Commission on Peace Officer Standards and Training
Special Commission Meeting

AGENDA

This agenda is notice of a special meeting of the Commission on POST to be held:

Friday, November 21, 10 a.m.
Kona Kai Club - Regatta Room
1551 Shelter Island Drive
Shelter Island, San Diego
(714) 222-1191

The meeting is essentially a workshop study for the Commission with the exception of a single action item which will be the first thing on the agenda.

1. Implementation of A.B. 3217 - Reserve Officer Training

The Governor has signed A.B. 3217, the reserve training bill establishing two levels of Type I reserves, regular Level I reserve and "full powers and duties" reserves. "Full powers and duties" reserves are vested with all the powers of peace officers appointed under authority of 830.1 P.C. The bill also mandates the Regular Basic Course as the training standards for reserves. Major changes in Commission Procedures H-1 through H-5 are necessary to implement the new law, and the suggested changes are presented as part of this agenda item.

In addition to the necessary recommended procedural changes, there will be a need for additional reserve-accessible training. Staff is recommending that the Commission authorize staff to expand the number of extended format basic course presentations to meet emerging reserve training needs. Members of the Commission will recall that the extended format has been field-tested for the past year and found to be highly acceptable.

Immediately following the action of the Commission on this matter, a bulletin will be sent to the field explaining the requirements and implications of A.B. 3217, and the Commission's action in implementing this legislative mandate.

2. Commission Workshop Study Session

No decision or Commission action will be taken on this item.
