POST Commissioners

Chair
Joyce Dudley
District Attorney, Santa Barbara County

Vice Chair
Rick Braziel
Educator, Humboldt State University

Alan Barcelona
Special Agent, Department of Justice

Ingrid Braun
Sheriff, Mono County

Lai Lai Bui
Sergeant, Sacramento Police Department

Barry Donelan
Sergeant, Oakland Police Department

Robert T. Doyle
Sheriff, Marin County

P. Lamont Ewell
Public Member

Geoff Long
Public Member

John McMahon
Sheriff, San Bernardino County

Jethroe Moore
Public Member

James O’Rourke
Sergeant, California Highway Patrol

Batine Ramirez
Sergeant, Placer County Sheriff’s Department

Rob Bonta
Attorney General, Ex Officio Member
Missing persons and runaway cases are among the most compelling issues facing law enforcement today. In 1988 the Commission on Peace Officer Standards and Training (POST) was directed by legislative mandate per Penal Code Section 13519.1 to establish courses of instruction for training law enforcement officers and dispatchers to investigate and resolve missing persons and runaway cases. In 2010 the Legislature added PC 13519.07 which directed agencies to adopt policies and checklists to assist peace officers in missing person investigations. The Commission was directed to update the guidelines with contemporary information.

The Commission intends these guidelines to be a resource for law enforcement agencies in the development of additional training curriculum and departmental policies for responding to missing persons cases.

The Commission appreciates the contributions and efforts of the Missing Persons Advisory Committee for the preparation of this revised document.

Questions or comments concerning these guidelines and curriculum should be directed to the POST Training Program Services Bureau at 916 227-4885.

Message to Responding Officers
Missing Person Investigations

Investigating a missing person case can be one of the most challenging assignments you will handle in your career. The officer responding to a missing person call is in many cases responding to a situation where the reason for an individual’s disappearance is unknown.

The officer will have to consider several variables when dealing with a missing person investigation that has no obvious reason for a person’s disappearance. Was the individual involved in an accident? Did the individual meet with foul play? Did a stranger abduct a young child? Has a young child met with tragedy while exploring an attractive danger such as a pool, creek, abandoned car or refrigerator? Even in a known runaway situation is the cause of the juvenile running away due to physical, sexual, or emotional abuse by an authority figure in the home? Has the runaway been lured into a life of gangs and/or human trafficking scheme? It is estimated that one in seven runaways are victims of child sex trafficking. Was the child taken by a family member in an expression of control or anger over a custody dispute?

A missing person investigation can become a “high profile” case overnight. Officers are only one call away from a major case. As such, officers should never consider any case routine. Officers should assume the missing person is in immediate danger or at risk until the facts contradict that assumption.

Officers and investigators approaching the initial investigation in a less than serious manner may undermine the missing person’s investigation. They are more likely to miss critical information and overlook important evidence that might have otherwise been a key component to the quick and safe recovery of the missing person.

Officers should be aware of the need to act in a swift, organized, and efficient manner. In the case of child abductions by non-family members, studies show most children are killed within the first three hours of the abduction.

We may not always be able to control the outcome of a missing person case or guarantee the safe return of a loved one to their family, but you in particular, and your department, will be judged on your initial actions in the first few minutes, hours, and days of a missing person investigation.

It is the goal of this manual to give you, the officers and field supervisors, the basic knowledge and guidance to appropriately respond to the challenge of a missing person case.

# Missing Persons Categories/Definitions

## Section 1  Categories/Descriptions/Examples*

<table>
<thead>
<tr>
<th>Report Type</th>
<th>Description</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Catastrophic Missing</strong></td>
<td>Child or adult who is reported missing and assumed to be a victim of some type of disaster (fire, flood, earthquake, terrorist act, etc.). To be entered in MPS with Mandatory Type Code “C” per CJIS Manual Section 7.13.13.</td>
<td>A woman last seen in her apartment is reported missing after the apartment building is destroyed by fire and the woman cannot be located.</td>
</tr>
<tr>
<td><strong>Dependant Adult</strong></td>
<td>Adult who is reported missing and who has physical or mental limitations, e.g., dementia, Alzheimer’s disease, autism (which restrict their abilities to carry out normal activities). To be entered in MPS with Mandatory Type Code “D” per CJIS Manual Section 7.13.13.</td>
<td>A 46-year old man with memory impairment who resides at a care facility is reported missing after leaving the facility with a group of unknown visitors and then boards a city bus.</td>
</tr>
<tr>
<td><strong>Lost</strong></td>
<td>Child or adult who is reported to have strayed away and whose whereabouts is unknown. To be entered in MPS with Mandatory Type Code “L” per CJIS Manual Section 7.13.13.</td>
<td>A teenager is reported missing after he left a group of friends at their camp site to hike in a nearby wooded area and has failed to return before dark.</td>
</tr>
</tbody>
</table>
### Missing Persons Categories/Definitions

<table>

<th>Description</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Parent/Family Abduction</td>
<td>Child who is taken, detained, concealed, enticed away, or retained by a parent/family member or person at the request of the parent. To be entered in MPS with Mandatory Type Code “P” per CJIS Manual Section 7.13.13.</td>
<td>A 7-year old child is reported missing by the child’s mother (who is the custodial parent) after the boy is picked up from school by the boy’s father and taken to an undisclosed location.</td>
</tr>
<tr>
<td>Runaway</td>
<td>A child under 18 years of age who is reported missing but has left of their own free will. To be entered in MPS with Mandatory Type Code “R” per CJIS Manual Section 7.13.13.</td>
<td>A 15-year old girl, who was angry about her parents’ strict rules, is reported missing after she leaves home without telling her parents and fails to return.</td>
</tr>
<tr>
<td>Stranger Abduction</td>
<td>Child or adult who is taken or abducted against their will by an unknown person or a known person who is not a family member. To be entered in MPS with Mandatory Type Code “S” per CJIS Manual Section 7.13.13. If under the age of 18, this information will be forwarded to the FBI’s Child Abduction and Serial Killer Unit and the National Center for Missing and Exploited Children.</td>
<td>A 10-year old girl is reported missing when she fails to come home from school and a neighbor reports seeing her being physically forced into a van by an unknown man.</td>
</tr>
</tbody>
</table>
### Missing Persons Categories/Definitions

<table>
<thead>
<tr>
<th>Report Type</th>

<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Suspicious Circumstances</strong></td>
<td>Child or adult who is reported missing, and the circumstances give rise to believe that: foul play may be involved, the person is a danger to self or others (due to mental, physical, or emotional condition), or the disappearance is out of character for the individual and no known reasons can be determined. To be entered in MPS with Mandatory Type Code “X” per CJIS Manual Section 7.13.13. If under the age of 18, this information will be forwarded to the FBI’s Child Abduction and Serial Killer Unit and the National Center for Missing and Exploited Children.</td>
<td>A woman who is 8 months pregnant and lives with her parents is reported missing when she does not return home from a shopping trip and is last seen getting into a vehicle and leaving the parking lot with two men.</td>
</tr>
<tr>
<td><strong>Unknown</strong></td>
<td>Child or adult who is reported missing, but there are insufficient facts to determine the circumstances. To be entered in MPS with Mandatory Type Code “U” per CJIS Manual Section 7.13.13.</td>
<td>A man is reported missing after he failed to return home in a reasonable amount of time after taking the family dog out for a walk.</td>
</tr>
<tr>
<td><strong>Voluntary Missing Adult</strong></td>
<td>Adult who is reported missing, but who has left of their own free will. To be entered in MPS with Mandatory Type Code “A” per CJIS Manual Section 7.13.13.</td>
<td>A woman who is otherwise very dependable is reported missing by her employer after the woman failed to report to work for three consecutive days and did not answer her phone. It is later determined that the woman moved out of her apartment on her own without telling anyone or leaving a forwarding address.</td>
</tr>
</tbody>

*Currently listed under the Department of Justice’s Criminal Justice Information System (CJIS) Missing Persons System (MPS)*
### Section 2 Definitions Related to Missing Persons

It is recommended that these definitions be reviewed prior to reading the guidelines and curriculum for a clearer understanding of this topic.

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>AMBER Alert</strong></td>
<td>Defined as America’s Missing: Broadcast Emergency Response Alert, which is a nationally recognized program used by law enforcement to help find children under the most serious life-threatening conditions. This is a rapid notification to the public, which utilizes all available technology during the most critical period after a child/missing person has been abducted. The AMBER Alert is limited to specific criteria – See 4-42 AMBER Alert Procedures.</td>
</tr>
<tr>
<td><strong>Blue Alert</strong></td>
<td>A Blue Alert is activated when a violent attack on a law enforcement officer has occurred, and a search for the suspect is active. Blue Alerts provide immediate information to the public to prevent further harm and aid in the swift apprehension of the suspect. Blue Alert</td>
</tr>
<tr>
<td><strong>Dental / Skeletal X-rays / and Medical Records</strong></td>
<td>All X-rays, dental charts, treatment notes, records, models, and photographs which are in the possession of a dentist, physician, surgeon, or medical facility per Penal Code Section 14212.</td>
</tr>
<tr>
<td><strong>DNA</strong></td>
<td>Deoxyribonucleic acid (DNA) is used to identify an individual’s patterned chemical structure of genetic information by analyzing a biological specimen such as blood, tissue, or hair. It is commonly used to prove/disprove an individual’s commission of a crime. It is often used to determine the paternity of a child.</td>
</tr>
<tr>
<td><strong>DNA Data Base</strong></td>
<td>The Department of Justice is responsible for the DNA data base for all cases involving the report of an unidentified deceased person or a high-risk missing person. See PC §14250 for further definitions and details.</td>
</tr>
<tr>
<td><strong>Endangered Missing Advisory (EMA)</strong></td>
<td>An EMA can be issued in cases where the statutory criteria for an AMBER Alert are not met; however, an agency has reasons to believe the person is at risk or endangered and assistance in distributing information to help locate the individual(s) is desired.</td>
</tr>
<tr>
<td><strong>Evidence a Missing Person is “At Risk”</strong></td>
<td>“At Risk” per PC §14215(b) includes, but is not limited to, the person missing being the victim of a crime or foul play, in need of medical attention, has no pattern of running away or disappearing, the victim of parent/family abduction, or mentally impaired, including cognitively impaired or developmentally disabled.</td>
</tr>
<tr>
<td><strong>File Control Number (FCN)</strong></td>
<td>The FCN is a computer-generated number automatically assigned by the Criminal Justice Information System (CJIS) to each accepted record. Usually noted on the reporting agency’s missing person report.</td>
</tr>
</tbody>
</table>
### Missing Persons Categories/Definitions

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Missing Person</td>
<td>Any person who is reported missing to a law enforcement agency until the person is located or determined to be a voluntarily missing adult. It also includes any child who is missing voluntarily or involuntarily, or under circumstances not conforming to his/her ordinary habits or behavior and who may need assistance per <a href="https://leginfo.legislature.ca.gov/faces/bill.fullText.jspx?billId=201820190AB1420&amp;billType=BILL&amp;fullTextTab=FULLTEXT&amp;bookCode=PC&amp;sectionNumber=14215">PC §14215</a>.</td>
</tr>
<tr>
<td>Missing Persons System (MPS)</td>
<td>The MPS is an automated database maintained by the California Department of Justice (DOJ).</td>
</tr>
<tr>
<td>NCIC and CLETS</td>
<td>National Crime Information Center. Nationwide, on-line computer telecommunications system that is maintained by the FBI. Accessible via California Law Enforcement Telecommunications System (CLETS).</td>
</tr>
<tr>
<td>National Crime Information Center</td>
<td>The NIC Number is a computer-generated number automatically assigned by NCIC to each accepted record. Usually noted on the reporting agency’s Missing Person report.</td>
</tr>
<tr>
<td>Information Number</td>
<td></td>
</tr>
<tr>
<td>Reporting Myth</td>
<td>It is an incorrect assumption that 24 hours or any other time frame must pass before a law enforcement agency will accept a missing person report.</td>
</tr>
<tr>
<td>Silver Alert</td>
<td>A Silver Alert is a quick response alert system, similar to the concept of an AMBER Alert, designed to issue and coordinate public alerts following the determination that a party 65 years of age, or older, developmentally disabled, or cognitively impaired, is missing under certain specified requirements.</td>
</tr>
<tr>
<td>Technology-Based Notification Systems</td>
<td>A previous computer system known as TRAK (Technology to Recover Abducted Kids) or Critical Reach, has been replaced by a new law enforcement alert software system called APBnet. This system is used to create flyers depicting the person's photo and other related identification. Multiple copies can then be made and distributed to assist in locating a missing person or a wanted criminal suspect. Such systems are distributed at a nominal charge to law enforcement agencies by the Critical Reach Foundation. The National Center for Missing &amp; Exploited Children (NCMEC) also offers the Lost Child Alert Technology Resource (LOCATER), which is also available to law enforcement at no cost.</td>
</tr>
<tr>
<td>UPS</td>
<td>Unidentified Persons System, an automated database maintained by the Department of Justice (DOJ).</td>
</tr>
</tbody>
</table>
### Section 3 Missing Persons Categories – Quick Reference Chart

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Abduction</td>
<td>Missing person is abducted while another criminal act was taking place. Upon entry into MPS, consider using optional Category Code “A” per CJIS Manual Section 7.5.1.</td>
</tr>
<tr>
<td>At Risk</td>
<td>See above for definition. Upon entry into MPS, consider using optional Category Code “R” per CJIS Manual Section 7.5.1.</td>
</tr>
<tr>
<td>Sexual Exploitation Suspected</td>
<td>Missing persons may be commercially sexually exploited. Upon entry into MPS, consider using optional Category Code “S” per CJIS Manual Section 7.5.1.</td>
</tr>
<tr>
<td>Prior Missing</td>
<td>Missing person who has been reported as missing previously. Upon entry into MPS, consider using optional Category Code “P” per CJIS Manual Section 7.5.1.</td>
</tr>
<tr>
<td>Urgent Cases</td>
<td>If marked and child is under 18 years of age, the FBI’s Child Abduction and Serial Killer Unit and NCMEC will be notified. Upon entry into MPS, consider using optional Category Code “N” per CJIS Manual Section 7.5.1.</td>
</tr>
<tr>
<td>Amber Alert</td>
<td>A partnership between law enforcement (the government), the media, and the public to distribute information for the singular purpose of safely locating a missing child under the age of 18, who is developmentally disabled or cognitively impaired, and is in imminent danger of serious bodily injury or death.</td>
</tr>
<tr>
<td>Blue Alert</td>
<td>See above for definition.</td>
</tr>
<tr>
<td>Silver Alert</td>
<td>A quick response alert system, like the concept of an AMBER Alert, designed to issue and coordinate public alerts following the determination that a party 65 years of age, or older, developmentally disabled, or cognitively impaired, is missing under certain specified requirements.</td>
</tr>
</tbody>
</table>
Guidelines for Handling Missing Persons Investigations

These guidelines are divided into six sections:

1 Acceptance of Initial Call
2 Officer’s Initial Contact at the Scene
3 Reporting Responsibilities
4 Follow-up Investigation
5 Closure of Missing Person Investigation
6 Missing and Unidentified Persons Reporting Reference Chart

Section 1 Acceptance of Initial Call

Guideline 1.1 Determination of missing person case and sensitivity to the reporting party

A. Officers, dispatchers, or other designated personnel who take the initial call, by phone, in person, or by electronic media, should determine if the call is a missing person case according to the definition of a missing person – see 1-1 Missing Person Report Types/Categories.

B. Reporting parties and families of missing persons often experience feelings of helplessness and anxiety. Dispatchers, officers, or other designated personnel dealing with these persons should be sensitive to those feelings and respond appropriately.

Guideline 1.2 Confirmation of responsibility for acceptance of report, priority in handling, and agency notification.

A. It is the duty of all law enforcement agencies to immediately assist any person who is attempting to make a report of a missing person or runaway, per Penal Code Section 14211(a). A report shall be accepted regardless of jurisdiction, per PC §14211(a).

B. If the California Highway Patrol (CHP) is contacted, including by phone, by someone wishing to make a report of a missing person, the CHP may take the report. After taking the report, the CHP shall immediately advise the reporting party of the name and phone number of the police or sheriff’s department having jurisdiction over the residence of the missing person and the place where the missing person was last seen, per PC §14211(b).
PART TWO

Guidelines For Handling Missing Persons Investigations

Guideline 2.1 Officer’s initial contact: making an assessment at the scene.

A. Officers or other designated personnel should interview, with sensitivity, the reporting party and any witnesses to determine:
   1. That this is a missing person case.
   2. If the person may be at risk – or existence of any suspicious circumstances.
   3. If there is any potential crime scene area and/or potential witnesses.

B. Officers should utilize the Department of Justice Standard Missing Person Reporting Form (see 4-60) for the initial contact with the reporting party, per PC §13519.07(d).

C. Many times, parents or guardians are anxious to assist law enforcement in the initial phase of the investigation and they will want to provide additional documents to assist in the location of their loved one. Besides obtaining a photograph of the missing person, additional items such as fingerprint cards...
Guidelines for Handling Missing Persons Investigations

obtained through community fair projects, medical or dental records, items containing DNA samples of the missing person, or other related documents may be offered voluntarily by the family. It is recommended that responding officers accept these items and properly document their collection in their reports. They should also inform the follow-up investigators that these items have been collected.

Guideline 2.2  Making a further assessment to determine what reasonable steps should be taken to locate the missing person.

A. Officers should utilize their departmental checklist or the Child Abduction First Responder/Risk of Danger Checklist (see 4-61) provided by the Department of Justice, which includes guidelines and resources available in the early hours of a missing person investigation, per PC §13519.07(b).

B. Based upon the law, circumstances of each case, and departmental policy, appropriate actions minimally include:
   1. Obtaining description of missing person.
   2. Broadcast of a “Be on the LookOut” (BOLO) bulletin within its jurisdiction if the person is under 21-years of age, or there is evidence that the missing person is at risk. The BOLO should be broadcast without delay, per PC §14211(d).

C. Determine if the missing person fits the mandatory criteria for an AMBER Alert. The criteria are:
   1. There is a confirmed abduction, or the child has been taken by anyone, including, but not limited to, a custodial parent or guardian.
   2. The child is 17-years of age or younger, or the individual has a proven mental or physical disability.
   3. The person is in imminent danger of serious bodily injury or death.
   4. Information is available that, if disseminated to the general public, could assist in the safe recovery of the victim such as:
      a. Description of child, or
      b. Description of suspect, or
      c. Description of the suspect vehicle.
   5. If above criteria are met, and there is no extenuating investigative need that dictates otherwise, the Emergency Alert System (EAS) should be activated.
D. If the missing person does not fit the required criteria, officers should continue to determine which of the many other tools available would be the most appropriate for transmitting information and photographs to other officers, the media, and the public.

E. Consider calling a supervisor and/or investigator to the crime scene.

F. Thoroughly search the immediate and surrounding area in a logical and systematic manner:
   2. Identify and interview potential witnesses.
   3. Consider using a standardized search checklist, which should include the last known location of the missing person and any likely locations where the person may have gone.
   4. Consider using additional resources to assist in the search:
      a. Federal Bureau of Investigation (FBI).
      b. California Governor’s Office of Emergency Services (Cal OES).
      c. Department of Justice (DOJ).
      d. California Highway Patrol (CHP) Statewide AMBER Coordinator.
      e. APBnet Law Enforcement System.

G. Consider notifying other agencies for assistance in locating the missing person in their related jurisdictions.
   1. The agency where the missing person was last seen may initiate the investigation.
   2. It is essential that agencies work together to enhance the success of the investigation.

H. Request voluntary assistance from the family or reporting party in obtaining initial items of evidence belonging to the missing person such as:
   1. Recent photograph(s) of victim.
      a. Try to also obtain an additional photograph depicting the victim smiling with their teeth showing (beneficial for assisting in dental comparison and identification).
   2. Personal clothing, bedding, personal hygiene items, etc., that may contain DNA with evidentiary value.
Guidelines For Handling Missing Persons Investigations

3. Any personal items that contain the missing person’s scent (for search dogs):
   a. Suggested items include hat, comb/brush, sock, under garments, etc., that were recently worn by the missing person and not handled by anyone else.
   b. Items taken from a family laundry hamper, containing a mix of family member’s clothing, will not be beneficial.
   c. Such “scent articles” should be placed in a clean paper bag using a clean glove or a clean stick.

4. Personal electronic devices (cell phones, or cell phone number for tracking purposes, computers, and any online resources such as: screen names, email sources, websites they may frequent, etc.).

5. Personal social media accounts can yield valuable information and can produce leads on possible locations and associated parties.

   I. Obtain a list of persons known by the missing person e.g., friends, co-workers, acquaintances, associates, etc.

   J. Obtain a list of locations frequented by the missing person.

Guideline 2.3  
If the missing person fits the mandatory criteria for an AMBER Alert, determine whether the abductor is believed to be a parent or guardian. At the same time, contact the California Highway Patrol to initiate the AMBER Alert activation process.

A. If the abductor is believed to be a parent, guardian, or other family member, officers should consider the following in addition to the actions taken in Guideline 2.2:

   1. Whether the abducted child has a medical condition which the abducting parent is either unaware of or unable to properly treat.

   2. Whether there is a danger to the abducted child of either physical or sexual abuse.

   3. Whether there has been a threat of harm to the child or a threat to take the child out of the jurisdiction.

   4. Whether the abducting parent has a history of mental illness or any type of substance abuse problem.

   5. Whether the abducting parent is known to be armed while in possession of the child.

   6. Whether the abducting parent does not have a verifiable current address.

   7. Whether the abducting parent has any out-of-state or international connections.
B. Officers should determine whether a custody order is available:

1. If a parent provides a copy of a custody order, officers should verify that it is the most current valid order. Officers should contact the issuing court and/or the local district attorney’s office for help in verifying an order.

2. Some factors to consider in verifying a custody order.
   a. Signed by judge and filed in jurisdiction. Check for file stamp and, if possible, call jurisdiction to confirm that it is the latest order, and not just an application for an order.
   b. What type of custody or visitation rights are granted by the order?
   c. Check for proof of service demonstrating that abducting parent has knowledge of the order.
   d. Determine whether there are restraining orders and/or restrictions on the parties from leaving California.

C. If the reporting parent has a custody order and is asking that it be enforced:

1. Officers should enforce a custody order only if it has been verified.

2. Out-of-state orders must be registered under the Uniform Child Custody Jurisdiction and Enforcement Act (UCCJEA).

3. If a parent has a foreign custody order, consider whether the foreign country is a signatory to the Hague Convention.

4. **PC §279.6** authorizes an officer to take a child into protective custody if any of the following situations are present:
   a. It reasonably appears to the officer that the person with the child is likely to conceal the child, flee the jurisdiction with the child, or otherwise evade the authority of the court.
   b. There is no lawful custodian available to take custody of the child.
   c. There are conflicting custody orders or conflicting claims to custody and the parties cannot agree which party should take custody of the child.
   d. The child is an abducted child.

5. If a child is taken into protective custody, it shall be the responsibility of the officer to:
   a. Release the child to a lawful custodian unless it reasonably appears that the release would cause the child to be endangered, abducted, or removed from the jurisdiction.
   b. Obtain an emergency protective order pursuant to the Family Code
ordering placement of the child with an interim custodian who agrees in writing to accept interim custody.

c. Release the child to the social services agency responsible for arranging shelter or foster care

d. Return the child as ordered by a court of competent jurisdiction.

D. When the location of a parentally abducted child is in another country:

1. Consider whether the country is a signatory to the Hague Convention on the Civil Aspects of International Child Abduction.

   a. If the child is believed to be in a country that is a signatory to the Hague, contact the U.S. State Department for help in filing an application for return of the child.

   b. If the child is believed to be in Mexico, the Attorney General’s Foreign Prosecution and Law Enforcement Program (FPLEP) can help in filing the Hague application, locating, and recovering the child.

2. Contact the FBI and Interpol to help locate children and abductors in both Hague and non-Hague signatory countries.
PART TWO

Guidelines For Handling Missing Persons Investigations

Section 3 Reporting Responsibilities

Guideline 3.1 Missing person reports must be entered into the Department of Justice’s Missing Persons System (MPS) within two (2) hours.

A. Information regarding missing persons under the age of 21, or where there is evidence that the missing person is “at risk,” shall be entered in the DOJ Missing Persons System (MPS) within two hours by the agency taking the report per PC §14211(e).

B. The agency taking the initial report should make the MPS entry.

C. Special note: This two-hour reporting requirement in the Penal Code became effective January 1, 2012. It is consistent with existing Federal Law, Crime Control Act of 1990, which was amended by Suzanne’s Law in April 30, 2003.

Guideline 3.2 When a missing person report is taken, the agency shall promptly notify and send a copy of the report to the department that has jurisdiction over the missing person’s resident address and to the agency where the missing person was last seen, per PC §14211(g).

A. Officers, dispatchers, or other designated personnel who take a missing person report on a person who resides outside their department’s jurisdiction shall, without delay, notify and forward a copy of that report, when completed, to the police or sheriff’s department having jurisdiction over the missing person’s residence address and where the missing person was last seen.

B. It may also be appropriate to notify the agency having jurisdiction of the missing person’s intended destination.

C. Agencies should define, through their department policies, the words “without delay” with a specific time frame that conveys urgency with the understanding that a child/adult may potentially be in danger.

Guideline 3.3 The agency taking the missing person report shall submit the report to the Attorney General’s Office, Department of Justice, per PC §14211(e).

A. The report shall be submitted through the California Law Enforcement Telecommunications System (CLETS) into the on-line Missing Persons System (MPS).

B. The CLETS entry will automatically generate a unique file control number.

C. When a missing person is entered into the CJIS/MPS system, the record is automatically sent to NCIC and entered the NCIC Missing Person File, creating a NIC Number for the case.
Guideline 3.4  
Agency personnel shall provide the reporting party with Department of Justice Form #BCIA 4048 authorizing the release of dental or skeletal X-rays or both, and photograph(s), including instructions on when to obtain these and submit them to the agency, per PC §14212(a).

A. Officers, dispatchers, or other designated personnel shall give the reporting party, in person or by mail, a Department of Justice form (BCIA 4048, two-sided form for missing adult or missing juvenile). This form, when completed by a reporting party or a family member or guardian, authorizes the release of dental/medical records, and/or dental and skeletal X-rays, and the release of a recent photograph if the missing person is under 18-years of age.

1. The form’s instructions state that if the person is still missing 30 days after the report is made, that the form is to be signed by a family member or next of kin and taken to the appropriate medical authority. The family member or next of kin shall obtain the dental/medical and or skeletal X-rays (includes all such records, including models and photographs) which are in the possession of a dentist, physician, surgeon, or medical facility, and within ten days submit them to the agency with jurisdiction over the investigation.

2. Dentists, physicians, surgeons, and medical facilities must release the X-rays to the person presenting the request

a. Request copies of dental/treatment history charts. Experience has shown that dental charts can be very helpful, along with X-rays, to establish the positive identification of an unidentified deceased person.

B. For any missing person, the agency may immediately obtain dental/skeletal X-rays, medical records, and treatment notes using a “Written Declaration” per PC §14212(a) – Declaration of Authority For Seizure of Dental and Medical Records (English) and Declaration of Authority For Seizure of Dental and Medical Records (Spanish).

1. In such cases, the agency may immediately confer with the coroner or medical examiner and submit the agency’s report, dental/skeletal/medical records, and treatment notes to the Attorney General’s Office within 24 hours.

Guideline 3.5  
Within ten (10) days of a child’s disappearance, the agency responsible for investigation of the missing child shall inform the child’s school that he/she is missing. The notice shall be in writing and, if available, include a photograph per California Education Code 49068.6(a). Law enforcement agencies may establish a process to inform local schools about abducted children per California EC 49068.6(c).
Guidelines for Handling Missing Persons Investigations

Note to investigator:

No standard statewide form is currently mandated, but a detailed form is essential. See sample form – **School Notification Missing Child**. It is recommended that your agency form be printed on brightly colored paper.

An agency representative should meet with school officials to notify them of the missing student, and to review the form (that will be attached to the student’s file). The agency representative will explain to school officials the importance of any future documentation, and the agency’s responsibilities, if a person calls to request transfer of the missing student’s files to another school district.

A. Such inquiries are common among parental disputes that have resulted in a child abduction by a parent.

B. If school personnel are unfamiliar with how to handle such an inquiry, they may lose a valuable investigative lead that could facilitate the return of an abducted child to the rightful (court ordered) parent/guardian.

Section 4  Follow-Up Investigation

**PC §14211** requires the agency taking the initial missing person’s report notify “without delay” and send copies of the report to the department that has jurisdiction over the missing person’s resident address and to the agency where the missing person was last seen.

It is recommended that the initial investigation should be handled by the agency of jurisdiction where the missing person was last seen. This includes entry of the missing person into the Department of Justice’s MPS (Missing Persons System) and coordinating a bilateral investigation with the agency of the missing person’s residence. Once this agency has exhausted all investigative leads, the case should be transferred to the agency that has jurisdiction over the missing person’s residence. This would include making the proper computer notation with the Department of Justice as to the agency responsible for the investigation. Any future leads should be routed to the agency with jurisdiction based on the missing person’s residence. It is imperative that all agencies involved in the missing person investigation work closely together, enhancing the probability of locating the missing person.

**Guideline 4.1  Initiate follow-up contacts within 30 days.**

A. Officers or other designated personnel should consider re-contacting the reporting party within 30 days of the initial report to determine if any additional information may have become available via the reporting party.

B. Other agencies involved in this case should also be contacted to determine if any additional information is available.

**Guideline 4.2  Obtain the photograph, dental/skeletal X-rays, treatment notes, and medical records by “written declaration” when a person is still missing after 30 days, per **PC §14212(b).**
PART TWO

Guidelines For Handling Missing Persons Investigations

A. When any person has not been found within 30 days, and no family or next of kin can be located, a written declaration shall be executed. The declaration should state that an active investigation, seeking the location of the missing person, is being conducted and that dental records (dental charts and dental X-rays) and any available skeletal X-rays, are necessary to proceed with the investigation, per PC §14212(e).

B. The written declaration, signed by a peace officer, is enough authority for the appropriate medical authority to release the requested medical records.

Guideline 4.3 Law enforcement agencies shall advise family or relatives of a missing person of their right to provide a voluntary sample for DNA testing, per PC §14250(c)(2)

A. After a report has been made of a person missing under high-risk circumstances, the responsible investigating law enforcement agency shall inform the parents or other appropriate relatives (no longer than 30 days after the initial report) that they may give a voluntary sample for DNA testing or may collect a DNA sample from a personal article belonging to the missing person.

B. A coroner shall collect samples for DNA testing from the remains of all unidentified persons and shall send those samples to the Department of Justice for DNA testing and inclusion in the DNA data bank, per PC §14250(c)(1)

C. Contact the California Department of Justice Missing Persons DNA Program 510-620-3300 or DNAmissingpersons@doj.ca.gov to obtain FREE DNA kits for the family members and/or to obtain items from the missing person.

Guideline 4.4 Confer with the Coroner or Medical Examiner and submit a Missing Person Report and the dental charts, treatment notes, and original (preferred) dental X-rays, skeletal X-rays, or both, and photographs to the Attorney General’s Office, Department of Justice when any missing person has not been found within 30 days, per PC §14212(g).

A. If the missing person has not been found within 30 days, the officer or other designated personnel within the agency initiating or conducting the investigation may confer with the coroner or medical examiner for comparison to unidentified deceased persons. The coroner or medical examiner is required to cooperate with law enforcement in these efforts.

B. After conferring with the coroner or medical examiner, the investigating officer or other designated personnel may submit a missing person report to DOJ, with dental or skeletal X-rays, or both, treatment notes, and photograph if the missing person is under 18-years of age.

1. The advisory committee suggests that both dental records (X-rays and dental charts) and skeletal X-rays be submitted.
C. The officer or other designated personnel should send a copy of the release form with the photograph(s) to DOJ – See 4-58 BCIA 4048 – Missing Juvenile.

D. Local reporting agencies shall attempt to obtain the most recent photograph available for persons under 18-years of age and forward the photograph to DOJ, per PC §14210(d).

E. Recent enactment of state and federal statutes, most particularly Health Insurance Portability and Accountability Act (HIPAA) should not be a hindrance when it comes to the coroner or medical examiner acquiring health records in the performance of their duties – See Management of the Long-Term Missing Person Case

Section 5 Closure of Missing Person Investigation

Guideline 5.1 When a missing person is found, the agency must report this to the Attorney General’s Office, Department of Justice and shall report it to the other agencies as appropriate, per PC §14213.

A. When any person reported missing is found, the officer, dispatcher, or other designated personnel shall immediately report that information to DOJ.

B. The reporting party and other involved agencies shall be notified in accordance with local policy. This includes a reported missing juvenile’s school.

C. Any automated systems entries shall be canceled.

D. Information regarding any found, unidentified persons, alive or deceased, should be entered into the Criminal Justice Information System/Unidentified Persons System (CJIS/UPS).

E. When any person is found, the report of finding shall be made within 24 hours, per PC §14213(b).

F. The locating agency shall also report to the law enforcement agency that took the initial report, per PC §14213(b).

G. When any missing person is found alive or dead, in less than 24 hours, and is suspected to have been abducted, the law enforcement agency shall submit a report to DOJ, per PC §14213(c).

H. In the event that a missing person is found before being reported missing to DOJ, a missing person report entry (followed by a cancellation) must still be made into CJIS/MPS systems and shall still be submitted to DOJ, per PC §14213(c).
**Guideline 5.2  Considerations for closure of missing person investigation.**

A. Careful consideration should be made concerning clearing a missing person investigation.

B. Obvious closure is appropriate when the missing person is confirmed returned or evidence has matched an unidentified person or body (complete body).

C. Inability to move forward in the investigation should not be a reason for closing a case:
   1. By closing a case in such a manner, all evidence may be lost for the future identification of a deceased person.
   2. An unidentified body may be discovered several years later, after the missing person report had been filed and prematurely closed.
   3. In such a case, there may be no relevant evidence that may assist in identifying the body, further hindering a death investigation.

D. When the reported missing person is under the age of eighteen:
   1. The missing child should remain classified under their actual age as when originally reported missing, regardless of their current age.
   2. The missing child report should not be cancelled and re-entered simply because the child has reached adulthood.
   3. The missing child report should not be removed or cancelled from the Criminal Justice Information System/Missing Persons System (CJIS/MPS) due to emancipation or reaching adulthood.
   4. Missing juvenile report(s) should not be removed or cancelled due to the discovery of any warrant (civil or criminal) that had been issued for the missing person. The warrant may result from theft of the missing person’s identity. In prior years, the NCIC system only allowed for one entry, however this system has been updated and now allows for multiple entries per reported subject.
### Section 6  Missing and Unidentified Persons Reporting Reference Chart

All local police and sheriffs’ departments shall accept any report of a missing person (MP) without delay, per Penal Code (PC) § 14211(a). Additional requirements/guidelines are below. As you read the chart from left to right, report types are listed by age group, and note the applicable code section: PC, Education Code (EC), or federal statute (U.S.C.).

---

1 Per Health & Safety Code § 102870, the DOJ shall act as a repository for dental examination records of missing and unidentified person and will compare the records for the purposes of identification.

2 Per PC § 14250(a)(4), for the purpose of DNA collection, a high-risk missing person is anyone missing as a result of a stranger abduction, suspicious circumstances, unknown circumstances, there is reason to assume the person is in danger or deceased, and that the person has been missing for more than 30 days or less in the discretion of the investigating agency.

3 Per PC § 14215(b), “at risk” means there is evidence of, or there are indications of, any of the following: (1) is a victim of a crime or foul play, (2) is in need of medical attention, (3) has no pattern of running away or disappearing, (4) may be the victim of a parental abduction, or (5) is mentally impaired, including cognitively impaired or developmentally disabled.
**Section 1  Legal Reference**

**Penal Code Section 13519.1,** effective January 1, 1988, required the POST Commission to implement a course of instruction for law enforcement officers and dispatchers in handling missing person and runaway cases by July 1, 1988. The course of basic training for law enforcement officers and law enforcement dispatchers was required to incorporate instruction in their programs on the topic of missing person and runaway cases by January 1, 1989. All law enforcement officers and law enforcement dispatchers who have received their basic training before January 1, 1989, were required to participate in supplementary training on missing person and runaway cases, as prescribed and certified by the POST Commission. The training of all said officers was to be completed by no later than January 1, 1991. Since that time, the topic of missing person and runaway cases remains in the core curriculum of basic training for law enforcement officers and dispatchers. The POST Commission is also required to provide training to peace officers to efficiently handle, on the local level, the tracing of missing persons and victims of violent crimes. Local law enforcement agencies are encouraged to include such training as part of their Advanced Officer and Dispatcher Update training programs.

**Section 2  Background**

This curriculum was developed and revised with the input of several advisory committees over the years. The curriculum is based upon POST guidelines for handling missing person and runaway cases, which was developed with the input of the advisory committees as well. The curriculum was approved by the POST Commission and became effective January 1, 1989. The curriculum was updated in 1998, 2000, 2006, 2011 and 2020. Curriculum and Guideline revisions were based on related Legislative Bills that amended and created new Penal Code sections, related to the topic of Missing Persons and Runaway cases, and input from the subject matter resources.

**Section 3  Certification Information**

The following curriculum is applicable in its entirety to the Basic Course. Designated portions of the training are applicable to in-service officers who have received their basic training before January 1, 1989. This supplementary training for in-service officers may be included as part of advanced officer
courses or as part of a technical course. Basic and supplementary training for dispatchers includes a minimum two-hour overview of all topics, with emphasis on those aspects performed by dispatchers. To assist presenters and instructors, the POST Training Specifications for the Regular Basic Course and Basic Dispatcher Course are available upon request to provide more detailed information on this curriculum.

Section 4  Training Topics

For in-service officers completing basic training prior to January 1, 1989, supplementary training consists of a minimum of two hours with emphasis on these topics:

Total: Minimum of 4 hours training

Learning Goal: The student will gain the ability to manage missing person cases.

A. Benefits for law enforcement involvement and sensitivity
   1. The student will identify the benefits for law enforcement involvement in missing person cases including:
      a. Community support.
      b. Personal/professional satisfaction.
      c. Reduction of civil liability.
   2. The student will identify the reasons officers should exhibit sensitivity in handling missing person cases including:
      a. Public’s feelings of helplessness/trauma/fear/anger.
      b. Valuable public service opportunity.
      c. Public’s unfamiliarity with law enforcement procedures.

B. Initial response procedures
   1. The student will identify procedures required for the initial investigation and response to missing person cases including:
      a. Verification that this is a missing person case.
      b. Determine type of missing person case.
      c. Determine existence of suspicious circumstances/risk factors.
      d. Identify and isolate any potential crime scene area.
      e. Obtain description of victim and possible suspect(s).
      f. Identify potential witnesses.
      g. Obtain recent photograph of victim.
h. Determine steps to be taken to locate victim.
i. Call a supervisor or investigator if appropriate.
j. Notification of other agencies.
k. Complete a comprehensive report using the standardized Missing Persons Reporting Form and review the Missing Person Checklist to ensure all appropriate steps are taken and available resources are utilized.

2. The student will identify the reasons for making a thorough search of the missing person's home, vehicles, and yard at the onset of the investigation.

3. The student will identify the influence of the following conditions on the nature and level of response to a report of a missing person:

a. Age.
b. Victimization.
c. Missing person's knowledge of the area.
d. Suspicious circumstances.
e. Mental or emotional condition.
f. Medical or physical condition.
g. Weather.
h. Time of day.
i. Resources available to missing person.
j. Length of time missing.
k. Custody status.

C. Locating missing persons

1. The student will identify the means for locating missing persons, including:

a. Making a local Be on the Lookout (BOLO) broadcast.
b. Initiating an AMBER Alert, Endangered Missing Advisory, or Silver Alert based on qualifying criteria.
c. Searching the area.
d. Determining the existence of court orders regarding custody matters.
e. Utilizing additional resources.
D. Legal requirements for initial response and follow-up:

1. The student will identify the legal and departmental requirements for the initial handling of missing person cases including:
   a. Accepting the report regardless of jurisdiction per PC §14211(a).
   b. Priority of response per PC §14211(a).
   c. That a BOLO broadcast be made, without delay, if the missing person is under 21 years of age, or there is evidence that the person is “at risk” per PC §14211(d).
   d. That a report be submitted to the Attorney General’s Office, Department of Justice, within two (2) hours, if the person reported missing is under 21-years of age, or if there is evidence that the person is “at risk” per PC §14211(e).
   e. The requirement of the “immediate” reporting of a missing child under 21 years of age to the National Crime Information Center (NCIC) per the Code of Federal Regulations (CFR), Title 42, Chapter 72, Subchapter IV – Missing Children, Sections 5779 and 5780.
   f. Issuance of DOJ authorization to release form, regarding obtaining dental and/or skeletal X-rays of the reported missing person and the authorization to use a recent photograph of the missing person, under age 18 per PC §14212(a).
   g. It is the law enforcement agency’s duty to immediately assist any person who is attempting to make a report of a missing person or runaway per PC §14214(a).

2. The student will identify the legal requirements for the handling of follow-up investigations dealing with missing person cases including:
   a. In the case of a missing child, the law enforcement agency shall notify that child’s school in writing of the child’s disappearance within 10 days per California Educational Code §49068.6.
   b. Peace officer’s right to obtain school records pertaining to a missing child’s identity, location, and limitations on the use of those records per PC §49076.5.
   c. Obtaining photograph, dental, or skeletal records per PC §14211 and PC §14212.
   d. Conferring with coroner or medical examiner per PC §14212(g).
   e. Notification to other agencies when the reported missing person is located per PC §14213(a), (b), and (c).
f. The obtaining of voluntary DNA samples from parents or family members and/or collection of personal articles belonging to the missing person that may contain that person’s DNA per PC §14250(c)(2)

g. Limitations on use of DNA and penalties for violation per PC §14250(c)(7)

h. Cancellation of automated system entries when person is located per PC §14213
Section 1  Department of Justice Missing Person Reporting Criteria

The standard DOJ Missing Persons Reporting Form collects all the mandatory information for entering a record into MPS and NCIC. However, many law enforcement agencies have developed their own forms. Any missing person’s report form must use the current DOJ reporting criteria to assure accuracy when the missing person is entered into the DOJs Missing Persons System (MPS). The following items must be incorporated into the reporting form:

- Reporting agency
- Originating Agency Identifier (ORI)
- Case number
- Date of report
- Reporting party
- Investigator’s name
- Agency phone number
- Report type (runaway, suspicious circumstances, parental abduction, etc.)
- Category (“at risk”, prior missing, sexual exploitation suspected, etc.)
- Location last seen
- File Control Number (FCN)
- National Crime Information Center (NCIC) number
- Missing person’s name
- Alias names
- Sex, race, height, weight, hair color/length, eye color
- Date of birth or age
- Date of last contact
- Dental chart/X-rays
- Dentist’s name/phone number
**Section 2 AMBER Alert Procedures**

In July 2002, legislation was enacted to help provide a coordinated and rapid response to instances of child abduction in California. When a child is abducted, timely notification to law enforcement and the public is one of the most essential components of the recovery process. The following information is an overview of the California Child Safety AMBER Network, and the various resources available to law enforcement agencies in the event of a child abduction incident.

### 2.1 Background

History has shown the importance of a cooperative effort among law enforcement agencies, media outlets, and the public in responding to child abduction incidents. This is especially important when you consider a study by the United States, Department of Justice, which found that 74 percent of children who were abducted, and later found murdered, were killed within three hours of being taken. In the event of a child abduction incident, this troubling statistic highlights the need for the immediate dissemination of pertinent information to law enforcement agencies, media outlets, and the public.

In response to this need, a statewide child abduction notification system was implemented in August 2002. This system, the California Child Safety AMBER Network, is partially modeled after the original AMBER Alert Program developed in 1996 following the abduction and murder of 9-year old Amber Hagerman in Arlington, Texas. Although it is modeled after the plan developed in Texas, California’s new plan utilizes several additional resources to aid in the dissemination of child abduction information throughout the state.
The California plan, which addresses elements required as a result of the passage of Assembly Bill (AB) 415, (Sept. 13, 2002,) requires law enforcement agencies to request activation of the Emergency Alert System (EAS) in response to a report of a child abduction incident that meets specific criteria. This will ensure that law enforcement agencies in California provide immediate notifications to other agencies, media outlets, and the public to assist in the recovery of children in the most serious child abduction cases.

2.2 AMBER Alert System

The activation of the EAS, also referred to as an AMBER Alert, can pre-empt radio and television broadcasts and provide information to the public regarding a child abduction incident. To capture the attention of the public, the emergency messages are preceded and concluded with alert tones. In accordance with AB 415, the investigating law enforcement agency in a child abduction case is required to request EAS activation in the appropriate local area when specified alert criteria (see below) have been met.

Although there are a few counties in the state that have established local Child Abduction Regional Emergency (CARE) Alert programs along with regional EAS activation protocol, the California Highway Patrol (CHP) is the AMBER alert statewide coordinator and stands ready to assist with statewide or multiregional activations.

2.3 AMBER Alert Criteria

As established in Government Code (GC) Section 8594, law enforcement agencies are required, absent extenuating investigative needs, to request activation of the EAS in the appropriate local area for incidents that meet all the following criteria:

A. Confirmation that an abduction has occurred, or the child has been taken (e.g., witness verification, alternative explanations for a child’s absence eliminated, etc.)

B. The victim is 17 years of age or younger or has a proven mental or physical disability.

C. The victim is in imminent danger of serious bodily injury or death.

D. There is information available that, if disseminated to the public, could assist in the safe recovery of the victim.

The investigating agency will determine if an incident meets the AMBER Alert criteria with the assistance of the California Highway Patrol, Emergency Notification and Tactical Alert Center.

In accordance with Government Code Section 8594, law enforcement agencies shall only request EAS activation in a child abduction incident when all the criteria listed above have been met. The EAS is not intended to be used for abductions resulting from custody disputes that are not reasonably believed to pose an immediate threat to the life or physical health of a child.
2.4 California Highway Patrol Assistance

It is not the intent of the CHP to interfere in any way with jurisdictional responsibility in a child abduction investigation. Instead, the CHP stands ready to aid local investigating agencies when requested.

On August 18, 2002, the CHP’s Emergency Notification and Tactical Alert Center (ENTAC) was established. ENTAC serves as a centralized point-of-contact to aid investigating agencies as needed. ENTAC operates 24-hours a day, seven days per week, and can assist all California law enforcement agencies with the initiation and investigation of all levels of AMBER Alerts or an Endangered Missing Advisory (if the AMBER Alert criteria has not been established). When requested, ENTAC can also aid an investigating agency with the timely dissemination of child abduction information utilizing other resources. Contact with ENTAC is restricted to law enforcement agencies only- 916-843-4199.

When contacting ENTAC to request activation of the EAS, the investigating law enforcement agency will be asked to verify that all the alert criteria have been met. In addition, the investigating agency will be asked to provide relevant information (e.g., agency contact, suspect, and victim information) for EAS message composition and the utilization of many other investigatory tools.

In most instances, the local investigating law enforcement agency will be responsible for requesting assistance with the dissemination of child abduction information. However, should the CHP become aware of a child abduction incident prior to a formal notification or request for assistance, the investigating agency may be contacted by a CHP representative to help.

2.5 Activation procedures

A. When activating an AMBER Alert, the investigating agency shall refer to their specific abduction policies and procedures.

B. In the event of a confirmed child abduction the following procedures should be followed:

1. Radio transmission of a Be on the Look Out (BOLO) broadcast - the officer will immediately initiate an appropriate area wide and regional wide broadcast when applicable. Refer to your local procedures.

2. The missing child shall be immediately entered into National Crime Information Center (NCIC) system as an abducted child. The child’s name and other critical elements will be included in the NCIC entry. Once the EAS has been activated, law enforcement agencies should update their NCIC entry by clicking the “K” code which adds “AMBER Alert” to the victim’s name. By doing this, law enforcement agencies will recognize that the individual is a victim of an active AMBER Alert.

C. Contact the CHP’s Emergency Notification and Tactical Alert Center (ENTAC) for assistance
activating an AMBER Alert at (916) 843-4199. ENTAC can activate the EAS alert regionally or statewide.

D. The California Highway Patrol ENTAC Center is the primary agency that oversees the activations of freeway Changeable Message Signs (CMS), EAS alerts, and Wireless Emergency Alerts (WEAs). Contact the CHP-ENTAC immediately for activation of these services. If the specifics of the investigation necessitate an expansion of the AMBER Alert, the CHP can initiate a larger scale EAS activation, as well as expand the use of other tools throughout California and in neighboring states.

E. The handling law enforcement agency will prepare an initial press release that includes all available information. The press release should be immediately forwarded to their media services. The press release will include

1. The child’s identity, age, and description.
2. Suspect’s identity, age, and description.
4. Location of incident, direction of travel, potential destinations.
5. A media liaison or press information officer, and a telephone number for the media to call for additional information and/or updates.
6. A telephone number for the public to call with leads/information. Refer to mutual aid information contained herein.
7. A photo or digital image of the missing person.

F. The reporting agency should consider transmitting the information over their local and regional radio communications systems, i.e., transit systems, local area hospitals, public works, fire/EMS, animal control, lifeguards, ham radio associations, etc.

G. Child abduction poster and flyers.

Agencies should have the ability to disseminate abduction information via the image-based Critical Reach System (formally TRAK). The CHP-ENTAC will, upon being contacted, create an AMBER Alert, EMA, or Silver Alert flyer. CHP-ENTAC will publish the information on the CHP Alerts twitter page, @CHPAlerts.

1. International border issues

Notifications to the FBI should be made if there are indicators that the child may be transported out of state or the country. If the child has been transported across the Mexican border, the CHP Border Division Mexico Liaison Unit, San Diego Sheriff’s Department or the San Diego Police Department’s Mexico Liaison Units should be
contacted. If the child is being transported across the Canadian border, the Royal Canadian Mounted Police National AMBER Alert Center can be contacted.

2. Cancellation of an AMBER Alert

- The reporting agency shall contact ENTAC immediately upon locating the abducted or missing child; an immediate cancellation of the Alert shall be made.
- For any further reference or training on the California AMBER Alert program, contact: California Highway Patrol Emergency Notification and Tactical Alert Center (ENTAC) 916 843-4199.

2.6 Additional Resources

In addition to assisting with statewide or multi-regional AMBER Alerts, the CHP is prepared to assist local law enforcement agencies with the use of other resources to disseminate information and assist with the recovery of an abducted child. The following are general overviews of other resources that may be used to disseminate child abduction information:

A. Changeable Message Signs (CMS) / Highway Advisory Radio (HAR)

Operated by the California Department of Transportation (Caltrans), electronic Changeable Message Signs (CMS) are a highly visible means of disseminating real-time traffic safety and congestion information to the public as they utilize the highway transportation system. Currently, there are over 500 fixed CMS locations throughout the state.

As a component of the California Child Safety AMBER Network alert system, CMS can be used to transmit information to the motoring public regarding a child abduction case. To prevent overuse of the system, CMS will only be activated for an incident that meets all the AMBER Alert criteria. However, even for qualifying incidents, activation of CMS will be considered on a case-by-case basis taking into consideration motorist safety, local traffic conditions, and visibility.

For incidents that warrant activation of CMS, the investigating law enforcement agency will be consulted regarding the duration and geographical area of activation. For example, for an abduction occurring in Los Angeles in which it is believed that the suspect is still in the area, CMS may only be activated in the Los Angeles region. However, in the same incident, if there was information to suggest that the suspect was traveling to Sacramento, CMS and HAR may be requested along the freeway segments between Los Angeles and Sacramento.

The CHP and Caltrans jointly operate Transportation Management Centers (TMC) throughout the state. When use of CMS is requested for a qualifying child abduction incident, CHP’s ENTAC will contact the appropriate TMC to coordinate CMS activation within a specific region. Prior to CMS activation, the CHP will work with Caltrans and the investigating law enforcement agency to develop a concise message considering the character limitations associated with CMS. Under normal circumstances, CMS will not
be activated unless there is a suspect vehicle license plate and/or a unique description available.

B. CHP Internet Sites

Upon receipt of child abduction information, the CHP can also post continually updated information and photographs on the CHP home page (chp.ca.gov) and on the CHP Alerts Twitter page (@CHPAlerts).

C. California State Lottery

In 2010, the California State Lottery and the California Highway Patrol formed a partnership in order to disseminate AMBER Alert information to a larger population. During an AMBER Alert activation, the California State Lottery has the capability of displaying the information on more than 38,000 electronic message boards throughout the state (anywhere lottery tickets are sold).

D. Twitter

Due to the influx of people using social media sites to receive real time news and information, the CHP developed a strategic partnership with Twitter. @CHPAlerts.

2.7 Cases Not Meeting AMBER Alert Criteria

The AMBER Alert should be activated only in those child abduction cases meeting the mandatory AMBER Alert criteria. AMBER Alerts should not be used for cases involving:

- Runaways/International Acts
- Where no abduction is confirmed or occurred
- Missing children in which there is no evidence of foul play or the child is not in imminent danger of serious bodily harm or death
- Custody disputes where the child's life or physical health is not reasonably believed to be in imminent danger

It is important to remember that an AMBER Alert is effective only if activated when appropriate. If AMBER Alerts are misused or employed in cases that do not meet the GC criteria, the program's credibility and integrity can be diminished. For cases that do not meet these criteria, agencies should continue to exercise discretion in determining which of the many following available resources would be the most appropriate for transmitting information to other law enforcement agencies, the media, and the public.

2.8 Endangered Missing Advisory (EMA)

An EMA can be issued in cases where the statutory criteria for an AMBER Alert are not met; however, an agency has reasons to believe the person is at risk or endangered and assistance in
distributing information to help locate the individual(s) is desired. Although not all inclusive, the following are examples where an EMA, versus an AMBER Alert, may be appropriate:

- A custodial parent takes their child and, due to specific circumstances, the investigating agency deems the child to be at-risk/endangered.
- A juvenile is reported missing and there is no indication or confirmation that an abduction occurred.
- A person with a known medical condition, such as dementia, is reported missing.

An EMA involves many of the same alerting/notification measures utilized during an AMBER Alert, except for there is no activation of the EAS. An EMA generally consists of an Emergency Digital Information Service (EDIS) message, Critical Reach flyer Wireless Emergency Alert, Twitter post, Be-On-the-LookOut broadcasts, U.S./Mexico border notification (if appropriate), and notification to the National Center of Missing and Exploited Children. Additional notification systems can be used during an EMA; however, they are used on a case-by-case basis. Further questions regarding EMAs can be directed to ENTAC.

2.9 Silver Alert

A Silver Alert is a quick response alert system, similar to an EMA, but designed specifically for elderly or cognitively impaired persons who are reported missing under the following circumstances:

- The missing person is 65 years of age or older, developmentally disabled, or cognitively impaired.
- The investigating law enforcement agency has utilized all available local resources.
- The law enforcement agency determines that the person has gone missing under unexplained or suspicious circumstances.
- The law enforcement agency believes that the person is in danger because of age, health, mental or physical disability, environment or weather conditions, that the person is in the company of a potentially dangerous person, or that there are other factors indicating that the person may be in peril.
- There is information available that, if disseminated to the public, could assist in the safe recovery of the missing person.

The Silver Alert involves the same alert notifications as an EMA to include the optional WEA. There is still no activation of an EAS as used for AMBER Alerts. A Silver Alert typically consists of a digital flyer posted to Twitter, a Be-On-the-Lookout broadcast in the requested area(s), and a CLETS broadcast to allied law enforcement agencies. Although CMS is available, and can be utilized for missing persons known to be traveling via vehicle on California highways, it is
limited to targeted geographic regions where the missing person is confirmed to be traveling and should only be utilized for missing persons who have not been missing for an extended period of time.

Section 3  Management of the Long-Term Missing Person Case

Although majority of missing person cases will resolve by the return or location of the subject, a small but significant percentage will not be recovered within the first 30 days. Such cases are considered to have entered the long-term phase and will require long-term management. It is critical that if the missing person has not been located or returned after 30 days that the investigator ensure that the foundation of the missing person case has been properly laid by the collection and submission of identifier records into the appropriate searchable databases.

There are four primary means to identify any person who is either unwilling (because they are actively hiding from law enforcement) or unable (due to mental confusion, unconsciousness, or death) to identify themselves; 1) fingerprints, 2) dental records, 3) body X-rays/medical records and 4) DNA. It is a common misunderstanding that if the worst-case scenario has played out, and a missing person has been found dead somewhere, that it will be the task of the Coroner/Medical Examiner to complete the identification. Although it is true that the Coroner/Medical Examiner investigating an unidentified deceased person (or law enforcement investigating an unidentified living person) will have identifiers from the unidentified person, these cannot be used unless the missing person investigator has obtained the corresponding identifier for comparison to the remains.

3.1 The Critical Identifiers Which Should be Obtained by the Missing Person Investigator

A. Fingerprint Must Be Entered in AFIS and NGI

A missing person’s fingerprints may be “on file” somewhere, but unless they have been registered into the state Automated Fingerprint Identification System (AFIS) and the national Next Generation Identification (NGI) System. Fingerprints must be registered (not just run) in the automated systems so that they will match against the unidentified person’s fingerprints when they are entered into these same systems.

Sources for missing person’s fingerprints:

- Arrests
- Employment
- Military Service
- CA Driver’s License or ID (right thumb)
- Child safety programs

In the case of a critically missing child (at risk/endangered), consider lifting prints from the scene. Even latent-quality prints are better than none.
Fingerprints can be submitted to the agency’s local Identification Section, such as CAL-ID, for registration into AFIS.

It is recommended that the CAL-ID section provide the NCIC fingerprint coding for update to the NCIC record (“FPC”). This way the fingerprint classification would be available for comparison to unidentified person fingerprint codes.

B. Dental Records

Dental records are perishable. Dental providers in California are not required to hold these records. If a missing person has not returned within 30 days, the dental records (to include treatment records, charting, X-rays and photos) should be ordered and forwarded preferably in digital format to:

California Department of Justice
Missing/Unidentified Persons Unit
P.O. Box 160968
Sacramento, CA 95816-0968
Phone 916-210-3119,
Fax 916-731-3617
Email: missing.persons@doj.ca.gov.

C. Skeletal X-Rays

A frequently overlooked forensic tool, skeletal X-rays, particularly of the head, are often available even when dental records cannot be found. This is particularly true of elderly persons who may no longer have teeth or have not been to the dentist in years. But they may have complained of back, neck and head pain, and had skeletal X-rays taken for diagnostic purposes. A comparison may be made of such structures as the frontal sinus which are typically quite distinctive. Medical records may also be helpful and might include serial numbers useful in tracing implants.

Securing these X-rays and records follows the same procedure as dental records. It is strongly recommended that these be obtained digitally, and transmitted to DOJ-MUPS, as well as uploaded as JPG images to NamUs.

D. DNA

DNA is the newest and potentially the strongest forensic identification method. Paradoxically, the DNA of a deceased missing person may “live on” in the unidentified remains as well as the blood relatives. Both direct DNA samples and reference samples should be submitted for profiling.
PART FOUR  Missing Persons References and Investigative Resources

1. Direct DNA Sample Sources

Direct DNA samples may be obtained from items left behind by the missing person:
- Toothbrushes
- Hairbrushes
- Shaving razors
- Saliva-sealed envelopes
- Baby teeth
- Finger and toenail clippings
- Clothing (hats, shirts, undergarments, etc.)
- Biological samples retained at hospitals (biopsies, etc.)

2. Reference DNA Sample Sources

Samples obtained from blood kin, obtained as buccal swabs:
- Both biological parents, and…
- One biological parent and multiple siblings, or…
- All siblings, or…
- All offspring (and the non-missing parent, for an exclusion profile)
- Other more distantly related relatives

All direct and reference samples should be collected in the free kits provided by:

California Department of Justice
Missing Persons DNA Program
1001 W. Cutting Blvd., Suite 110
Richmond, CA 94804-2028
Attn: Jan Bashinki DNA Lab

Phone: 510 620-3300;
Email: DNAmissingpersons@doj.ca.gov.

Once these identifiers have been obtained and submitted, and the NCIC and NamUs records updated, the foundation of the long-term missing person case will have been laid.

E. Periodic Re-Contact with Family/Reporting Party

It is advisable to maintain contact with the reporting party and/or family. All too often a missing person returns, and yet law enforcement is either not notified of the return, or the
usual mechanism for verifying the return and clearing the case from the agency records and NCIC is not performed. Many active long-term cases in California’s missing person system are not missing, but the cases linger in NCIC; contact has been lost with the family and the case is never cleared. Periodic re-contact with the reporting party and/or other family member should be initiated by phone, email, or postal mail services, to request updates, offer additional advice, and to clear the case should the missing person return.

F. **Entry of Missing and Unidentified Person Fingerprints into IAFIS US DOJ CJIS**

The investigator should obtain latent prints and submit these to the state Automated Fingerprint Identification System (AFIS), either through the local fingerprint identification unit, or through the State Missing Persons Clearinghouse (800 222-3463). The request should be submitted in writing and should specifically ask that the fingerprints be registered with the state AFIS and forwarded to FBI for submission into NGI. The investigator must use the term “Fingerprint Stop” in the request. This phrase flags the record so that if there are any matches with the missing person’s fingerprint record, processing will be halted and referred to a fingerprint examiner. The examiner will then compare the matching records. If the match is positive, the examiner will contact the submitting investigator.

1. **NGI (CJIS)**
   - Customer Service Group – ask to speak with an analyst – 304-625-5590 or email spc@leo.gov
   - North Central: Dixie Hornick – 304-625-2737 - dhornick@leo.gov
   - Northeast: Buffy Bonafied – 304-625-2752 - bbonafie@leo.gov
   - Southern: Travis Olson – 304-625-2978 - toolson@leo.gov

2. **Electronic Submissions**
   - Each state has a CJIS WAN connection.
   - Local users submit fingerprints to the state AFIS.
   - State forwards fingerprints to the FBI.
   - Submissions must follow the ANSI/NIST format and must be EFTS compliant.
   - Configuration is required – Contact your regional representative for information.

3. **Facsimile – Urgent Requests**
   - Special Processing Center – 304-625-5587
   - Local and state databases should be searched first.
   - Based on written request from investigating agency.
Section 4  California Governor’s Office of Emergency Services – Law Branch Resources

Law Enforcement agencies can activate the California Law Enforcement Mutual Aid System (LEMA), the Search and Rescue System and various resources and equipment necessary to conduct missing person investigations. Activation of this system, through its steps as outlined in the Law Enforcement Mutual Aid Plan, enables agencies to receive support from their operational area (county), surrounding operational areas within their mutual aid region, and other regions, as well as State and Federal resources.

To activate the system within a city, the jurisdictional city law enforcement agency contacts their county operational area coordinator – local Sheriff’s Department, who acts as the Operational Area Law Enforcement Mutual Aid Coordinator. The coordinator may then provide the assistance, if available from within the operational area, or activate the regional or statewide system by contacting the California Office of Emergency Services - California State Warning Center, 24-hour service, at 916-845-8911, and requesting the Law Enforcement Branch Duty Officer.

Resources available under this system include:

- Consultant search management teams to assist agencies in conducting missing person searches
- Consultant search management specialists with expertise in missing person searches – wilderness or urban search
- Consultant search management specialists with expertise in predator abduction incidents
- Search and Rescue (SAR) teams and personnel
- Search dogs: “non-scent specific” dogs for area searches to locate any persons in an area, “scent specific” dogs for trailing/tracking only the missing subject’s scent, as well as cadaver and water (submerged victim) search dogs
- Search or communications platform aircraft through the California National Guard, Civil Air Patrol, other state agencies, or local government
- Communications frequencies: statewide mutual aid
- Communications equipment: mobile communications trucks and hand-held radios (VHF/UHF)
- Communications repeaters, portable and vehicle-based along with interoperability

NCIC entry required.
- Notification to investigating agency.
- Follow up every 6 months.
PART FOUR  Missing Persons References and Investigative Resources

- Satellite communications trailers: voice and data connectivity
- DOJ's Child Abduction Checklist for First Responders: refer to their website for additional resources

Section 5  Federal Bureau of Investigation (FBI) Resources

Overview of jurisdictional and investigative responsibilities:

A. FBI investigative classifications

The FBI has four different classifications used to differentiate the nature of the kidnapping investigation.

1. Kidnapping for ransom or financial gain

The FBI, historically and today, responds to ransom or financial gain kidnappings. A kidnapping will usually involve the FBI either as the lead agency or as an assisting agency. There is no need, benefit, or legal obligation to wait in notifying or requesting assistance from the FBI. Ideally, notification and/or request for assistance should be made as soon as possible. Any requests for assistance which can be predicted, or arise, should be acted upon as soon as possible. The less catch-up there is, the better the efficiency and effect of the assistance. This applies to all assisting agencies.

2. Removal (abduction) of child out of the United States by parent

In 1993, Congress passed the International Parental Kidnapping Act (IPKA), which can be found in United States Code, Title 18, Chapter 55, Section 1204. In general, this legislation makes it a Federal violation for the offending parent to remove the victim child from the United States, in violation of court ordered custody. This statute works in addition to The Hague Convention Treaty, which holds the signatory countries to an obligatory legal process, aimed at assuring the victim child's welfare, and setting out remedies for the custody issues.

3. Child Abductions

The abduction or mysterious disappearance of a juvenile under the age of 18 falls under this classification. The FBI, while under the directorship of Louis Freeh, expended much time and effort to train agents, and develop entities within the FBI, to address and prioritize these crimes as the risk of harm or death to the victim is great.

4. Subjects who flee to avoid prosecution

Subjects who flee from prosecution utilizing interstate commerce may have federal complaints, and arrest warrants, issued for them under United States Code, Title 18, Chapter 49, Section 1073. These cases are known as Unlawful Flight to Avoid
Prosecution (UFAP) matters. If a subject, who has a locally issued arrest warrant, flees across state lines, including leaving the country, the agency with jurisdiction can request assistance from the FBI (the requesting agency should indicate a promise to pay for the subject’s extradition and the intent to prosecute). In these instances, the FBI will author a complaint for violation of Federal law and obtain a federally authorized arrest warrant. Upon the capture and extradition of the subject by the requesting agency, the Federal Court will usually dismiss the UFAP prosecution. This can be used for parental kidnappings when the court issues an arrest warrant for the offending parent. In cases where the subject has fled interstate, the FBI can be requested to assist in the search for the offending parent, under the Federal violation of UFAP. It should be kept in mind that the requirements for the UFAP request, and Federal jurisdiction over international parental kidnappings, are basically the same, with the exception that the international search will require assistance from both the United States Department of Justice, and the United States Department of State.

B. FBI Resources

1. The FBI has developed a very comprehensive resource packet entitled “Child Abduction Response Plan – An Investigative Guide” which is available to all agencies free of charge. The packet, which was developed by the FBI’s Behavioral Analysis Unit (BAU) after extensive research, includes a spiral-bound book and a CD with forms and templates for a variety of suggested investigative canvasses. The material is also available electronically. Call your local FBI Office and request to speak with a Crimes Against Children or BAU Coordinator in order to receive copies of the packet.

2. The FBI’s Child Abduction Rapid Deployment (CARD) Team was created in 2005 to facilitate an immediate response to the abduction or mysterious disappearance of a child. The team consists of approximately 80 specially trained FBI Special Agents and Intelligence Personnel located throughout the US. The team’s mission is to assist the investigating agency with additional manpower, resources and expertise as quickly as possible. The requesting agency maintains control of the investigation. The child does not have to be missing for 24 hours nor thought to have been taken interstate for the CARD Team to provide assistance.

3. The CARD Team is equipped to deploy immediately upon learning of a missing child; therefore, it is requested the FBI be contacted as soon as possible after such an event. A CARD deployment will typically consist of about five agents, two Intel Analysts, and two agents from the Behavioral Analysis Unit. To request a CARD deployment, contact your local FBI office as soon as possible following an abduction or report of a missing child. The field office will then contact FBI HQ and begin the process. There is no cost to the requesting agency related to the deployment of the CARD Team.
PART FOUR  

Missing Persons References and Investigative Resources

4. The FBI has a wide range of technical and investigative resources available to law enforcement agencies. Availability of these services is through the agent responsible for the case and are provided free of charge. Some of the resources available through the FBI include:
   - Pen register trap and trace
   - Title III wiretaps
   - Cellular telephone tracking
   - Pole cameras
   - Evidence Response Team/Computer Analysis Response Team
   - Behavioral Analysis Unit
   - Violent Criminal Apprehension Program (VICAP)
   - NCIC off-line searches

5. The FBI has 63 Legal Attaché offices—commonly known as “LEGATs”—and more than two dozen smaller sub-offices in key cities around the globe, providing coverage for more than 180 countries, territories, and islands. Each office is established through mutual agreement with the host country and is situated in the U.S. Embassy or Consulate in that nation.

6. The local FBI field office has agents who are trained and dedicated to investigating child exploitation matters, including child abductions and missing child cases. Investigative assistance, along with major case management, is available.

7. The FBI has agents in, or within reach of any place in the United States. Leads that are issued by your local FBI field office to other FBI field offices can be the most expeditious way to cover leads such as interviews of family members or possible subjects out of state.

8. The FBI maintains information on previous FBI cases and subjects. Beside the access to NCIC and NLETS, the FBI may have additional information from other Federal sources which may be helpful to your investigation.

C. Recommendations for developing a working relationship with the FBI

The field offices of the FBI are determined by the United States Judicial Districts. Each FBI field office is administered by a Special Agent in Charge (SAC), with at least two Assistant Special Agents in Charge (ASAC). Larger offices such as New York, Los Angeles, and Washington DC Field Offices are led by an Assistant Director in Charge (ADIC), and supported by SAC’s, ASAC’s, and Supervisory Special Agents (SSA’s).

1. The head of each FBI field office is autonomous but must follow directives of the FBI Director. The field offices in California are located in San Diego, Los Angeles,
PART FOUR  Missing Persons References and Investigative Resources

San Francisco, and Sacramento. Each field office has smaller satellite offices, known as Resident Agencies (RA), that cover remote areas within the field office’s area of responsibility.

2. Each field office can put different priorities on federal violations, but not outside the priorities as directed by FBI Headquarters. A child abduction is considered a top priority by FBI HQ and should be treated as an exigent matter by each field office. The response a field office gives to your request for assistance is usually based on that particular office’s current case load and available resources. However, if you feel the response was not acceptable, you may want to consider taking the request up the chain.

3. It is recommended that law enforcement investigators or representatives develop or strengthen strong working relationships with their local FBI agents. When it comes time for you to call upon the resources of the FBI, it is best that you are able to start on a first name basis with someone you have previously worked with to get the “ball rolling” on your request for assistance.

4. In the event of a missing child investigation in which FBI assistance has been requested, consider pairing up agents with your agency’s detectives or officers. Each brings a different perspective and has different resources, which makes a great investigative balance. Additionally, pairing the agencies creates stronger working relationships that will be beneficial for future cases.

Federal Bureau of Investigation (FBI) contact information:

FBI Headquarters  Washington, DC  (202) 324-3000
California Divisional Offices  San Francisco  (415) 553-7400
Sacramento  (916) 481-9110
Los Angeles  (310) 477-6565
San Diego  (858) 565-1255

Section 6  Department of Justice (DOJ) Resources

The Missing and Unidentified Persons Unit (MUPS) assists Law Enforcement Agencies (LEA) in locating missing persons and identifying unknown living and deceased persons. MUPS maintains the Missing Persons System (MPS) and the Unidentified Persons System (UPS) available through CLETS.

MUPS is responsible for the following four components:

Physical identification:

▶ Compares physical characteristics of a missing person to those of an unidentified person.
Part Four  
**Missing Persons References and Investigative Resources**

- Inquiries into a variety of governmental and private databases for information that may result in the location of a missing person.
- Assists LEA with questions regarding transactions and updates to MPS and UPS.
- Identification through medical records/implants/x-rays.

Dental identification:
- Charting and classifying dental charts and X-rays of MP submitted by law enforcement agencies.
- Compares dental records of missing persons to X-rays of unidentified persons submitted from coroners.

Missing Children Clearinghouse:
- Maintains an international, 24-hour toll free telephone hotline (800 222-FIND) to receive and relay information to law enforcement agencies regarding missing children.
- Publishes and distributes a monthly missing children poster and *Quarterly Bulletin* featuring missing children and dependent adults throughout California.
- Provides free-of-charge fingerprint cards to agencies for the voluntary fingerprinting of children.
- Maintains the [Attorney General’s Missing Person website](#) with photographs of missing persons.
- Nationwide networking of all clearinghouses to aid in locating children taken out of or brought into California.

Training:
- Provides POST-certified training on Missing & Unidentified Persons Investigations.
- Provides MUPS related training for local agencies, seminars, trainings, and conferences upon request.

To request any of the above services, contact the MUPS unit at: 916-210-3119 or [missing.persons@doj.ca.gov](mailto:missing.persons@doj.ca.gov)

**Section 7  Missing Persons DNA Program**

The Missing Persons DNA Program uses DNA analysis and data matching to determine the identity of missing and unidentified persons. The Missing Persons DNA Program stores DNA profiles in two different searchable databases: 1) DNA profiles from both the biological relatives of reported missing persons and self-reference samples from the missing persons (e.g. toothbrush, baby teeth, or clothing), and 2) DNA profiles developed from samples from unidentified persons. The county coroner or medical examiner’s office submits most unidentified deceased person samples. Most living unidentified persons’ samples are submitted by the law enforcement agency (e.g.
Alzheimer patient, coma victim, or a person who cannot identify themselves). Identification will be made if the DNA profile of the sample from the unidentified person “matches” a DNA profile in the reference file. While the relatives of missing person DNA index is only searched against the unidentified person index, the unidentified persons-index is searched against itself, as well as the missing persons index, the, the relatives of missing persons index, and the CAL-DNA Data Bank.

### 7.1 Requirements regarding the Missing Persons DNA Program

#### A. For missing person sample submission, the case needs to be active.

1. **Penal Code 14250 (a)(4)** “For the purpose of this database, “high-risk missing person” means a person missing as a result of a stranger abduction, a person missing under suspicious circumstances, a person missing under unknown circumstances, or where there is reason to assume that the person is in danger, or deceased, and that person has been missing more than 30 days, or less than 30 days in the discretion of the investigating agency.”

2. The family must be notified of their voluntary right to submit DNA.
   a. **PC §14250(C)(2)** “After a report has been made of a person missing under high-risk circumstances, the responsible investigating law enforcement agency shall inform the parents or other appropriate relatives that they may give a voluntary sample for DNA testing or may collect a DNA sample from a personal article belonging to the missing person if available. The samples shall be taken by the appropriate law enforcement agency in a manner prescribed by the Department of Justice. The responsible investigating law enforcement agency shall wait no longer than 30 days after a report has been made to inform the parents or other relatives of their right to give a sample.”

#### B. DNA Sample Collection

1. The Missing Persons DNA Program has FREE DNA collection kits for the family DNA sample and missing person reference items. Please see the attached submission form. The DNA samples should be collected from both biological parents. If both parents are not available, use the reference chart below to determine the order for collecting samples from other biological family members. In all possible circumstances, the Missing Persons DNA Program needs more than one family reference sample. If no family members referenced on the chart below are available, contact the Missing Persons DNA Program at (916) 227-5997 for additional donor information.

2. Reference items from the missing person include but are not limited to:
   a. Baby book items
      1. Baby teeth
### 7.2 DNA Sample Collection Reference Chart

Note: All California missing persons cases must be active and/or “high risk” for the Missing Persons DNA Program to process the DNA. All samples are to be sent in the pre-addressed kits to the California Department of Justice Missing Persons DNA Program. For FREE Missing Persons DNA Specimen Collection Kits, contact:
Missing Persons DNA Program
510-620-3300
dnamissingpersons@doj.ca.gov

Biological Samples collected for the purpose of DNA identification are destroyed “after a positive identification with the deceased’s remains is made and a report is issued” unless a law enforcement agency determines the identified person’s death has occurred by criminal means, the government entity is required to retain the material, or other statutory condition for retention applies. (See Pen. Code, § 14250, subd. (c) (6).

Section 8 Department of Justice (DOJ) Related Reporting Forms

8.1 Authorization to Release Dental/Skeletal X-Rays and Photographs of Missing Juvenile

Under California Penal Code Section 14212, the family or next-of-kin of any person under the age of 18 years who is reported missing and has not been located within thirty (30) days may authorize the release of the dental or skeletal X-rays, or both, and treatment notes and a recent photograph of the missing juvenile. This release form shall be taken to the dentist, physician and surgeon or medical facility of the missing person to obtain the release of the dental or skeletal X-rays and treatment notes. The dental or skeletal X-rays, or both, shall be released to the person presenting this request. The person to whom the records are released shall, within ten (10) days, bring those records to the police or sheriff's department or other law enforcement agency having jurisdiction over the investigation.

If your missing juvenile is found, please notify the law enforcement agency immediately.

AUTHORIZATION

I am a family member, next-of-kin, or law enforcement official investigating the disappearance of the above-named missing juvenile and I hereby authorize the release of all dental or skeletal X-rays and treatment notes to assist law enforcement agencies in locating the above-named missing juvenile. I also consent to the release of the above-named missing juvenile’s photograph, physical description, and circumstances surrounding the disappearance. This information may be used by the Department of Justice for inclusion in missing children bulletins and posters which will be distributed throughout California to law enforcement agencies, elementary and secondary schools, state buildings, appropriate roadside rest areas, and other parties determined appropriate by the Department of Justice to assist in locating the missing juvenile, including the Attorney General’s Website at https://oag.ca.gov/.

8.2 Authorization to Release Dental/Skeletal X-Rays and Photographs of Missing Adult

Pursuant to California Penal Code 14212 (a), the code requires all law enforcement agencies to notify the child’s school of attendance, in writing, when a child is reported missing/adult. The code requires the school to place the notification letter in the front of the school’s enrollment record.

If your missing adult is found, please notify the law enforcement agency and dental or skeletal X-rays and treatment notes. The dental or skeletal X-rays, or both, and treatment notes shall be released to the person to whom the records are released given within 10 days of the child’s disappearance.

8.3 School Notification of Missing Child - 2 Page Form

Pursuant to California Educational Code 49068.6 (a), which was added January 2001, the code requires all law enforcement agencies to notify the child’s school of attendance, in writing, when a child is reported missing/adult. The code requires the school to place the notification letter in the front of the school’s enrollment record.

1. In industry cases, placing a child in an elementary school (i.e., adoption, or other related serious victimization), the school shall inform the principal school records in order to enroll the child in a new school. By having the facts in the front of the child school enrollment record, the school would be made aware of the situation and cause law enforcement authorities to be notified immediately, potentially aiding in the recovery of the child.

2. The second purpose of this form involves cases where a child runs away and returns to school, not staying for or for the period.

EDUCATION CODE SECTION 49068.6

49068.6 (a) EC: Upon the initial enrollment of a pupil in a public or private elementary school, or whenever an elementary school pupil (a) transfers from one school district to another, (b) transfers to an elementary school within the same district, (c) transfers from one private elementary school to another, (d) transfers from a private elementary school to a public elementary school, or (e) transfers from a public elementary school to a private elementary school, the principal of the school that the child enters or to which he or she transfers is urged to check to see if the child resembles a child listed on the back page of the registration form provided by the Department of Justice pursuant to Section 12071 of the Penal Code.

49068.6 (b) EC: Every school notified pursuant to this section shall place a notice at the school that the child has been reported missing on the front of each missing child’s school record. For public schools this shall be in addition to the posting requirements set forth in Section 38139.

49068.6 (c) EC: Local law enforcement agencies may establish a process for informing local schools about abducted children pursuant to this section.

INVESTIGATIVE CHECKLIST FOR FIRST RESPONDERS

This checklist is adapted from and to be used as a supplement to INVESTIGATIVE CHECKLIST FOR FIRST RESPONDERS - 4 Page Form.

FIRST RESPONDER

☐ Determine if additional personnel are needed at the scene. Call and report the NCMEC Investigative Checklist for First Responders - 4 Page Form activated. Discuss plan activation with supervisor.

☐ Identify the circumstances of the missing/abducted child, abductor, and any vehicles used.

☐ Evaluate whether the circumstances meet the missing child/abductor.

☐ Conduct a criminal history background check on the child, abductor, and any vehicles used.

☐ Determine the need for external, rapid resource teams to assist.

☐ Evaluate the contents and appearance of the missing child’s personal items.

☐ Conduct an interview of any who might have about the circumstances.

☐ Identify any additional persons who might have information.

☐ Identify any vehicles or property that might have information.

☐ Conduct a thorough search of all areas where the child may have been located.

☐ Conduct a criminal history background check on any suspect.

☐ Evaluate the role of technology in the investigation.

☐ Identify and interview the individuals who last had contact with the child.

☐ Conduct an interview of the child’s family to determine: who made the initial report. When, where, and by whom the child was reported missing. The circumstances of the report. What the victim said to the person last seen. What the victim said to family members. Is there a standardized questionnaire?

☐ Conduct a standardized investigation if the age is an issue.

☐ Conduct an investigation of all communications.

☐ Conduct a social media investigation of all social media accounts.

☐ Conduct an investigation of all electronic communication devices.

☐ Conduct an investigation of all other online apps and platforms.

☐ Conduct an investigation of all social media accounts.

☐ Conduct an investigation of all electronic communication devices.

☐ Conduct an investigation of all other online apps and platforms.

☐ Determine if social services or child welfare services were involved in the case.

☐ Conduct an investigation of all other online apps and platforms.

☐ Conduct an investigation of all electronic communication devices.

☐ Conduct an investigation of all other online apps and platforms.

8.8 Critical Reach Sample Flyer

**Missing/Endangered Child**

**Date:** 4/20/2006  
**Case #:** 06-456  
**Author ID:** JJL

**Last Name:** Jenkins  
**First Name:** Alison  
**Nickname:** Ali  
**Age:** 9  
**Gender:** Female  
**Height:** 4'3"  
**Weight:** 85  
**Eyes:** Blue  
**Hair:** Blonde  
**Complexion:** Fair  
**Race:** Caucasian

Alison was last seen in Rayburn Park in River City at 3:30 PM on April 20th while walking home from school. She was wearing a blue jeans overall with a bright yellow short-sleeved shirt. She was wearing red tennis shoes and her hair was in a ponytail.

A possible suspect seen in the area is a white male, 6'0" and 175 lbs, wearing blue jeans and a white tee shirt. The suspect may be driving a blue Ford Taurus, estimated 1995 model.

Any information on Alison, the suspect, or the vehicle should be reported to this department immediately.

8.9 Declaration of Authority for Seizure of Dental/Medical Records

Use this form to obtain dental/medical records. Select “Get File”, then place your agency letterhead on the document.
Section 9  Additional Resources: Agencies and Organizations

9.1 National Center for Missing and Exploited Children (NCMEC)

NCMEC was established in 1984 as a private, nonprofit, and tax-exempt organization to provide services nationwide for families and professionals to prevent the abduction, endangerment, and sexual exploitation of children. NCMEC is an excellent resource to assist local law enforcement agencies with missing child (up through the age of 20 years) and child sexual exploitation cases.

NCMEC offers:

A. Technical assistance to law enforcement agencies in the prevention, investigation, prosecution, and treatment of cases involving missing and exploited children, at no cost to the agency.

B. A national clearinghouse of information on missing children.

C. Networking with other nonprofit providers and state clearinghouses regarding missing/abducted children cases.

D. A 24-hour public CyberTipline used to report Internet-related child sexual exploitation at www.CyberTipline.org or 1-800-THE-LOST.

E. Training for law enforcement, public safety communications, and child-serving professionals on missing and sexually exploited children through NCMEC CONNECT online learning and in-person training delivered in Alexandria, VA and host sites around the country.

F. Access to NCMEC’s Lost Child Alert Technology Resource (LOCATER) system, at no cost:
   1. Using the secure LOCATER website, agencies can easily create missing person posters and instantly transmit them electronically to other agencies, the media, and the public via the internet.
   2. Both sending and receiving agencies can print high quality posters for distribution at briefings, roll-calls, incident command posts, and within the community.

G. Model policy and procedures templates for law enforcement agencies and emergency communications centers:
   1. Law Enforcement Policy and Procedures for Reports of Missing and Abducted Children
   2. Free publications and checklists available on the NCMEC website relating to missing/abducted children.
PART FOUR  Missing Persons References and Investigative Resources

H. “Team Adam” named after Adam Walsh, the abducted and murdered six-year-old son of John and Reve Walsh. Team Adam is an on-site resource and support system that aids local law enforcement agencies and immediate access to NCMEC resources, at no cost:

1. NCMEC has a team of 135 experienced consultants around the country who respond on-site to aid and resources to law enforcement agencies during critical missing child investigations.

2. The consultants advise, assist, and offer NCMEC’s extensive resources, which include but are not limited to:
   a. On-Site technical assistance to law enforcement.
   b. Strategies and recommendations regarding critical missing child cases.
   c. Search management and access to search related assistance such as K-9’s (Scent/HRD), the Air Force Rescue Coordination Center (AFRCC), Ground Penetrating Radar, mapping capabilities and other search and rescue related resources.
   d. Landfill search assessments.
   e. Direct access to Federal partners including the FBI, HSI, USMS, Army CID, NCIS, Postal Inspectors, Secret Service, State Department and others.
   f. Case Reviews and facilitating biometrics collection on long-term missing child cases.
   g. Child safety education and outreach including presentations and exhibits at conferences and missing persons events, and training to Child Abduction Response Teams.
   h. Sex offender tracking.
   i. Family Advocacy Services.
   j. Database searches.
   k. Vetting of leads, and the organization and digitization of case files.
   l. Poster distribution and Age Progression images.
   m. Access to forensic testing through partnerships with nongovernment organizations.
   n. Disaster response through partnership with FEMA to include the National Emergency Child Locator Center (NECLC) and Unaccompanied Minors Registry.
   o. Media assistance.

3. “Code Adam” training and resources designed to help businesses, parks, government buildings and other establishments ensure they have safety protocols
PART FOUR Missing Persons References and Investigative Resources

in place to respond quickly and effectively to situations involving a missing child.

9.2 National Center for Missing Adults (NCMA)

The national Center for Missing Adults is a division of Nation's Missing Children Organization, Inc. (NMCO) and is a tax-exempt non-profit organization working in cooperation with the U.S. DOJ's Bureau of Justice Assistance, Office of Justice Program.

NCMA was formally established in October 2000 and operates as the national clearinghouse for missing adults, providing services and coordination between various government agencies, law enforcement, media, and the families of missing adults. NCMA also maintains a national database of missing adults determined to be “endangered” or otherwise at risk.

9.3 Alzheimer’s Association “Safe Return” Program

This is a nationwide identification registry program designed to assist law enforcement agencies with information to quickly identify and return those individuals who have wondered off. It offers the following:

A. The ability for families to register, in advance, loved ones who have the disease and are at risk of “wandering away.”

B. Offers a 24-hour hotline service.

C. Provides names, photographs, identifying characteristics, and emergency contact information.
D. Offers a **Law Enforcement Officer’s Pocket Response Guide** that describes the best ways to recognize, communicate with, and respond to a person with Alzheimer’s.

### 9.4 APBnet Law Enforcement Alert System

The APBnet Alert System is a state-of-the-art tool that enables law enforcement to send photo alerts, within minutes, to the exact recipients who need them most. Over 1,400 law enforcement agencies are currently using this software application. Authorities share secure, real-time alerts with each other — the recipient is actively notified when the alert is received for fast response. The shared address book of alert recipients enables authorities to transmit alerts to precise sets of public recipients (e.g., schools, hospitals, businesses, media, transportation centers, etc.)

APBnet is a proven, flexible, and easy-to-use tool valuable for officers on the full range of criminal and community safety cases. APBnet uniquely connects Federal, State, County and Municipal agencies so information and images can be shared across jurisdictional lines faster than criminals. APBnet puts a face to the dangers officers face daily and uniquely enables jurisdictions to work together effectively.

Now APBnet includes PhotoSearch, allowing officers to search the database of 650,000+ bulletins to find likely matches for a source photo.

Established by nonprofit Critical Reach, APBnet has been developed by and for law enforcement. This law enforcement asset is supported exclusively by very modest annual support fees paid by agencies using it, making it available to all law enforcement agencies nationwide at very nominal cost.

1. **APBnet Alert System contact information:**
   - Web: [http://www.apbnet.net/](http://www.apbnet.net/)
   - Email: info@APBnet.net
   - Phone: 950-558-8081
### 9.5 Additional Organizations

The following agencies may be of assistance to you and your agency in your missing person investigation. This list is not all-inclusive and there are many other agencies, too many to list, that may be of value to you. The California Department of Justice (DOJ) Missing and Unidentified Persons Unit in Sacramento (916) 210-3090 can be an excellent reference to identify other valuable resources.
