circumvent the Commission's requirement that the "... courses are offered by the awarding institution." By adding these "catch-all" courses to its catalogue, the institution is awarding units of credit for certificated learning on such courses as Jail Operations, First Aid, Basic Reserve Course, etc. -- courses which are not offered by the educational institution.

Another problem encountered in evaluating credit units awarded by the institution is that it is also awarding credits for life experience for such events as "taking a European trip, going through a divorce, landscaping a backyard, experiencing a death in the family and watching a wife give birth to a child."

The example institution apparently believes that it is at least technically complying with the Commission's requirement that units of credit based upon experience be limited to courses which are routinely offered by the awarding institution.

In order to ensure better understanding of the Commission's policy and intent insofar as credit for life experience is concerned, it is recommended that the following provisions be added to Commission Procedure F-1.

In order for an educational institution's degree/credits to be accepted by the Commission on Peace Officer Standards and Training in the issuance of any POST certificate, the following conditions must be met.

1. The course catalogue of the degree/credit granting institution must contain a detailed description of any course for which credits are awarded.
2. Units of credit awarded on the basis of an evaluation of life experience must be based upon an evaluation by a faculty member who teaches the specific subject area.

3. The course must be offered as a regular part of an educational institution's curriculum and members of the student body who are not earning credit units on the basis of life experience must be able to attend the course.

4. Credit units awarded for training completed at other than the awarding institution, sometimes referred to as "certificated learning", must be restricted to obviously comparable courses offered by the educational institution which may be attended by members of the institution's student body.

5. Assessments in the award of credit for experiential learning—both "extra institutional learning" and certificated learning must be limited to that which is demonstrated by students in terms of specific articulated curriculum and course equivalence.
Gov. Edmund G. Brown Jr. had made the following appointments.

Governor Brown has also reappointed Jacob J. Jackson of Sacramento to the Commission on Peace Officer Standards and Training.

Jackson, 42, is a sergeant with the Sacramento Police Department. He is the former director of the Sacramento Police Officers' Association and legislative chairman of the Peace Officers Research Association of California.

A Democrat, Jackson has served on the commission since April 20, 1976. His present term expires January 15, 1981.

Commission members receive compensation for expenses. The appointment requires Senate confirmation.

BULLETIN: 78 - 12

Subject: NOTICE OF PROPOSED CHANGES IN THE REGULATIONS OF THE COMMISSION ON POST

Notice is hereby given that the Commission on Peace Officer Standards and Training, pursuant to the authority vested by Section 11422 of the Government Code, and to implement Section 13506 of the Penal Code, proposes to amend Regulations in Title 11, Chapter 2 of the California Administrative Code:

Amend Section 1003, to read:

Notice of Peace Officer Appointment/Termination
Whenever an officer is newly appointed, enters a department laterally, or terminates, the department shall notify the Commission within 30 days of such action on a form approved by the Commission as prescribed in PAM, Section C, Notice of Peace Officer Appointment/Termination.

Amend Section 1005(b) Supervisory Course (Required), to read:

(1) Every officer promoted, appointed or transferred to a first-level supervisory position shall satisfactorily complete the Supervisory Course prior to promotion or within 12 months after initial promotion, appointment or transfer to such position.

(2) Every officer who is appointed or who will be appointed within 12 months to a first-level supervisory position may attend a certified Supervisory Course and the officer's jurisdiction may be reimbursed provided that the officer has been awarded the Basic Certificate.

(3) Requirements for the Supervisory Course are set forth in PAM, Section D, "The Supervisory Course".

Amend Section 1014 Training for Non-Sworn Personnel, to read:

(a) Reimbursement shall be provided for the training of non-sworn personnel performing police tasks as determined by the Commission.

(b) Request for Approval

(1) Whenever it is necessary for the employing jurisdiction to obtain prior written approval of the Commission, it shall be obtained on an individual basis (See PAM, Section E-1). A request for approval must include:

The trainee's name and job title
Job description
Course title, location and dates of presentation
(2) Requests for approval must reach the Commission 30 days prior to the starting date of the course.

(c) Reimbursement
Reimbursement for non-sworn personnel is computed in the same manner (except as noted below) as for sworn personnel, according to the reimbursement schedule for each course as set forth in PAM, Section B, "Reimbursement Schedule".
NOTE - No reimbursement is provided for the training of non-sworn personnel for expenses associated with courses enumerated in Regulation 1005 except as provided in PAM, Section B-1(f), "Training of Non-Sworn Personnel".

Following the public hearing the Commission will also consider changes in its reimbursement procedures related to travel and subsistence. For example: to provide subsistence - not to exceed an aggregate of 24 hours - while resident trainees are in travel to and from a training site; to increase the commuter allowance for meals to $5 per day of training; to permit the use of auto to and from the training site for two or more resident trainees traveling together when air travel results in greater subsistence/travel expenses than were auto travel used; to permit daily commuting for resident trainees between the training site and the trainee's temporary lodging accommodations; to permit commuting for resident trainees between the training site and the trainee's headquarters for weekends, holidays or split sessions in lieu of subsistence and when such travel expenditures do not exceed the subsistence allowable had the trainee selected to remain at the training site; and to define straight hourly salary rate. Numerous other changes in the Regulations and Procedures which are minor and technical are also to be considered.

Any person interested may present statements or arguments orally and in writing relevant to the action proposed, at

10 a.m., October 19, 1978
Eureka Inn, Eureka
7th and F Streets
Eureka, California

Notice is also given that any person interested may by the above date present written statements to:

William R. Garlington, Executive Director
POST, 7100 Bowling Drive, #250
Sacramento, California 95823

The Commission has determined that the above regulations will create no new costs to local government, pursuant to Section 2231 of the Revenue and Taxation Code.

LOUIS L. SPORRER
Chairman
At the July 27, 1978, meeting the Commission approved for public hearing the following substantive amendments of the Regulations:

1. Amend Regulation 1003 to include notice of termination.

2. Amend Regulation 1005(b)(2) to limit reimbursement for training expenses for the Supervisory Course to officers appointed or who will be appointed within 12 months to a first-level supervisory position.

3. Amend Regulation 1014 to only require prior approval of non-sworn personnel training only when the training is not specific to the job assignment of the employee.

In addition to the above proposed amendments of the Regulations, several substantive amendments are also proposed for the Commission's reimbursement procedures, as follows:

1. Increase the Commuter Trainee Meal Allowance from $3 to $5 daily.

2. Allow for Resident Trainee reimbursement of subsistence expenditures, not to exceed an aggregate time period of 24 hours, while enroute to and from the course site and the trainee's headquarters.

3. Allow for reimbursement of expenses related to daily commuting from the trainee's lodging accommodation and the training site.

4. Allow for reimbursement of travel expenses, in lieu of subsistence, on weekends and breaks in training.

5. Allow for reimbursement of motor vehicle travel expenses for two or more trainees in lieu of air transportation, or when scheduled commercial air transportation necessitates greater subsistence/travel expenditures than where a motor vehicle is used.

6. Provide a uniform and equitable means to determine salary rate to be claimed for reimbursement.
BACKGROUND:

Since the Commission's Regulations were originally adopted, they have been amended and added to on numerous occasions. It has been several years since the Commission's Regulations and Procedures have undergone systematic review and revision to correct: (a) inadvertent inconsistencies which sometimes have resulted from the gradual amendment process; or (b) to express more clearly provisions that are found to be misleading or ambiguous; and (c) to revise certain provisions so that they are consistent with contemporary policy or practices of the Commission. All of these types of changes are considered to be technical in nature.

In addition to these technical changes, substantive revisions also are found to be necessary from time to time. These result from the perceived need for new policy or procedures.

In the attached material, Section A, the proposed revisions of the Commission's Regulations (and Procedures) are substantive in nature and require public hearing. An explanation of each such change is provided. Those changes which are technical are in Section B. Although technical changes of the Regulations and changes of the Commission's Procedures do not require a public hearing, the Commission may wish to review these changes publicly or to solicit comments from the persons who are present.

NOTE: The items in Sections A and B which are substantive are designated in the margin by a star.
SECTION A

SUBSTANTIVE AMENDMENTS

1. Departments participating in the POST program have for several years submitted the POST form "Notice of Peace Officer Appointment" to update our files and to assist the area consultants in performing their inspectional role. Over eighty thousand file cards are now on hand. Many of the persons named on these cards are now deceased, retired, or have terminated their peace officer employment. Notification of such changes of status of individuals would, in time, provide POST with current valid data upon which to make management and planning decisions and provide better service to participating agencies. The proposed amendment:

Regulation 1003. Notice of Peace Officer Appointment/Termination

Whenever an peace-officer is newly appointed, or enters a department laterally, or terminates, the department shall notify the Commission within 30 days of the appointment such action on a form approved by the Commission as prescribed in PAM, Section C, Notice of Peace Officer Appointment/Termination.

2. The Regulations now permit any officer to attend a Supervisory Course, and the jurisdiction to receive reimbursement, without regard to the officer being appointed as a supervisor. The only prerequisite has been that the trainee has been awarded or is eligible for the award of the Basic Certificate. This practice supported the theory that such training would encourage greater productivity through awareness of a person's current assignment and would encourage and prepare the person for promotion.

In observance of current fiscal constraints, the suggested amendment would permit the training to be provided with reimbursement for those having a need and who are addressed by the mandate to have this training. Agencies that might like to support such training as a type of career development could do so at their own expense. The proposed amendment:

Regulation 1005(b) Supervisory Course (Required)

(1) Every officer promoted, appointed or transferred to a first-level supervisory position shall have satisfactorily
3. Proposed amendments to Regulation 1014 and Procedure E-1, sub-paragraph (f) would discontinue the requirement for departments obtaining prior written approval of the Commission on an individual basis. The present procedure has not proven to be effective, as granting these requests is, in effect, pro forma. The few requests that are denied do not merit the workload imposed upon participating jurisdictions or POST staff in processing requests for approval. As proposed, only requests for training in courses which are not specific to the job assignment of these persons will require prior approval. The suggested amendments would also express within the Commission's procedures the Commission's present policy regarding the reimbursement for expenses related to the basic training of non-sworn personnel. The proposed amendment:

Regulation 1014. Training for Non-Sworn Personnel

(a) Reimbursement shall be provided for the training of non-sworn personnel performing police tasks as determined by the Commission.

(b) Non-sworn personnel performing police tasks are described in PAM, Section E-

(eb) Request for Approval

(1) In every-case Whenever it is necessary for the employing jurisdiction to obtain prior written approval of the Commission, it shall be obtained on an individual basis (See PAM, Section E-1). A request for approval must
include:

(a) The trainee's name and job title.
(b) Job description.
(c) Course title, location and dates of presentation.

(2) Request for approval must reach the Commission 30 days prior to the starting date of the course.

(d) Reimbursement

Reimbursement for non-sworn personnel will be computed in the same manner (except as noted below) as for sworn personnel according to the reimbursement schedule for each course as set forth in PAM, Section E, "Reimbursement Schedule".

Note - No reimbursement is provided for the training of non-sworn personnel for expenses associated with courses enumerated in Regulation 1005 except as provided in PAM, Section E-1 (f), "Training of Non-Sworn Personnel".

Procedure E 1-3(f).

Training for Non-Sworn Personnel: Reimbursement is provided for the training of non-sworn personnel performing police tasks as determined by the Commission. (1) The training shall be specific to the task currently being performed by an employee or may be training specific to a future assignment which is actually being planned. (2) Non-sworn personnel may attend the courses identified in Section 1005 (a) (b) (c) (d) (e) but normally reimbursement shall not be provided. Notwithstanding the provisions of Regulations 1015 (b), reimbursement for expenditures related to a successfully completed certified Basic Course may be claimed after a non-sworn employee is appointed as a peace officer and the basic training was completed not more than two fiscal years prior to the submission of the claim for reimbursement. (3) For attendance of certified Basic Course and for attendance with reimbursement for training which is not specific to one of the job classes enumerated hereafter, the employing jurisdiction must obtain prior approval from the Commission on an individual basis. A request for approval must include: the trainee's name and title, job description, course title, school
and dates of presentation. The request must reach the Commission 30 days prior to the starting date of the course, as specified in Section 1014 of the Regulations. Persons who are to be assigned or are assigned to the following tasks are eligible, without prior approval from POST, to attend training courses, as provided by Section 1014, that are specific to their assignments. Job descriptions shall be used to determine those persons eligible. Examples are:

Complaint Dispatcher
Criminalist
Community Service Officer
Fingerprint Technician
Jailer and Matron
Traffic Director and Control Officer
Parking Control Officer
Polygraph Examiner
Administrative Positions

4. As proposed, the Commission's procedure regarding reimbursement for subsistence would provide reimbursement for subsistence of trainees in route to and from training sites, not to exceed an aggregate of 24 hours. Participating jurisdictions have, on numerous occasions, identified this inequity of design in the Commission's present reimbursement provisions; that is, while expenditures for travel by automobile or public conveyance to and from the training site are reimbursed, and while subsistence is reimbursed while engaged in training at the training site, subsistence related to the travel before and following training is not reimbursed. For this reason and other reasons, some trainers have planned their classes in such a manner that trainees are scheduled to arrive the afternoon or evening on the day previous to beginning of regular instruction. This is ostensively to receive instruction and introduction to the instructional topics.

An additional proposed amendment would provide for commuter trainee allowance to be raised to $5.00, consistent with the noon meal allowance provided for by Board of Control rule. The proposed amendment:

Procedure E

Maximum Reimbursable Hours: The courses listed below have the maximum number of hours that may be reimbursed for the courses is listed below. Actual expenses incurred by and for the trainee for subsistence, commuter travel and or
salary may be claimed, within the provisions established by the Commission, up to the date and time the maximum number of reimbursable hours is completed. Subsistence and commuter travel for the Basic Course are reimbursable for a maximum of 10 weeks. In addition, reimbursement of subsistence expenditures for a resident trainee is allowable, not to exceed an aggregate time period of 24 hours, while enroute to and from the course site and the trainee's headquarters or home, whichever distance is less. Exceptions in hardship cases may be granted.

Commuter Trainee: Daily Actual travel expenses, and meal allowances for the trainee within the provisions as established by the Commission; expenses not to exceed $3 $5 daily for meals per day plus travel expenses from the time date the course begins until the time date the course ends.

This proposed amendment will permit reimbursement for auto travel to and from the course site for two or more trainees traveling together, or when scheduled commercial air transportation necessitates greater subsistence/travel expenditures than would result were auto or other surface conveyance used.

Procedure

Line 5 - Travel: The category of travel provides is used to account for all modes of transportation including air, auto or other types of surface travel conveyance. The mode of transportation selected should be the least expensive, except as provided below. Auto or other surface travel shall not be used claimed when commercial air transportation is conveniently available at lesser cost. In those cases instances when the where cost of commercial air transportation plus necessarily related surface travel is less than auto, or other surface travel, POST will reimburse only to the level of ticket cost the expenditure for commercial air travel at coach-class plus necessarily related surface travel flight.

Notwithstanding the provisions of the preceding paragraph, when two or more trainees travel together in one auto, or when departure times for
scheduled commercial air transportation necessitates greater subsistence/travel expenditures than would result were auto or other surface conveyance used, mileage to and from the training site and the trainee's headquarters may be claimed.

6. This proposed amendment would clarify and define straight hourly rate of salary—before benefits—paid to an employee class, and the means to uniformly and equitably determine the salary rate to be claimed. The proposed amendment:

Procedure E
5-7
+ j.

Line 44 12 - Salary: Concurrent with the provisions of Commission Procedure E-4-5- E-5-6, pertaining to maximum hours, the basis for figuring salary reimbursement for each trainee is:

Hours Claimed times Straight Hourly Salary Rate times percentage rate; i.e., 40 X $5.77 X 60% = $138.40

Straight Hourly Salary Rate is that rate of salary earned on the first day of the course. The straight hourly salary rate is the employee-class basic salary and shall not include incentive pay and hazard pay, education subvention, scholarships, insurance premiums, medical benefits, watch differential pay, pension plans, uniform allowance, or other employee benefits.

Methodology for Determining Hourly Salary Rate:
The number of holidays and vacation days or sick days allowed by the jurisdiction must be accounted for as "paid days", and included in the days-worked-year.

1. The total days in a week minus the allowed days off, times the number of hours worked daily, equals the hours worked in a week.

   (7 days - 2 days) X 8 hours = 40 hours

2. The hours in the work week, times the number of weeks in the year, equals the number of hours in the work year.

   40 hours X 52 weeks = 2080
3. Monthly salary*, at straight time, paid to the trainee, times the number of months in the year, equals the annual average yearly salary rate.

\[ \text{Monthly salary} \times 12 \text{ months} = \$12,000 \]

4. The annual average salary rate—that is, the basis upon which the trainee is paid at the start of the training period—divided by the number of hours in the work year, equals the hourly salary which may be used in computing what may be claimed as reimbursement from the Peace Officer Training Fund.

\[ \frac{\$12,000}{2080 \text{ hours}} = \$5.77 \text{ per hour} \]

*Salary at straight time is the regular sum, before benefits, paid periodically to an employee class.

The reimbursement percent rate is that rate of salary reimbursement for the particular plan or training course as authorized by the Commission. See Commission Procedure E-2-6.

7. This proposed amendment would resolve a heretofore contended inequity in the Commission's reimbursement procedures; at present, travel otherwise related to the training activity is generally reimbursed by the Commission, except while the trainee is involved in training. Daily commuting from the lodging accommodation and the training site itself, where they are separated, is not reimbursed by POST. The proposed amendment:

Procedure E (2) 15-7

For a resident trainee, mileage is reimbursed for one round-trip unless there are split sessions. For a split session, which is a break in the course of four or more days, two round-trips of mileage are reimbursed. Daily travel mileage related to the training activity of a resident trainee to and from the course site and the place of temporary habitation is not reimbursable. The one-way distance and the number of trips should be explained in the Comments section.
8. This proposed amendment would resolve another complaint of inequity in the Commission's present reimbursement procedures by allowing, in lieu of subsistence, that on weekends and breaks in training the trainee may travel to and from the training site and the department. To pay for such travel, some trainees allegedly check out of their lodging accommodations over the weekend or during the break but, nevertheless, claim reimbursement from POST for subsistence on these days. The proposed amendment:

Procedure E 15-7

(3) For weekends and holidays, or split sessions, the expenses of travel to and from the trainee's headquarters and the training site may be reimbursed in lieu of subsistence to the extent that such travel expenditures do not exceed the amount that would be reimbursed for subsistence had the trainee selected to remain at the training site; this should be explained in the Comments section.

Trainees should be aware that when they claim mileage reimbursement in excess of 17¢ per mile for use of a privately owned vehicle the IRS requires that trainees keep adequate records of all expenditures for operating vehicles. k. Line 10-11 - Tuition: Reimbursement may be claimed for tuition, as authorized not to exceed the amount certified by the Commission. If the billing from the school includes more than one charge, cost, contact should be made with the Course Coordinator for a listing breakdown of the charges and enter only the tuition charge. Registration, unit or credit fees, materials, books, and ammunition will not be reimbursable.

Line 11-12 - Salary: Concurrent with the provisions of Commission Procedure PAM, Section E-4-5 E-5-6, pertaining to maximum hours, the basis for figuring salary reimbursement for each trainee is:

Hours Claimed times Straight Hourly Salary Rate times percentage rate; i.e., 40 X $5.77 X 60% = $138.40
Straight Hourly Salary Rate is that rate of salary earned on the first day of the course. The straight hourly salary rate is the employee-class basic salary and shall not include incentive pay and hazard pay, education subvention, scholarships, insurance premiums, medical benefits, watch differential pay, pension plans, uniform allowance, or other employee benefits.

Methodology for Determining Hourly Salary Rate: The number of holidays and vacation days or sick days allowed by the jurisdiction must be accounted for as "paid days," and included in the days-worked-year.

1. The total days in a week minus the allowed days off, times the number of hours worked daily, equals the hours worked in a week.

\[(7 \text{ days} - 2 \text{ days}) \times 8 \text{ hours} = 40 \text{ hours}\]

2. The hours in the work week, times the number of weeks in the year, equals the number of hours in the work year.

\[40 \text{ hours} \times 52 \text{ weeks} = 2080\]

3. Monthly salary,* at straight time, paid to the trainee, times the number of months in the year, equals the annual average yearly salary rate.

\[\$1,000 \times 12 \text{ months} = \$12,000\]

4. The annual average yearly salary rate - that is the basis upon which the trainee is paid at the start of the training period - divided by the number of hours in the work year, equals the hourly salary which may be used in computing what may be claimed as reimbursement from the Peace Officer Training Fund.

\[\$12,000 - 2080 \text{ hours} = \$5.77 \text{ per hour}\]

*Salary at straight time is the regular sum, before benefits, paid periodically to an employee class.

The reimbursement percent rate is that rate of salary reimbursement for the particular plan or training course as authorized by the Commission. See PAM, Section E-2-6.

The Hours Claimed cannot exceed:

1. Actual hours attended - If the trainee attended fewer hours than the course is certified for, claim only those hours attended, and explain in Comments.
(2) Certified length of course - If the trainee attended 48 hours, and the course is only certified for 46 hours, then 46 hours is the maximum that can be reimbursed.

(3) Maximum hours - Commission Procedure PAM, Section E4-5 E5-6 establishes maximum reimbursable hours for specific courses. If the certified length of the course exceeds the maximum number of reimbursable hours, only the maximum number of hours may be claimed.

(4) Hours of salary paid to trainee by department - If the course is 48 hours in length, but the department paid or otherwise compensated the trainee for only 40 hours of salary, only 40 hours of salary may be claimed. Indicate in the Comments section that a lesser number of hours of salary was paid to the trainee as the reason an explanation of why course hours completed is different than course hours claimed.

Straight Hourly Salary Rate is that rate earned on the first day of the course.

The straight hourly salary rate may include items such as incentive pay and hazard pay. The straight hourly salary rate shall not include costs to a city or county for payment of insurance premiums, medical benefits, pension plans, uniform allowance, or other employee benefits.

The percent rate is that rate of salary reimbursement for the particular Plan or training course as approved by the Commission.

(2) The reason hours claimed, Line #12 are less than the course hours completed in Space D, i.e., trainee's absence from course, or agency requesting reimbursement for less than total reimbursable hours.

(3) The reason for taxi use.
(4) The reason that the number of miles is different than from assigned agency headquarters to the course site.

In Attendance: William J. Anthony, Chairman
Kay Holloway, Commissioner Member
William R. Garlington, Executive Director
Bradley W. Koch, Assistant Director, Administration
Gerald E. Townsend, Assistant Director, Operations

Chairman Anthony opened the meeting at 10:15 a.m. The Executive Director outlined the proposed budget.

The following motions received approval of the Committee for presentation to the Commission:

MOTION: Approve the 1979-80 Fiscal Year Administrative Budget as shown on page 5, attached.

MOTION: Approve the Aid to Local Government Budget as presented on page 6, with the stipulation that the baseline for 1979-80 of $11,152,392 be increased $500,000 to $11,652,392.

MOTION: Commission augment this year's budget (1978-79) in the Aid to Local Government category by $500,000 up to $11,652,392.

MOTION: Direct staff to continue evaluation of the Feasibility Study on Data Processing by Department of Justice, and recommend to Finance this report not be acted upon until such time as the Commission has an opportunity to review.
It was the recommendation of the committee that a letter should be directed to the Governor's Office, which in essence states that actions reducing the budget should be presented to the Commission for review prior to enactment by State government.

Memorandum

Subject: FISCAL YEAR 1979-80 POST BUDGET

This report covers my recommendations for the 1979-80 budget changes. Attached for comparison are reports and organizational charts concerning the POST budget for the present fiscal year, 1978-79.

Through planned attrition and gradual change in the assignment of personnel, POST staff has been reduced by nearly 20% in the past three years. In addition, recent action by the Governor's Office reduces the approved 1978-79 administrative budget by 3% ($52,000) in the Personal Services category and 5% ($34,000) in the Operating Expenses and Equipment category, a total of $86,000 which has been frozen and is unexpendable. This action reduces our funding for personnel by two man years, and necessitates a reduction in the amount of money available for In-State Travel and Printing. The effect on fiscal year 1979-80 will be to automatically remove these positions from that budget unless appropriate steps are taken to retain them.

The baseline budget for fiscal year 1979-80 approved by Finance, presented to you in Attachment "A", indicates this reduction of 3% and 5%. It leaves in the administrative budget a total for planning estimates of $2,414,270.

The Aid to Local Government budget category has not been changed and the baseline for 1979-80 is $11,152,392. Because there appears to be no less demand for training this year, and the Commission may wish to upwardly adjust reimbursement later this year or next year, it is suggested:

1. Increase the Aid to Local Government category by $500,000 up to $11,652,392 for 1979-80.

2. Augment this year's budget (78-79) in the Aid to Local Government category by $500,000 up to $11,652,392.
These actions would reduce the accumulated reserve to approximately $500,000 by July 1, 1980 and should be sufficient for at least 60% salary reimbursement into the 1980-81 fiscal year. It is anticipated, unless there is a marked decrease in training demand, that an adjustment in reimbursement will be required by July 1, 1981.

Planning estimates from CSTI and DOJ indicated that they will be requesting approximately the same amount of POST funding for their programs in the 1979-80 fiscal year. Also to be considered as a major expenditure is the data processing implementation, which will be reported on verbally at the meeting.

At the meeting I will have a report concerning the In-State travel budget. For planning purposes this data will be correlated to the time POST consultants spend in the field. Based on the results of this study, it may be recommended that In-State travel allocations be increased.

A final recommendation concerns the reclassification of one supervisory Senior Law Enforcement Consultant to a Law Enforcement Consultant II position. The reorganization from four to two divisions created an excess of one supervisor. We were allowed to keep the position, but agreed to downgrade it by attrition. A recent termination by a Senior Law Enforcement Consultant has accomplished this reclassification without a demotion.

Although the administrative budget reflects a minor reduction in personnel, with the exception of Management Services, I am satisfied the POST staff will be able to continue its services at the level expected in past years. In fact, consultant services in the training areas will be increased and the demand for Management Services is such there should be no real problem in responding to local agency needs.

Any detailed information you wish will be available at the meeting.

COMMISSION ON PEACE OFFICER STANDARDS AND TRAINING

The objectives of the Commission on Peace Officer Standards and Training (POST) are to raise the level of competence of California peace officers and to provide such other services to local law enforcement as are authorized by law. To accomplish this, the Commission established minimum standards of physical, mental, and moral fitness for the recruitment, selection and training of peace officers. The Commission on Peace Officer Standards and Training apportions revenue received from assessments on criminal and traffic fines to local jurisdictions to reimburse them for a portion of the cost of training peace officers.

I. OPERATIONS DIVISION

Program Objectives and Description

The objectives of the Operations Division are to:

1. Coordinate efforts to increase the effectiveness of law enforcement personnel by developing education and training courses to meet needs identified through planning; to provide quality control and adequate scheduling of such courses, to assist police agencies to meet training and career development programs; and to render other related miscellaneous services to enforcement agencies and training institutions.

2. To solve specific administrative or operational problems related to management or operational techniques and procedures of local law enforcement agencies.

Standards and Training

Education and training courses are organized at local community colleges, four-year colleges, universities, police academies, and other institutions to meet the needs of peace officers. Courses offered are categorized as recruit officer, supervisory, middle management, advanced officer, executive development, and a wide variety of technical and special courses.

Consultants from this division establish the basic criteria that must be met for each of these courses before commission certification. Advice and assistance is given to local educators and police trainers in preparing these courses and training plans.

Periodic field inspections are made to insure that instructors, coordinator, and trainers are adhering to established course outlines and are meeting all instructional standards. Failure to meet the educational and training standards may be cause for revocation of course certification. Implementation assistance is provided to local agencies to obtain the best results from available training programs.

Authority

Section 13503, Penal Code.
Management Services

Management Services solves specific administrative or operational problems related to management of operational techniques and procedures of local law enforcement agencies. Three major counseling services are provided to local jurisdictions upon request:

1. Special surveys consisting of the review and analysis of specified topics.
2. Selected studies and special services which provide limited and specified counseling services.
3. Staff assistance to insure prompt and effective implementation of survey recommendations.

The conduct of these counseling services usually includes the preparation of a written analysis of problem solution. Surveys are normally handled by POST staff members. However, in some instances, analysis of unusual problems or implementation of survey recommendations may entail the temporary employment of special consultants. The results of crime prevention programs are being integrated into the counseling services provided.

Inspections are conducted to determine if law enforcement agencies of jurisdictions receiving state aid are adhering to adopted standards for selection and training, and implementation assistance is provided in raising the level of competency through the selection and training process.

The procedures used by a jurisdiction to select and train law enforcement personnel are audited and a counseling service to improve the methods employed in this administrative process is provided. If the result of the inspection reveals operational or structural defects, a program is provided to insure compliance. Those police personnel in departments selected to conduct background investigations of newly recruited officers are counseled and trained as necessary. A minority recruitment program has been functionally integrated as part of the field services provided by the Operations Division.

Authority

Section 13512, Penal Code.

Section 13513, Penal Code.

Center for Police Management

There is a continuing need for research into management problems confronting local law enforcement agencies. This research is necessary so that law enforcement can more effectively carry out its responsibility for maintenance of public order and protection of life and property. The quality and effectiveness of local law enforcement service is directly related to the effectiveness of management. Many agencies have turned to POST as a resource center for guidance and assistance in resolving specific police management problems.

In concert with other POST organizational elements, the Center for Police Management provides management research assistance and develops and implements workable solutions to selected research projects identified by local law enforcement and POST.

Written publications dealing with the "how to" aspects of problem solution involving the most pressing police management questions or problems often result from this cooperative effort.

II. ADMINISTRATION

Program Objectives and Description

The objective of Administration is to execute the commission's policies and assure the organization's compliance with State regulations.

The administration staff, under direction of the executive director, provides staff services, formulates directives, and analyzes newly introduced legislation for fiscal impact and programmatic implications. It also provides research assistance to other organizational units, word processing center services, library services, graphic arts services and initiates special projects and provides direction and control over the local assistance programs so that the commission's overall objectives may be realized in the most efficient and economical manner possible.

As an employee performing police tasks completes a certified course, a claim is submitted to POST by the employing jurisdiction for reimbursement of the money expended in training the person. Upon receipt, the claim is checked to assure that the course is certified in the amount and for the number of hours claimed, and for arithmetical accuracy. Correct and valid claims are forwarded to the Controller for payment. Various statistical reports are also prepared for management use and for the Commission.

Applications by officers for professional law enforcement certificates, accompanied by college transcripts, certificates of course completion, and other supporting documents are reviewed to determine eligibility for a certificate and level of proficiency of each applicant. An appropriate certificate is completed and mailed to each qualified applicant.

Program Objectives and Description

The enforcement of law and the protection of life and property without infringement on individual liberties is one of modern government's most pressing problems. Carefully selected, highly trained and properly motivated peace officers are important factors in the solution of this problem. To encourage and assist local law enforcement agencies to meet and maintain minimum standards in the selection and training of law enforcement officers, financial assistance is given to those cities and counties which qualify for state aid for peace officer training. Each jurisdiction participating in the program is reimbursed from the Peace Officers' Training Fund in proportion to the number of officers who qualify for reimbursed training.

From: Commission on Peace Officer Standards and Training
      Administration Division
Subject: IN-STATE TRAVEL

The 1978-79 budget allotment for Travel In-State is $180,770. Based on previous years' experience, this would be allocated to the Executive Office and Divisions as follows:

<table>
<thead>
<tr>
<th>Division</th>
<th>Allocation</th>

<tbody>
<tr>

<tr>

You have requested an analysis to determine how much In-State Travel money would be required for the Operations Division given the following number of field travel days.

Date of Approval: October 5, 1978

Executive Director Approval: [Signature]
Date of Report: October 5, 1978

Purpose: Decision Requested
Information Only: No
Status Report: Yes
Financial Impact: Yes (See Analysis for details)

In the space provided below, briefly describe the ISSUES, BACKGROUND, ANALYSIS and RECOMMENDATIONS. Use separate labeled paragraphs and include page numbers where the expanded information can be located in the report. (e.g., ISSUE Page____).

A recent study conducted by the Department of Justice confirmed POST's need for electronic data processing (EDP). Since that study was completed, legislation has been enacted (AB2664 - Fenton) mandating the development of a trainee proficiency test program which will require the testing of 3,000 to 4,000 persons at the completion of their basic training. This law also requires POST to make comparisons between presenters of that training, and requires the development of a data base for the development of subsequent training programs. Additionally, there is a need to enhance the process for controlling reimbursement expenditures which can only be accomplished through EDP.

At the present time POST has training and personnel records on over 70,000 peace officers. Implementation of recent reserve officer legislation upgrading standards for selection and training of reserve officers will increase the size and complexity of the records system. It is obvious that staff will not be able to maintain the system at its current level of operation, with the additional responsibilities legislatively assigned to it, without additional manpower or automation.

The State Data Processing Management Office is presently evaluating the study prepared by the Department of Justice in order to provide guidance, direction and cost analysis for the data processing needs of POST. Therefore, the following material is presented in order to provide our analysis of cost factors that may be involved in developing a much needed EDP program for POST.

There are principally four alternatives available to us:

1. To initiate the recommendations made in the Department of Justice study, and provide a batch processing system to be operational in 29 months.

2. To contract with a service center, state or private, to provide in-house terminal service to meet POST's needs. This program could be operational in approximately nine months.

3. Alternative '2' above with the planned purchase of our own computer at the end of one year of lease operation.
4. Develop an in-house computer capability which could be operational in nine months.

Department of Justice Plan

The Department of Justice evaluation proposes to further study the programming needs for POST and provide data processing under contract in a batch system, using a microfilm system to meet in-house informational needs.

The development of this system would take approximately 29 months and require an augmentation of this year's budget and future budget expenditures of approximately $195,000 for program development (29 months). System operation is estimated at $37,000 per year.

Computer Service Center

Development of a computer service center contract between POST and a private electronic data processing supplier which would provide computer service for POST within nine months. This service would be under a lease agreement and require approximately $50,500 in the augmentation of the POST budget for fiscal year 1978-79 in order to input records into the system between January 1, 1979 and June 30, 1979. The system would be a terminal system in-house with hardware owned and controlled by the lessee. Second year operational costs (1979-80) would be approximately $13,000.

A comparison of estimates reveals that the private computer center could design and establish a system 20 months faster and for $109,000 less than the Department of Justice estimate.

A subalternative in the service center concept is an initial lease agreement for one year with a plan to purchase our own "in-house" equipment at the beginning of the second year of operation.

In-House Computer

The faster, and possibly in the long run less expensive, alternative appears to be the purchase of an in-house computer system for POST. All studies indicate that in the long run the purchase of equipment is less expensive than lease of electronic data processing equipment. As with the lease/purchase option, POST would initially be required to input its file data into the system and develop the purchase and programming in conjunction with the language of the computer that we intend to purchase. This also would be an important aspect of any lease program in that computer language for the data base would, of necessity, have to be common to the type of equipment to be purchased.

Cost to input data would be the same as for a lease/purchase program (approximately $44,000). Hardware costs would be approximately $50,000 to $60,000.
This report, and subsequent reports at future Commission meetings, is designed to keep members informed as to progress on the proposed POST facility in the Department of Justice complex.

**Background**

The Department of Justice is in the process of constructing a complex of about 400,000 square feet at the old State Fairground site, 49th and Broadway, Sacramento. Funds have been approved by the Legislature, Department of Finance and Public Works Board. The complex will be constructed in phases, and bids for the first phase, the DOJ Consolidated Data Center, are being accepted.

The Department of General Services has allocated approximately 13,400 net square feet in the complex to POST. The POST facility will be on the second floor over the DOJ Advanced Training Center. POST's cost per square foot will be the same as other state building rates (56¢ @ F.Y. 1980-81). Projected completion date for the phase that includes POST is July 1981.

POST staff will have an active roll in the space programming and pre-architectural planning of the new facility. Staff is working closely with the Office of State Architect and Marquis Associates (the contract architects) to ensure that the allocated space will meet POST's needs and enhance staff efficiency and effectiveness.

A modified open space plan will be used, which will permit flexibility as organizational improvements are made. Included in the "closed space" will be a large conference room, work rooms, library, word processing center, central records, and executive and management offices.

**Recommendations**

None--information only.
The Commission on Peace Officer Standards and Training has a history of either over expending or under expending the Aid to Local Government Budget. This problem is caused because staff is unable to accurately project the number of POST reimbursable trainees who will be trained during a given fiscal year.

On September 26, 1978, a meeting was held with the State Department of Finance for the purpose of discussing alternative proposals for reimbursing law enforcement agencies for training.

Staff explored numerous alternative reimbursement systems with staff members of the Department of Finance in an attempt to find a system that would eliminate the danger of cost over-runs or unintended build-up of the unappropriated reserve and yet be acceptable to Finance.

Based upon the above discussion, it was apparent that the Department of Finance would be receptive to modification of the existing reimbursement system, if they can be assured that no law enforcement agency would be reimbursed more than the actual expenses incurred for training during a given fiscal year and that the Commission would agree to establish a permanent reserve of one million dollars to offset unforeseen or unexpected expenditures and/or adjustments to the POTF. This reserve fund would have full sanction (and presumably protection) of the State Department of Finance.

The plan which seemed most acceptable to Finance and staff was the one that would enable POST staff to continue reimbursement on a quarterly basis for all claims received. Agencies would submit claims for 100% of allowable cost, but POST would reimburse at a reduced percentage (possibly 50%). In conjunction with the regular payment for the last quarter of the year, POST would also distribute, on a pro rata basis, the balance of the funds remaining in the POTF, less the $1,000,000 reserve.

Another meeting will be held in October to discuss the details of the above plan further and to work out any problems that Finance may raise as a result of further study on their part.
Approval from the State Controller's Office will also be required, but this will be limited to the establishment of a clear audit trail so that they can verify the accuracy of pro rata sharing of the residual funds.

Subject: REPORT OF SEPTEMBER ADVISORY COMMITTEE MEETING

ADVANCED OFFICER TRAINING

At the joint Commission/Advisory Committee meeting in July, the Commission requested the Advisory Committee to reconsider the Advanced Officer Training requirements and submit a report at the October Commission meeting.

After lengthy discussion and review of the alternatives submitted by staff, and the committee's prior recommendations, the Committee took the following actions:

MOTION by Alex Pantaleoni, second by John Riordan, that the Advisory Committee recommend to the Commission to treat salary reimbursement for Advanced Officer and Job Specific courses for officers at a percentage specified by the Commission, not to exceed 20 hours of such training per year or 40 hours every two years. Further, that reimbursement for legislatively mandated courses as well as basic, supervisory, management and skills and knowledge technical courses not be affected.

Any unexpended funds in the total allocation for Aid to Local Government for a fiscal year should be divided on an equitable basis by re-evaluating the amount of reimbursement provided for advanced officer training. MOTION CARRIED UNANIMOUSLY.

Subject: POST Advisory Committee Recommendations - Advanced Officer Training Program

Dear Commissioners:

I wish to express emphatic support for the recommendations of the POST Advisory Committee in relation to the Advanced Officer Training Program, to be submitted for your consideration at the forthcoming quarterly meeting in Eureka, California.

I consider Advanced Officer Training to be one of the most important programs in law enforcement as it represents the means by which experienced police personnel are regularly provided the information which enables them to perform their duties in a contemporary, professional and effective manner. The constant changes in both society and the law enforcement profession virtually dictate that the refresher concept of Advanced Officer Training be preserved and enhanced. Your adoption of the Advisory Committee recommendations will insure the continuation and effectiveness of this most essential training program.

I am convinced that your favorable consideration of the Advisory Committee recommendations will serve the best interests of law enforcement in California.

Sincerely,

CHARLES R. GAIN
Chief of Police

ADVANCED OFFICER TRAINING

At the joint Commission/Advisory Committee meeting in July, the Commission requested the Advisory Committee to reconsider the Advanced Officer Training requirements and submit a report at the October Commission meeting.

Chairman Tielsch introduced Lieutenant Richard Klapp of the San Francisco Police Department. Lieutenant Klapp expressed the views of Chief Gain that 40 hours of reimbursable training every four years is not enough to keep peace officers abreast of new laws.
After lengthy discussion and review of the alternatives submitted by staff, and the committee's prior recommendations, the Committee took the following actions:

MOTION by Alex Pantaleoni, second by John Riordan, that the Advisory Committee recommend to the Commission to treat salary reimbursement for Advanced Officer and Job Specific courses for officers at a percentage specified by the Commission, not to exceed 20 hours of such training per year or 40 hours every two years. LEGISLATIVE REPORT

Hal Snow reported on the current status of legislation of interest to POST. He stated a letter had been sent offering technical staff assistance to the Joint Committee on Peace Officer Classification regarding AOR 144. Senate Bill 1127 has been chaptered increasing the fine on drunk driving convictions. Penalty assessments will be increased somewhat by this action.

Mr. Snow also reviewed suggestions for possible legislation that the Commission may wish to consider sponsoring in 1979. Additional suggestions for legislation are requested by October 13, 1978.

Hal Snow will verbally carry to the Commission's Legislative Review Committee an Advisory Committee suggestion that staff formulate legislation that would provide that public safety courses be mandated as a proper subject area for community colleges.

MEDIA COMMITTEE FOR THE GOVERNOR'S CRIME REDUCTION FORCE

Jay Rodriguez, Chairman of the Media Committee for the Governor's Crime Reduction Force, gave a brief report on the progress of the committee. The campaign which will begin the middle of October has selected the theme, "Don't Become a Pigeon." A toll-free 800 number will take calls for information or service and notify the local law enforcement agency in which the call originated. Mr. Rodriguez reported that there will be announcements on radio and television, newspaper ads and even messages on grocery bags giving helpful hints on how not to become a "pigeon" or victim. Each local police agency will receive 100 complimentary copies of several booklets which advise the public on how not to be a victim of various crimes. At local expense additional copies of these booklets may be produced.
September 15, 1978

Chairman George Tielsch called the meeting to order at 9 a.m.
The same committee members were present as listed previously for
September 14, 1978.

RESERVE OFFICER STANDARDS IMPLEMENTATION

Otto Saltenberger gave a report on the status of the implementation
of the provisions of Penal Code Section 332.6. He stated that
everything was going along as scheduled with the application forms
for testing and certificates, Reserve Officer Certificate, and
Certificate of Recognition at the printers. He reviewed typical
questions that are now being asked in the field. Several bulletins
about reserve officer training, testing and certification were
distributed.

Applications to take the Reserve Officer BCCEE must be submitted to
POST by November 1, 1978, in order that testing can be scheduled
in appropriate areas throughout the State in January and February
1979. Only those reserve officers that have been nominated by
their department head will be permitted to take the test. If a
reserve officer's records document 200 hours of training, the
reserve officer who meets all other requirements will not have
to take the BCCEE in order to be eligible for the Reserve Officer
Certificate. Only reserve officers who are qualified as Level I
Reserves and who have at least 200 hours of law enforcement experi­
gence will be eligible to receive the Reserve Officer Certificate.

The decision as to who is eligible for the Certificate of Recogni­
tion will be made by the reserve officer's department head.

George Williams stated that staff has been working with current
course presenters so that all areas of the State will have the
capability of receiving appropriate training.

SELECTION STANDARDS VALIDATION

George Williams reported that two of the grant's unfilled positions
had been frozen as a result of Proposition 13. He said things had
been worked out with control agencies and the clerical position
had been filled and they have been interviewing for the research
specialist and analyst positions. The Task Analysis is now in
the finishing stages with 222 agencies cooperating by having pro­
vided personnel of operational and supervisory levels with regard
to established tasks, to identify their frequency and importance
as performed in their agencies. There will be meetings with a
sampling of the participating agencies to review the results and
provide additional input. The analysis has showed, (1) no major
difference in tasks performed by length of service of an officer,
(2) there are some differences in the job tasks performed in large
and small agencies. Approximately 500 tasks have been identified
as common throughout California, and no significant tasks have
been identified that do not have performance objectives. The task
analysis should be completed in November.
PRIVATE SECURITY

At the last Commission meeting, staff was directed to become better informed relative to Private Security. Otto Saltenberger reported that a staff task force has been formed and has begun to examine various related matters. Between $12 and $15 billion is spent nationally on private security. The Commission has some responsibility for establishing the curriculum for chemical agent and baton training. Consumer Affairs is responsible for arranging basic and a firearms courses for private security personnel. They have developed pre-prepared materials that can be studied at home or in a classroom setting. A test is administered at the conclusion of the course to determine passage of the course. A preliminary staff report regarding Private Security should be ready in a few months.

REPORTS FROM MEMBERS

WPOA - Roberta Doran, this being the final Advisory Committee meeting she will attend because of her retirement, expressed how much she enjoyed working with the committee members -- all of which she will miss. She informed the committee that the Executive Board of WPOA would be nominating a representative to take her place shortly.

PUBLIC - Ed Meese, The Criminal Justice Center is examining the impact of Proposition 13. He stated that the police do not seem to be affected by Proposition 13 as much as the district attorneys, public defenders and the courts. The Center is planning to gather, analyze and report on all the various questionnaires (regarding Proposition 13) and data being developed by numerous groups and associations.

CAAJE - Alex Pantaleoni, within the next few months, hopes to have a report finished regarding preservice training effects and an articulation of other types of training. He also expressed the concern of CAAJE that the present 6-unit requirement for peace officers does not present a challenge for the individual and CAAJE would like to see the requirement raised.

PORAC - John Riordan, reported that the PORAC conference would be November 27 through December 1 at the Sahara in South Lake Tahoe.

COMMUNITY COLLEGES - Win Silva, reported through vocational education funds they are able to revise the current Administration of Justice Program curriculum in the community colleges.

CAPTO - Dale Rickford, stated that the CAPTO Conference would be held in October and because of Proposition 13 attendance is anticipated to be reduced.

CHIEFS' ASSOCIATION - George Tielsch, reported that at the last Executive Board meeting several members had attended at their own expense because of budget cuts resulting from Proposition 13 and these members indicated they would have to resign from the Executive Board.
OLD/NEW BUSINESS

After discussion, it was requested that two items be placed on the agenda for the December meeting, (1) the possibility of eliminating reimbursement for basic training and devoting more money to advanced officer training reimbursement and (2) raising the college unit requirement from the present six units.

Otto Saltenberger stated that the Commission's next meeting's agenda will include appointments to vacated and expired Advisory Committee positions. Nominations have been or will be received from the CHP, the Sheriffs' Association and the WPOA. There are also two public-member positions that will be acted upon.

Being no further business to come before the Committee, the meeting adjourned at approximately 11 a.m.

Subject: OCTOBER MEETING RESULTS OF THE TASK FORCE TO STUDY FUTURE BASIC TRAINING

A discussion was held regarding the reaction of the Commission at its July meeting to the Task Force's recommendation. The committee was in total agreement that they are in the first phase of studying future basic training and that it should be continued.

It was the UNANIMOUS CONSENSUS of the committee that the following points be brought out in the recommendation to the Commission.

1. Establishment of a cadet/trainee position for new personnel coming into the police field.

2. Establish 100% reimbursement by POST for these classifications up to $750/$800 per month.

3. Monies that are saved by the flat fee of $750/$800 per month be diverted to the certified field training programs to encourage the hiring of pre-trained personnel.

COMMITTEE RECOMMENDATION

Commission encourage the establishment of a trainee/cadet classification with 100% POST reimbursement up to $750/$800 per month. Any monies saved by the POTF from this financial incentive would be diverted to certified field training programs to encourage hiring of pre-trained personnel.

A comparison will be made at the October Commission meeting reflecting the impact the $750/$800 figures would have on the POTF.
ISSUE:
This report is an update on implementation of reserve officer standards.

   Reserve Officers - Certificates of Recognition - BULLETIN 78-16

3. Reserve Course Curriculum and Certification
   Certification of Reserve Officer Courses - BULLETIN 78-18

The following activities are currently underway and are on schedule:

An oral report will be given to the Commission detailing reaction from the field and expected implementation problems.
BULLETIN 78-13

TO: Law Enforcement Administrators

SUBJECT: Reserve Officers - Standards for Selection, Training, and Certification

Following a public hearing on July 27, 1978, the POST Commission adopted the Reserve Officer requirements recommended by the POST Advisory Committee. The new standards are outlined in the enclosed document. This enclosure also lists approved definitions of certain phrases contained in the law.

The second enclosure outlines the training curriculum which will provide the basis for the "classroom" or "formal" training courses for the three levels of reserve officers.

Note should be taken of the fact that the Commission has not specified the "structured field training" subject matter to be covered in field training programs for reserve officers. It is suggested that departments make use of the POST Field Training Manual which was developed for regular officers. The manual is presently being updated and the new printing will be available later this year.

Decisions remain to be made regarding certification of courses for Level II and Level I reserve officer training. It is anticipated that current presenters of reserve officer courses will be eligible to present all certified reserve officer training courses.

It is also anticipated that courses will be made available in remote areas of the State. Critical to the feasibility of delivery of training to remote areas is sufficient numbers of reserve officer students. Departments will be contacted in the near future as part of POST's effort to evaluate reserve officer training needs in those areas.

POST Regulations and Procedures will be revised to include reserve officer requirements. Revisions will be forwarded to all holders of the POST Administrative Manual.

Louis L. Sporrer
Chairman
RESERVE OFFICER STANDARDS

The following requirements were adopted by the Commission on July 27, 1978. The requirements apply to all reserve officers appointed on or after January 1, 1979.

TRAINING STANDARDS

Level III Reserve: PC 832 Course (40 hours).

Level II Reserve: Two part requirement: (1) a certified PC 832 course (40 hours) and (2) a minimum of 40 hours or classroom instruction to include first aid, CPR, and the role of the backup officer. (80 hours total) (It should be noted, the law also requires this class of reserve to be engaged in a field training program.)

Level I Reserve: a. Two part requirement: (1) 200-hour course prescribed by POST and (2) 200 hours of structured field training using the POST Field Training Manual as a suggested guide. Or,

b. Completion of regular basic course. The regular basic course is not required. Its completion is simply recognized as an acceptable alternative to the minimum requirement specified under Sub a.)

SELECTION STANDARDS

1. All Government Code requirements for peace officers as specified in Government Code Sections 1029-1031. The Government Code requires the following standards:

Section 1029. "Any person who has been convicted of a felony in this State or any other state, or who has been convicted of any offense in any other state which would have been a felony if committed in this State, is disqualified from holding office or being employed as a peace officer..."

Section 1030. "A classifiable set of the fingerprints of every person who...becomes employed, as a peace officer...whether with or without compensation, shall be furnished to the State Division of Criminal Identification and Investigation and the Federal Bureau of Investigation..."
Section 1031. "In any instance in which, after the effective date of this section, members of a class of public officers or employees are first declared by law to be peace officers or to have the powers of peace officers, each member of such class must meet at least the following minimum standards:

Eligibility: Only reserve officers qualified for Level I assignment will be eligible for award of a professional reserve officer certificate.

Requirements: Completion of Level I training requirement (200-hour course prescribed by POST and 200 hours of structured field training), and

Completion of 200 hours of work experience while assigned to the prevention and detection of crime and the general enforcement of laws, and

Endorsement by agency head.

Requirements for Grandfathered Reserves:

Such reserves must satisfy all certificate requirements. The training requirement may be satisfied by taking and receiving a passing grade on the Basic Course Equivalency test. The test may be taken only once.

Title: Distinctively labeled as "Reserve Officer Certificate."
Type: One type (contrasted with hierarchy of Basic, Intermediate and Advanced).

Renewal: Lifetime unless recalled for error/fraud.

Fees: No fee to be charged.

DEFINITIONS

The following are working definitions of terminology used in PC 832.6.

"working alone": This refers to a Level I reserve officer who works without immediate supervision and makes independent decisions. This definition does not preclude two Level I reserves or a Level I and a regular officer from working together.

"prevention and detection of crime and the general enforcement of laws:

This refers to a Level I or Level II reserve officer assigned to:

- investigate crime, or
- patrol a geographic area and
- handle personally the full range of citizen requests for police services and
- take enforcement action on the full range of law violations for which the reserve's department has enforcement responsibility.

"immediate supervision: (refers to a Level II reserve only): A "supervisor" is routinely in the physical proximity of the reserve officer (i.e., the reserve officer acts under the direction of a qualified officer); however, this shall allow for temporary separations.

"field training program approved by POST" (refers to Level II reserve officers only): "An Approved Field Training Program (Level II Reserve) is a formalized on-the-job training program with instruction presented by experienced officers who are deemed qualified by the chief administrator. The program should be consistent with guidelines developed by POST for such programs."
"peace officer possessing a basic certificate": This refers to a regular officer and precludes a Level II reserve officer from working under the supervision of another reserve officer, unless that reserve officer possesses a regular Basic Certificate awarded while he was a regular officer.

"limited function": (refers to Level III reserve officers only): The language of law--"Deployed only in such limited functions as would not usually require general law enforcement powers...", must be interpreted by local administrators.

## MODULE D - Structured Field Training (200)

Structured Field Training is an approved course presented by a police or sheriff's department with minimum content based upon the POST Field Training Guide. Departments are required to maintain documentation of course completion.
BULLETIN 78-19

TO: Law Enforcement Administrators

SUBJECT: POST Reserve Officer Professional Certification

Following a public hearing on July 27, 1978, the POST Commission adopted the Reserve Officer requirements for the selection, training and professional certification of reserve officers. Effective immediately, the Commission will issue the Reserve Officer Certificate to all qualified persons who apply.

A reserve officer is eligible to receive the Reserve Officer Certificate, subject to the following qualifications:

1. Currently designated as a reserve peace officer as provided by Penal Code Section 832.6(a).

2. Satisfied the classroom training requirements for a Level I Reserve Officer established by the Commission. The minimum training is (a) completion of a 200-hour reserve basic course and must be substantiated by certificate of completion, transcript, etc.; and (b) 200 hours of structured field training, (the POST Field Training Manual is suggested as a guide). Note: A reserve officer may be able to satisfy the above minimum reserve training by successful completion of the POST Reserve Officer Basic Course Equivalency Examination (see POST Bulletin 78-17).

3. Completed no less than 200 hours of satisfactory service to a police or sheriff department while assigned to the prevention and detection of crime and the general enforcement of the criminal laws of this state.

4. The department has conducted an adequate background investigation including fingerprint check, a medical examination (which are in conformance with Government Code Sections 1029, 1030, and 1031), and the department head or his/her designee has interviewed the reserve officer.
Award of the Reserve Certificate is not automatic. An Application for the Award of Reserve Certificate (attached form) must be submitted to the Commission, signed by the applicant and the department head. Additional application forms and further information may be obtained from the Commission on Peace Officer Standards and Training, Administration Division, 7100 Bowling Drive, Suite 620, Sacramento, California 95823; telephone number (916) 322-2235.

Following a public hearing on July 27, 1978, the POST Commission adopted Reserve Officer Requirements for training and professional certification. For reserve officers who are determined by their appointing authority to be exempt from the provisions of Penal Code Section 832.6(a)(1), the Commission directed that the training requirement may be satisfied by successfully taking the Reserve Officer Basic Course Equivalency Examination.

It is anticipated that POST will administer examinations during January and February 1979 to assist reserve peace officers who are otherwise eligible (as defined below). This examination is for persons who lack sufficient formal basic training or documentation of completion of such training. Persons who have completed training established by the Commission for reserves should not take the examination. A person designated as a reserve officer is not required by statute to have received the POST Reserve Officer Certificate.

An individual is eligible to participate in this Reserve Officer BCEE examination process if he/she is designated as a reserve peace officer and was so appointed prior to 1/1/79; has, by the time of taking the examination, completed no less than 200 hours of satisfactory peace officer service while assigned to the prevention and detection of crime and the general enforcement of the criminal laws of this state; and his/her department head requests the administration of the examination.

The examination will take approximately two hours to complete. An examination covering only selected portions will not be permitted. The examination will include the scope of subjects normally comprising the curriculum of a 200-hour Reserve Basic Course. Persons who are not thoroughly familiar with criminal justice procedures, the law, etc., as contained in a Reserve Basic Course may have difficulty passing the examination.

There is no single document which offers all the material to be studied. It is suggested that the notebooks and other related study materials of recent reserve or regular academy graduates may prove helpful to those who wish to prepare for the examination.
A reserve officer who fails to satisfactorily complete the examination cannot make up the deficiency and thereby be deemed to fulfill the training requirements of the Reserve Certificate. There is no make-up for those who fail the examination. The examination may not be taken a second time. Department heads are urged, when a reserve officer fails the Reserve Officer BC EE, to enroll the person in a Police Reserve Basic Course as a condition of further assignment as a reserve officer.

Award of the Reserve Certificate will not be automatic upon completion of the examination. Following successful completion of the examination, an Application for Award of Reserve Certificate, a POST form, must be submitted to the Commission. On that form, for the "Name of the Basic Training School"—indicate "POST Reserve BC EE". An Application for Award of Reserve Certificate need not be accompanied by proof of successful completion of the examination. Each POST form, Application for Award of Reserve Certificate, related to an equivalency examination must be accompanied by documentation that the reserve officer has complied with the training requirements established by Penal Code Section 832. The POST Reserve Certificate will only be issued contingent upon the showing of satisfaction of this training requirement.

Departments that desire the Reserve Basic Equivalency Examination to be administered for eligible reserve officers must complete and forward the attached form, Reserve Officer Basic Course Equivalency Examination Application, to POST by November 1, 1978. Following receipt of the completed form, the Commission will make arrangements, on a regional basis, for the examination to be given and make all necessary notifications to the concerned departments. Only the reserve officers listed on the application will be permitted to take the examination. All necessary materials will be provided by POST. Examinations will be scored at POST Headquarters, and department heads will be advised of examination results by mail.

If further information is desired, please contact the Commission on Peace Officer Standards and Training, Operations Division, 7190 Bowling Drive, Room 100, Sacramento, California 95823; telephone number (916) 322-2180.

To list more reserve officers, make additional necessary copies of the Reserve Officer Basic Course Equivalency Examination Application.

The persons listed are reserve officers of this agency who, in my opinion, are eligible (see POST Bulletin 78-17 for additional information) to take the POST Reserve Officer Basic Course Equivalency Examination. Important Note:

Level I Reserve training does not equate with any part of the regular Basic Course in PAM; Procedure D-1
**ISSUE:**

Should certified Basic Courses be presented in extended format rather than only intensive format?

**BACKGROUND:**

The Commission has historically favored intensive formats, i.e., 8 hours per day, 5 days per week, for most non-legislatively mandated courses in the regular program.

Some deviations have been allowed such as Advanced Officer Courses for 8 hours per day, at least one day per month, for not to exceed 12 weeks. In the legislatively mandated area the 832 PC, Arrest and Firearms Course, has been presented in multiple formats for as little as 3 hours per day, one day per week, for 14 weeks or more.

**ANALYSIS:**

The prime issues have been quality control, student interaction and fatigue factors, and coordination of attendance and make-up of deficiencies occasioned by missing regular classes. The cases of an agency working officers 8 hours and then sending them to school for four more hours has been a problem.

**RECOMMENDATION:**

Allow extended format Basic Course presentations to be approved by staff for evaluation purposes for at least one year, providing an on-site course coordinator is present full-time, and only currently certified Basic Academies be authorized the use of this format. Additional guidelines will be developed for presentation at the January 1979 Meeting.
In June 1978, Public Safety Educators, Inc. submitted a request for certification of 12 presentations of its Officer Survival Course at various locations throughout the State. The proposed course would be 24 hours with a tuition of $72 based upon maximum enrollment of 35 students. Total fiscal impact would be $116,000.

In support of its request, Public Safety Educators cited the high priority identified for this type of training in the statewide Training Needs Assessment. They also stated that a questionnaire by their firm indicated that a large number of departments would utilize their course if it were certified and presented in their areas. They indicated they had experience presenting this course outside the State of California. Instructors for the course were proposed to be Los Angeles Police Department personnel.

In mid-July, the certification request was reviewed by Standards and Training Consultant George Estrada and Bureau Chief Glen Fine. A review of existing presenters revealed that CSTI was already approved for 24 presentations of Officer Survival Courses and San Bernardino Sheriff's Department for 4 presentations during this fiscal year. In addition, the State Department of Justice is approved for approximately a dozen 8-hour presentations on this topic. In the opinion of these POST staff people, their evaluation indicated potential worth in delivering on-site presentations as proposed by Public Safety Educators.

A review of the proposal indicated several minor modifications and conditions which should be met if the course were to be certified. Glen Fine discussed these conditions and modifications with Bob Michael, representative of Public Safety Educators. Mr. Fine was assured that the modifications could and would be made and that desired conditions would be met if the course was certified.

The next review of this proposed course by the Operations Division Assistant Director Gerald Townsend resulted in a decision to delay the request for certification at that time. The principal reasons were:

1. Officer Survival training is expensive and a considerable amount of money is already being expended by POST with existing presenters. The additional $116,000 expenditure is probably unnecessary.

2. Proposition 13 has created an unsettled condition with respect to
the training delivery system and the allocation of POT funds. Staff and the Commission need time to find out what this impact will be.

It was at this time I became aware of the matter via a phone call from Mrs. Michael who wanted me to change the staff decision. I told her I would meet with her husband since he would be in the area on other business, but that in all likelihood I would not change the decision. Due to a misunderstanding regarding the appointment date, I failed to meet with Bob Michael. However, by that time Mr. Fine had discussed the matter with me and I agreed that a review of the certification request should be delayed until after the Commission decided its reimbursement policy. This information was relayed by Mr. Fine to Bob Michael when he appeared for his aborted meeting with me on August 11.

Although I had not rejected the Public Safety Educators proposal, at Mrs. Michael's insistence for an appeal to the Commission, I have now reviewed the proposal sufficiently to deny the request. In addition to the previously stated objections, a check with C.S.T.I. (per Commission policy) indicates no need for the course. (C.S.T.I. has reduced the number of officer survival courses and will, if necessary, increase them to fill any need.)

Also, and most important, new contract courses are subject to the bid process. I have not had time to ascertain if other private or public agencies would bid, but I doubt if we can justify a sole source contract. We are experiencing great difficulty at this time with the award of private contracts, and I have had to develop a new policy statement for staff use in the development of contracts. (This appears as item "P" under New Business.)

I regret that Public Safety Educators was to any degree encouraged in its attempt to obtain a contract. It should have been discouraged immediately, but our process, for which I am responsible, was faulty. The new contract policy should tighten control and help prevent inconsistencies in the future.

Recommendation:

Deny the appeal of Public Safety Educators, Inc.

Hon. Dennis Carpenter, Chairman
Joint Legislative Budget Committee
California State Legislature
State Capitol, Room 2062
Sacramento, CA 95814

Dear Senator Carpenter:

The 1978/79 Budget contains the following Supplementary Budget language concerning the Commission on Peace Officer Standards and Training:

"Prior to December 31, 1978, the commission shall adopt regulations recognizing federal peace officer training as credit toward the Commission on Peace Officer Standards and Training certification."

In response to the Budget Committee's direction, I am pleased to inform you the Commission has a long-standing policy of recognizing federal peace officer training as credit toward requirements for POST Professional Certificates. The following Specification F-1-4 has been interpreted to permit recognition of federal peace officer training toward education or training points:

"Basis for Qualification: To qualify for award for certificates, applicants shall have completed combinations of education, training, and experience as prescribed by the Commission.

a. Education Points: One semester unit shall equal one education point, and one quarter unit shall equal two-thirds of a point.

b. Training Points: Twenty classroom hours of police training approved by the Commission shall equal one training point."

This policy allows former federal peace officers employed by an agency participating in the POST program to receive credit for POST certificates based on their federal training and experience. However, POST certificates have no impact upon peace officer status. Only the Legislature, under Penal Code Section 830, grants peace officer authority to specific classes of individuals. Currently, only certain federal officers have been granted California peace officer authority under Section 830.4 (a) (13).
Except as provided by Penal Code Section 832 (d), POST certificates, which are certificates of achievement, do not satisfy legislative training mandates such as Penal Code Section 832--Arrest and Firearms. The Commission can and does demand compliance with all laws from POST member agencies through its ability to withhold reimbursement or certificates. However, POST has no authority or ability to require compliance from those not in the reimbursement or certification programs, such as federal agencies.

I believe this response addresses the 1978/79 Supplementary Budget language. If you have questions or further direction regarding this matter, please call me at 445-4515.

Sincerely,

WILLIAM R. GARLINGTON

Subject: PROPOSED CHANGE IN THE CHEMICAL AGENT TRAINING STANDARD FOR PRIVATE SECURITY

ISSUE:

This report recommends POST: (1) Change the chemical agent training standard for private security from the peace officer course to the private citizen course, (2) Introduce legislation to repeal Penal Code Section 12403.5, which requires private security officers, if they purchase, possess, or transport tear gas, to complete a course of instruction approved by POST.

BACKGROUND:

On January 1, 1971, Penal Code Section 12403.5 became law and requires the completion of a course in the use of tear gas approved by POST for private security officers. See attachment 1.

On December 9, 1971, the Commission designated the 8-hour peace officer chemical agent training course (Penal Code Section 12403) as the standard which satisfies the private security chemical agent course. The action was based upon the availability of peace officer courses, lack of an alternative course vehicle, and the desire not to devote staff time to certifying separate private security training courses.

ANALYSIS:

Several developments and problems have arisen which indicate a need for the above recommendations including:

1. An analysis of the attached curriculum comparison between the citizens and peace officer chemical agents courses suggests that the citizens course is a more appropriate curriculum to meet the needs of private security officers. Private security officers do not use the great range of gas and equipment peace officers use nor are they called upon for crowd control or removal of barricaded subjects.
2. In recent times, private security officers have been arrested and/or detained for failure to present evidence of having successfully completed the course. Neither the law nor POST require that presenters provide certificates of completion. In administering the citizen's course DOJ has standardized certificates of completion and tear gas permits.

3. POST has received an increasing number of course approval requests (approximately 100 formal and informal requests since July 1976) which have been denied based upon Commission policy to designate only public institutions with POST certified courses.

4. Penal Code Section 12403.7 became operable July 1977 and requires chemical agent training for private citizens who possess chemical agents for self-defense purposes. The Department of Justice was given the responsibility to administer the law including certification of citizen courses, which are 2-4 hours in length. DOJ has certified 41 public institutions to date and contemplate certifying private presenters as a result of the passage of SB 1931, which will increase the availability of this course.

5. A spokesman for the Bureau of Collection and Investigation, Consumer Affairs has indicated its agency is advising the private security industry upon inquiry that either course (citizens or peace officer) will satisfy the requirement.

If implemented, these recommendations would have the following advantages:

1. Make the chemical agent training standard for private security consistent with the actual needs which is self-defense in nature.

2. Resolve the persistent problem of private vendor course approval requests and thus reduce POST staff workload in answering inquiries.

3. Provide a remedy for the lack of standardized documentation for this training.

4. Reduce potential criticism in POST's handling of private security legislative training mandates.

5. Remove, in part, POST's responsibility for private security which is consistent with past Commission policy.
RECOMMENDATION:

1. Submit for public hearing a proposal which after an appropriate date designates the citizens chemical agent training course as the standard for private security chemical agent training course under Penal Code Section 12403.5.

2. In the 1979-80 Session, introduce legislation to repeal Penal Code Section 12403.5, because the statute no longer is necessary.

Subject: POSSIBLE POST LEGISLATION FOR 1979

Consistent with the policy to provide leadership regarding selected legislation pertaining to POST's mission and goals in improving law enforcement, the following is a compendium of possible legislation the Commission may wish to consider sponsoring in 1979. These substantive and technical items are presented in descriptive-conceptual form as possibilities only and not as recommendations. Once the Legislative Committee's specific recommendations are acted upon by the Commission, draft legislation will be returned for Commission approval prior to introduction.

Substantive

1. **Add Penal Code Section - Establishment of a Law Enforcement Agency Census.** Because there is a need for information on the number and type of peace officers/law enforcement agencies, this proposal authorizes POST to establish a Law Enforcement Agency Census. This would require all agencies who employ peace officers to annually provide POST such information as its address, phone number, number and type of peace officers, etc. Census information would be published for use by the Legislature, law enforcement agencies, and POST.

2. **Amend Government Code Section 1031 (a) - Citizenship Requirement for Peace Officers.** Should the Federal District Court in Los Angeles rule the citizenship provision of the California statute to be invalid, POST should introduce legislation which would require citizenship for specified peace officers.

3. **Amend Penal Code 12002 - Baton for Private Security.** This statute requires private security officers, if they carry an approved baton, to complete related training prescribed by POST. This proposal transfers the responsibility to Consumer Affairs, authorizes the charging of fees, and requires course presenters to issue, and private security officers to possess, an appropriate card.
4. **Amend Vehicle Code Section 42052 - Penalty Assessment Disposition.** This statute establishes the 75-25% formula for distributing penalty assessment revenues. It is reported the Legislature will, in 1979, seek to abolish the Driver Training Penalty Assessment Fund, which now receives 75% of the assessments. This proposal is to establish a separate State Law Enforcement Training Fund by earmarking an undetermined percentage of the existing 75% Driver Training Fund to enable POST to reimburse Specialized Law Enforcement Agencies at the State level, Marshals, and DA's Investigators.

5. **Amend the Education Code or 1979-80 State Budget - Add Public Safety Courses to List of Priority-Funded Courses.** The 1978-79 State Budget (Item 316.1) requires certain adult courses (handicapped, short-term vocational classes with high employment potential, basic skills, and others) to receive a proportionate level of funding as the previous year. This proposal is to amend the Education Code or the 1979-80 Budget by including "Public Safety Courses" in keeping with the spirit of Proposition 13 bail-out legislation.

**Technical**

6. **Repeal Penal Code Section 12403.5 - Chemical Agent Training for Private Security Officers.** If POST designates the citizens chemical agent course as the training standard, Penal Code Section 12403.5 would be obsolete.

7. **Repeal Penal Code Section 13515 - Police Citizens Guidebook.** The statute is dormant because no funding has been made available from specified sources. It is suggested this section be repealed.

8. **Amend Penal Code Section 13510.5 - State Agency Training Standards.** This statute has become confused as to which state peace officers are included because of subsequent changes to Section 830 et seq., which define and designate peace officer groups. This proposal would delete reference to state agency peace officers by code section and substitute the names of peace officer groups originally intended to be affected.

9. **Amend Vehicle Code Section 40600 - Traffic Accident Investigation Training.** This statute requires peace officers to successfully complete at least 40 hours of instruction approved by POST in the investigation of traffic accidents when the officer desires to issue a written notice of violation . . . . This proposal would delete reference to "at least 40 hours" so as to provide greater flexibility in setting standards.

Subject: VALIDATION COMMITTEE STATUS REPORT

The Job Analysis Project of the California entry-level patrol officer position is nearing completion. Five one-day work seminars have been scheduled to develop the final information needed to complete the project. Approximately 60 law enforcement agencies have been requested to provide additional assistance in this last stage of the project.

POST's Job Analysis Project began in September 1977. Task analysis questionnaires were administered to a sample of participating departments' patrol officers and patrol supervisors. The completion of these questionnaires by the 222 participating California agencies generated data that has since been systematically analyzed by POST project staff. This analysis completed Phase I of the project.

Project staff is now ready to begin Phase II, the final phase. This will involve supervisory/command-level personnel providing information concerning the importance of certain skills, knowledge, abilities, and other characteristics needed for successful performance of the tasks identified in Phase I. This information is necessary to staff for the development of selection procedures and instruments for entry-level employment applicants.

The Law Enforcement Assistance Administration announced on September 30, 1978, the award to POST of $134,753 to produce a manual for selection procedures for entry-level law enforcement officers. The manual is planned to include material on job analysis, background investigations, medical exams, reading and writing skills, physical ability or performance, job announcements, and job application forms.

This grant will provide for the adaptation of existing or yet to be produced POST materials for use in the other states.
Agenda Item M.  VALIDATION COMMITTEE STATUS REPORT

No handout.  This will be an oral report.
Control Data Corporation wishes to explore the potential of placing POST-developed curricula and testing materials on their computer-extended instructional system for statewide and, ultimately, national accessibility. They wish to award $150,000.00 to NASDLET and establish an Advisory Committee representing the California Commission, NASDLET, and the Control Data Corporation.

BACKGROUND:
In June of 1978 the Control Data Corporation met with the Executive Director to outline potential applications of computer technology to training programs. As a result of several meetings, Control Data Corporation set up a computer terminal in the POST offices to allow staff hands-on opportunities to become familiar with the State of the Art. As a result of their becoming aware of our program requirements, they developed a proposal to their corporate headquarters which has been approved. The grant basically will place Modules A and B of the Reserve Officers Training Course and a module that may have national application; such as, first-aid for police, into their PLATO computer system.

ANALYSIS:
The grant is essentially "passed through" as the biggest portion of the monies will be returned to a Control Data Corporation subsidiary to defray costs of programming the curricula into computer format. It is anticipated that additional programmed instruction; such as, workbooks, film strips or other audiovisual aids will be part of the learning package. It would include a demonstration evaluation in selected law enforcement agencies. The potential for remote area coverage is quite high.

Control Data is requesting POST Commission approval and assistance in identifying agencies to demonstrate the program and some staff time to assist in identifying subject matter experts and advisory committee guidelines.

It is anticipated that the NASDLET, National Association of State Directors of Law Enforcement Training, will be the grantee and will provide representatives to serve on the Policy Guide Committee to assure potential for national application. Control Data will also pay out of the grant for locally identified subject matter experts and Advisory Committee members.
In light of the legislative requirements to provide Reserve Officer training in remote areas of the State on a convenient basis, it would appear that there is considerable potential through this vehicle as a delivery system. More importantly, with the legislative requirement to test each graduate of Basic Academies, this would be both a convenient and a secure method of complying.

Other potential applications present themselves. Particularly notable would be the possibility of an applicant for a law enforcement position taking a reading skills level placement test using this vehicle and then presenting documentation of skill level to the prospective employer at time of application.

It is understood and can be spelled out in writing that there are no commitments or obligation accruing either to Control Data or to the Commission from conceptual approval and limited staff support to this effort. It is, however, of considerable assistance to the Commission staff in exploring appropriate methods to meet our legislative mandates. There are no fiscal requirements presented that would require Peace Officer Training Fund use other than the limited staff time which would be expended in this area in any case.

RECOMMENDATION:

Approve presentations on a pilot, experimental basis to determine the basic practicality and cost effectiveness of placing certain curricula into this mode of delivery system.

Note: Representatives from Control Data Corporation will be present at the Commission meeting and will demonstrate the PLATO System technology after the Commission meeting on Thursday.
This Exemplary Program (see attached booklet) **You Know You're A Peace Officer's Wife When...** is directed toward local agencies to provide them with an important additional tool to personally combat the debilitating effects of job induced stress. More than any other single factor, stress has been held responsible for increasing temporary and permanent loss of law enforcement personnel effectiveness and as such contributes excessively to the high cost of disability, premature job separation and great social loss.

**BACKGROUND**

A study of more than 2,300 officers in 29 departments around the country by the National Institute of Occupational Safety and Health (NIOSH), reported by Police Magazine in July 1978 (p. 45), reports that 37 percent of the officers have serious mental problems, 36 percent have serious health problems, 23 percent have serious alcohol problems, and 20 percent have serious problems with their children. Divorce rates are nearly twice as high as for other occupations and suicide rates are estimated between two and six times the national average. Most, if not all, is stress induced.

Some local agencies have developed their own stress reduction programs, including wives orientation programs. POST has been asked to make statewide seminars available; a costly program. A better approach is to provide local agencies with the ability to develop their own internal programs. This booklet provides that means.

**ANALYSIS:**

**You Know You're A Peace Officer's Wife When...**, prepared by the Peace Officers' Wives' Clubs Affiliated, of California (P.O.W.C.A.) and printed by the Davis Publishing Company of Santa Cruz is available at $3.00 a single copy, $1.75 each for 500 copies. POST staff has reviewed this book and commends its use to local agencies for development of their own stress reduction programs.

**RECOMMENDATIONS:**

POST staff recommends purchase of 500 copies of **You Know You're A Peace Officer's Wife When...** for single distribution to each law enforcement agency participating in the POST program for their use in local job enrichment/stress reduction programs.
BACKGROUND

In March 1972, the Commission directed staff to begin work in revising the basic training standards. The first step (Phase I) involved an extensive literature search, completing a detailed job analysis, and writing performance objectives.

In January 1975, the Commission authorized staff to develop materials to support implementation of the identified Performance Objectives (Phase II). These materials included a Management Guide and 192 Instructional Unit Guides.

At the January 1977 Commission meeting, the Commission authorized staff to continue to work with those basic academies that were willing to convert to the revised performance objectives training to evaluate implementation progress, problems, costs and time requirements (Phase III):

ANALYSIS

During Phase III, the evaluation and test phase, all but three of the 27 currently certified Basic Academies have participated in varying degrees from partial implementation to full implementation.

To assist the academies' staff in implementing the revised training, POST has provided technical courses in writing performance objectives (indoctrinating instructors) and managing performance objectives (designed to assist academy management staff). Field trips were also arranged—to assist those academies that were just starting to implement the revised training, and to visit academies that were having a measure of success in implementation. Some academies have achieved excellent success in specific areas in the implementation process. As an example, the San Francisco Police Department Academy has been very successful in integrating the Performance Objectives in the Basic Academy and their Field Training Program. The Tulare-Kings County Peace Officer Training Academy has been very successful in implementing a tracking system. Both of these systems have provided excellent evaluative feedback.
A Basic Course Consortium, made up of the staff from the academies involved in the implementation and evaluation process, was formed and initially met each month with POST project staff to review progress and problems. Through this process, some objectives were eliminated, many were rewritten, and some were added to make the training more practical. Currently, there are 557 objectives, however, some are still in the process of being revised (i.e., Defensive Driving and Unarmed Defense).

Many problems were identified in this phase. Some of the major problems are as follows:

- Testing objectives (Commission responded by authorizing POST to contract for development of testing instruments).
- Tracking objectives
- Remediation
- Managing field problems

Subcommittees of the consortium were formed to address specific problems, with a report taken back to the full consortium for consensus of recommended solutions. The full consortium now meets quarterly to review progress and provide consensus.

At the present time, Phase III is nearing completion with a target date of January 1979. At that time, the Performance Objectives document will be reprinted; the Instructional Unit Guide and the Management Guide will be written to update changes made in Phase III.

An implementation plan will be developed to present to the Commission at the July 1979 meeting.

RECOMMENDATIONS

Continue with the revision process.

POST CONTRACTS

Purpose

1. POST Contracts. The purpose of this directive is to ensure adherence to Commission policy and to centralize coordination of all POST contract requests.

Commission Policy

2. Restrictive Stipulation. As directed by the Commission at the January 23, 1975 meeting, contracts or interagency agreements in excess of $5,000 require the approval of the Commission.

5. Notification to the Commission. The Executive Director shall periodically report to the Commission on all contracts, and once each year shall submit a written report to the Commission which enumerates the contracts and interagency agreements entered into during the year. The written report shall reflect the status of each contract, the amount of money encumbered and expended to date.
